VOL. XXXIII, NO. 120.

ASTORIA, OREGON, SATURDAY, NOVEMBER 23, 1889.

PRICE FIVE CENTS

DEMENT'S ASTORIA

This tract is beautifully located on the John Day Slope; joins Riverside on the East and Columbia Second Addition on the North.

It is by far the most beautiful and slightly piece of land yet offered for sale. The timber is light (small hemlock) and the land can be cleared of every stick and stump for less than thirty dollars (\$30) a block. When so cleared it is comparatively level; only enough slope to secure good drainage.

We offer the first twenty (20) blocks at the low price of sixty-five dollars [\$65] for inside, and eighty dollars [\$80] for corner lots. **DON'T WAIT!** Don't join that army of people who in less than one year from to-day will congregate on the street corner and tell how they could have bought the City of Astoria for five hundred dollars [\$500] and made a fortune, but did not. **BUY NOW!**

Ask For Ayer's

Sarsaparilla, and be sure you get it, when you want the best blood-purifier. With its forty years' unexampled success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's

Sarsaparilla to any other. The fore-runner of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far exceed those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaup, Pharmacist, Rockland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. There is nothing so good for the youthful blood as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Cahoon, Nounmouth, Kansas.

WANAMAKER'S FAST TRAIN.

It Did Not Make the Quickest Trans-continental Trip.

The fast mail train recently ordered by Postmaster General Wanamaker, between New York and San Francisco, has made its initial trip between New York and San Francisco and arrived at the latter place on schedule time: Four days, 12 hours and 45 minutes. The distance between New York and San Francisco, traversed by the train, is 2391 miles. This number of miles divided by 108 hours and 45 minutes, reveals that the train traveled at the rate of 22.93 miles an hour including stoppages. It has been stated by papers that this is the fastest time ever made by a train across the continent.

This is an enormous statement. The Jarret and Palmer train, containing Lawrence Barrett and the members of the Henry V. troupe left New York on June 1, 1876, and reached San Francisco on June 4. The exact time occupied in crossing the continent was 83 hours, 39 minutes and 16 seconds. Thus it will be seen that the Jarret and Palmer train beat the fast mail train which arrived in San Francisco yesterday just 25 hours, 5 minutes and 44 seconds. Postmaster General John Wanamaker will have to bestir himself to beat, or even equal, the time made across the American continent by those two enterprising theatrical managers in the year 1876.

An Extraordinary Wager.

St. PAUL, Minn., Nov. 21.—Walter A. Bain, Perry S. Luke and James S. Luke, of Victoria, Australia, reached St. Paul last evening. They are on a tour of the world from Melbourne, a bet having been made by one Bryce, the reporter of a Victoria sporting paper, and a Ballarat banker, that the trip could not be made under certain conditions in eight months. They reached Tacoma on September 15th, and started across the continent on foot, following the line of the Northern Pacific. The conditions of the bet are that every appliance may be used for traveling after reaching New York, but that the journey across North America must be made on foot. The bet is for three thousand pounds, and the pedestrians are due at the Auckland club in Melbourne just eight months from the date of their departure. The travelers are in good health and are confident of success.

Children Cry for Pitcher's Castoria

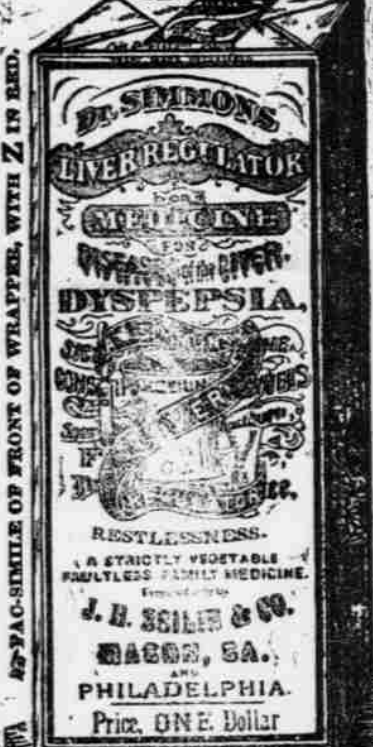

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

There is said to be a large band of wild horses, led by a thorough gibbered known to the stock men as the "Outlaw Stud," ranging between Truckee, Nevada county, and Pea Vine, Nevada. Year ago the stud, a fine racer, escaped to the mountains and has since defied capture. By desperate riding stockmen manage to get into the band every year and drive out the colts. The horses range on the highest peaks beyond where cattle or sheep often go. They only go to water once a day, and then in single file down the mountain trail as fast as they can run. They go back at their leisure, feeding by the way.—*Grass Valley Tidings.*

To Exterminate Eels.

At the last session of the Maryland legislature a bill was passed providing for the extermination of the eel in the Wycomieo river, and the sum of \$5,000 was appropriated for the purpose. The state fish commissioners were instructed to expend this sum and report the result of their labors. Their work has been well done, but they say the nuisance has not been abated. The money was expended in bounties, 2 cents being paid for each eel delivered to any of the six inspectors distributed along the river. The enormous number of 70,000 eels were captured and paid for, and Mr. Toadwine, one of the commissioners, says there are more eels in the Wycomieo river to-day than when he began his work of extermination. They were anywhere in length from two feet to an inch.

Arrived in Port.

The whaling bark *Ataska*, which had been given up as lost some months ago, arrived at San Francisco last Tuesday. The *Ataska* is a New Bedford ship and has been out for nearly two years. Nothing was heard of her until a few months ago, when a letter was received from a boy who had been on her, saying that she had been lost, and that he believed that he was the only survivor. He had floated about on some wreckage and had been picked up by a passing ship and carried to Yokohama, from where his letter was dated.

The *Ataska* was nineteen days from Bristol bay. She caught eight whales and brought down as a cargo 1000 barrels of oil, 135 barrels of sperm oil and 10,000 pounds of bone. The latter is worth \$4 a pound. The whaling steamer *William Lewis* and the bark *Etta* were spoken in Bristol bay.

Prophylactic in Sickness.
Typhoid Fever has broken out again, but wherever Darby's Prophylactic Fluid has been freely used there has been no fever."—M. B. LANCASTER, P. M., Ed. Central Alabamian.
"The fluid is not merely a deodorizer, but a disinfectant—a destroyer of the disease germs in an atmosphere which cannot be breathed without danger."—NEW YORK EVENING POST.

Sullivan Will Fight Jackson.

SAN FRANCISCO, Nov. 21.—The sporting editor of the *Daily Illustrated World* to-night sent the following dispatch to John L. Sullivan: "Am authorized by the San Jose Athletic association to offer \$15,000 for a finish fight with Peter Jackson. Respond." John L. at first refused to accept the offer, but later reconsidered his decision, and said he would fight Jackson in San Francisco for a \$15,000 purse.
