VOL. XXXIII, NO. 117.

ASTORIA, OREGON, WEDNESDAY, NOVEMBER 20, 1889.

PRICE FIVE CENTS

## DEMENT'S ASTORIA

This tract is beautifully located on the John Day Slope; joins Riverside on the East and Columbia Second Addition on the North.

It is by far the most beautiful and sightly piece of land yet offered for sale. The timber is light (small hemlock) and the land can be cleared of every stick and stump for less than thirty dollars (\$30) a block. When so cleared it is comparatively level; only enough slope to secure good drainage.

We offer the first twenty (20) blocks at the low price of sixty-five dollars [\$65] for inside, and eighty dollars [\$80] for corner lots. **DON'T WAIT!** Don't join that army of people who in less than one year from to-day will congregate on the street corner and tell how they could have bought the City of Astoria for five hundred dollars [\$500] and made a fortune, but did'nt. **BUY NOW!**

### Ask For Ayer's

Sarsaparilla, and be sure you get it, when you want the best blood-purifier. With its forty years of unassumed success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's Sarsaparilla to any other. The foremost of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far exceed those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaus, Pharmacist, Roseland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. There is nothing so good for the youthful blood as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the Doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Calhoun, Monmouth, Kansas.

### SNAP SHOTS.

Scooped From the Tacoma "Globe."

In Cuba it costs \$24 a year to take a newspaper. A Tacoma man says it is going to cost a neighbor of his more than that if the neighbor don't quit taking his *Globe* before he gets up.

An expert musician says that only one man in a thousand can whistle a tune. If it were more truthful than it is, it would be a matter for special notice in the *Whistling Day*.

A Democratic newspaper says: "President Harrison is a lightweight." This would not be so astounding from such a source were it not that the president has sat so heavily upon so many Democrats.

In Michigan dogs are assessed \$1 each for being dogs. In Tennessee they assess doctors 50 cents each for being doctors. So it costs a half a dollar more to be a dog in Michigan than it does to be a doctor in Tennessee.

Sam Jones says: "If I had a creed I'd sell it to a museum." Doubtless it would be quite a curiosity. A man who can talk of God putting the angels on half rations may have lots of religion, but he is welcome to keep it.

A book has been sent to this office entitled, "How to Get Strong." One way to get strong is to lie around beer saucers, digk schooners, eat onions and limberger and wear the same socks until they are rights and lefts. We don't want to get strong.

Milt Nobles is a great actor and an excellent gentleman, but in giving to the world the expression, "The villain still pursued her," he has much to answer for. Not so much on account of anything intrinsically bad about the remark as that so many people use it when they might be expected to say something else.

A Walla Walla young man promised his wife that if he got too poor to have the family washing done at a laundry he would do it himself. He has reached the washing stage in his finances, but he kicks on fluted skirts and things, wears a blue flannel shirt which he changes twice a year—whether he needs a change or not.

A fair eastern exchange desires to be informed as to how many young women commit suicide in New York. Probably one reason is that they are in New York when the fello de se fancy takes them. Another reason is that they have no fellow to see, and yet another is because they don't come to Washington and find out that life is worth living, and where women have no desire to become celestial angels until they are pressingly invited.

Anguish Unspeakable.  
Is endured by the victims of inflammatory rheumatism, and any form of the disease may reach that agonizing phase or attack the heart and cause death. Unhappily they who are its preliminary twinges seldom realize this. Like other possibly dangerous maladies, rheumatism is often disregarded at the outset. Well will it be for him if this brief notice shall serve as a warning of future peril or pain to a reader troubled with incipient rheumatism. The proper sequel will be an instantaneous resort to the great preventive depurative, Hostetter's Stomach Bitters, whose virtues of professional commendation popular experience has confirmed. There is no finer or more genial antidote to the virus of rheumatism in the world. The bitters conquers malaria, indigestion, liver and kidney troubles.

Fashionable women this winter will be as shaggy as a bear. All smooth dress material will be neglected.

