# DEMENT'S ASTORI

This tract is beautifully located on the John Day Slope; joins Riverside on the East and Columbia Second Addition on the North.

It is by far the most beautiful and sightly piece of land yet offered for sale. The timber is light (small hemlock) and the land can be cleared of every stick and stump for less than thirty dollars (\$30) a block. When so cleared it is comparatively level; only enough slope to secure good drainage.

We offer the first twenty (20) blocks at the low price of sixty-five dollars [\$65] for inside, and eighty dollars [\$80] for corner lots. DON'T WAIT! Don't join that army of people who in less than one year from to-day will congregate on the street corner and tell how they could have bought the City of Astoria for five hundred dollars [\$500] and made a fortune, but did'nt. BUY NOW!

A Scandinavian weekly newspaper called the Budstikke is soon to be published in Tacoms.

A very fine specimen of the white wan was killed recently near Ruthdawn. It measured six feet in length and 8 feet 2 inches from tip to tip.

Last week Mrs. Chamberlain, Bell and Steinmetz sold their three-fifths interests in the Weber group of mines on the south side of Lake Pend d'Ore-ille to Spokane Falls and San Fran-

cisco parties for \$60,000. The Spokane Falls Review makes merry over the fact that a Pennsylvania teacher who recently came to that city, was presented by his east-

mything of value he may find. In the Cascade mountains, about seventy-five miles from Jacksonville, is to be found the Great Sunken Lake, the deepest lake in the world. It is said to average 2,000 feet down to the water on all sides. The depth of the water is unknown. It is about 15 miles long by 41/4 wide.

Settlers in the vicinity of Lake Cœur d'Alene complain that hunters in that neighborhood slaughter deer by wholesale by driving them into the lake with hounds, where they are easily killed. They disapprove of this method and have already killed several dogs used for the purpose.

Drifted Out To Sea.

Speaking of the recent deaths of Philip C. Schuyler, and Wm. H. Gray, a pioneer citizen who knew them well, said Mr. Schuyler and James Ayer's Pills, Van Renssellaer, came out across the plains in 1853, driving a band of sheep for Mr. Gray. Mr. R. R. Thompson had a band on the way at the same time, and owing to the loss of Mr. Thompson's teams, the bands of sheep were joined and driven into Umatilla in charge of Mr. D. P. Thompson. There the sheep were separated, and Mr. Gray's sent down the river, their destination being Clatsop plains. They were taken to Astoria on a barge and while going across to Clatsop the barge encountered a guie off Tansy Point, and began to drift out to sea. Those on board barely managed to get ashore in a boat and the barge with the band of sheep went out to sea and were lost. As sheep were very scarce in this country in those days, they were very valuable, and the loss to Mr. Gray was a severe one. Oregonian, 26.