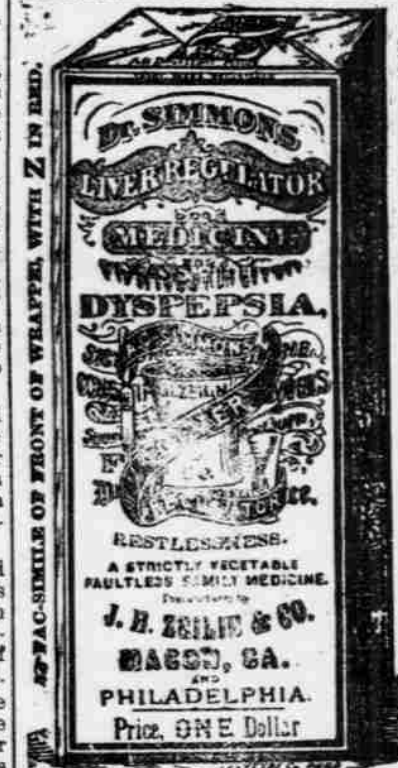

Prophylactic in Sickness.  
"Typhoid Fever has broken out again, but wherever Darby's Prophylactic Fluid has been freely used there has been no fever."—M. H. LANCASTER, P. M., Ed. Central Alabamian.

"The fluid is not merely a deodorizer, but a disinfectant—a destroyer of the disease germs in an atmosphere which cannot be breathed without danger."—NEW YORK EVENING POST.

There are some things a dwarf can't do, but he can catch just as big a cold as a giant.

Ayer's Sarsaparilla. No record of forty years is one of triumph over blood diseases.

### NO HOUSEHOLD SHOULD BE WITHOUT

The majority of the ills of the human body arise from a diseased Liver. Simons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any other agency on earth. SEE THAT YOU GET THE GENUINE. Price 50¢.

Curiosities of the Indian Mind.  
He once told me how a party of Indians, fresh from the wilds, greeted their first view of a locomotive. They made no comment, and didn't even get up of the ground to examine it. But when a line man walked up a telegraph pole, like a woodpecker up a maple, they fell into paroxysms of enthusiasm. Simply one thing was in the range of their astonishment and the other wasn't.

### Children Cry for Pitcher's Castoria

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

Don't heap coals of fire upon your enemy's head. Remember that coal is \$9 per ton. Economy is wealth.

Have you taken a cold? You can cure it promptly with Ayer's Cherry Pectoral. The safest remedy for throat and lung troubles.

### A VERY GOOD SHOWING.

Survey of the Mouth of the Columbia.

The survey of the mouth of the Columbia ordered by the chief of engineers was completed some time since, under the direction of Major T. H. Handbury, United States engineers, and the notes are now being worked up in his office. Following is an extract from the *Oregonian*, from his report to the chief of survey: "Very pleasant to the natives" taken place on the bar in the survey of 1885. At that date the extent of crest between the crossing of the eighteen-foot curve on the north and the crossing of the same curve on the south was about one and one-fourth miles. Now this distance is five miles, the middle sands having been entirely washed away. In other words, in 1885, vessels crossing the bar had a width of channel of one and one-fourth miles; now they have equally good water for five miles. There has been a gain also of available channel depth of from one to two feet. The indications are that the best water will be found directly out over the middle of the bar. The jetties undoubtedly is producing this result. I have every confidence that after the next June rise of the river a well-defined channel of at least twenty-six feet at low water will be developed.

This may be considered a very satisfactory showing, when it is remembered that there was no flood in the Columbia last year, and therefore the jetties did not produce so much change as it otherwise might.

Major Handbury says work on the locks at the Cascades will be shut down and the men discharged on December 1, the works being left for the winter in charge of two watchmen.

Work will be kept up on the jetty at the mouth of the river with the exception of extending the tramway, as long as the weather will permit of taking stone down, and a force will be employed in the preparation of plant for the next season. A number of cars will be built and a new pile driver, as the old one is getting worn and liable to give out, and it is not advisable to wait till this occurs and then have the work delayed till a new one can be built.
