Cough medicines, Ayer's Cherry Pectoral is in greater demand than ever. No preparation for Throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known, as this. It is the family medicine in thousands of households.

"I have suffered for years from a bronchial trouble that, whenever I take cold or am exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried a great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in returns of my old complaint."—Ernest A. Hepler, Inspector of Public Roads, Parish Terre Bonne, La.

"I consider Ayer's Cherry Pectoral a most important remedy."

For Home Use.

I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults."—Mrs. E. G. Edgerly, Council Bluffs, Iowa.

"Twenty years ago I was troubled with a disease of the lungs. Doctors afforded me no relief and considered my case hopeless. I then began to use Ayer's Cherry Pectoral, and, before I had finished one bottle, found relief. I continued to take this medicine until a cure was effected. I believe that Ayer's Cherry Pectoral saved my life."—Samuel Griggs, Waukegan, Ill.

"Six years ago I contracted a severe cold, which settled on my lungs and soon developed all the alarming symptoms of Consumption. I had a cough, night sweats, bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever."—Rodney Johnson, Springfield, Ill.

Big Catch of Salmon.

Since Muckle Bros. have been running logs in Milton creek, the fishermen who are fishing at the mouth of the creek, have been having extraordinary luck, sometimes catching with their nets as high as two tons of salmon in one day. The great run of fish is accounted for by the fact that when the dam is opened the flood of water is so great that the muddy water extends through Scappoose bay, and out into the Columbia river, and the salmon getting a taste of it, think there is a big freshet on and immediately make for the head of the stream with all possible speed. During each drive numbers of salmon can be seen darting and jumping through the logs and over the shoal places on their way up, and on reaching the pool below the dam, swim around a few times, and then make a dash through the gate for the pond above. Sometimes when the upper gate is opened, they will jump to the height of six feet and clear the lower gate, over which the water pours with a fearful velocity. None of the fish return to the river, for by the time they reach the head of the pond the gates are shut down and all escape is shut off, so that Mr. Chas. Muckle thinks that he will soon have salmon in such numbers that he can start a hatchery.—St. Helens Post.

Perfectly Fluidish.

To be assailed by the three imps, dyspepsia, constipation and liver complaint—a trio of satanic birth—is perfectly fluidish. It often happens. The hateful three, however, soon which away to the sufferer when Bostetter's Stomach Bitters is employed to drive them. As a Stomachic and alterative of disordered conditions of the bowels and liver it is speaking within bounds to say that there is not in existence a medicine so widely known as this, and few indeed which have received such positive and authoritative sanction from the medical fraternity. The fact that it promptly relieves, then, extirpates, three unrelieved of most common occurrences, ought and does make it the most popular of family medicines. But, in addition to that, it has achieved the foremost reputation as a preventative of, and remedy for, shills and fever, rheumatism, nervous and kidney trouble.

DYSPEPSIA.

It is a misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspepsia is a general term, and a bilious temperament is subject to Sick Headache; those, fleshy and phlegmatic have Constipation, while the thin and nervous are abandoned to bloomy forebodings. Some dyspeptics are wonderfully forgetful; others have great irritability of temper. Whatever form Dyspepsia may take, one thing is certain,

The underlying cause is in the LIVER,

and one thing more is equally certain, no one will remain a dyspeptic who will

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may say who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised."—Wm. M. Kusan, Fort Valley, Ga.

To Preserve The Fish.

Senator Seaborg introduced his first bill in the senate to-day. It is to prevent the indiscriminate slaughter of salmon and other food fishes in the waters over which the state has jurisdiction. Senator Seaborg is one of the wealthiest men in Pacific county. He has two large salmon canneries, one at Bay Center in Pacific county, and the other at Aberdeen in Chehalis county. He is a typical Norseman, blue-eyed and fair complexion, gentle of speech and firm of endeavor. He was fish commissioner under Governor Squire and Governor Semple, and knows more about the waters of the state than any other member. He was born of Swedish parents on the coast of Finland, and is probably the only legislator of that kind within the United States. He has been in this part of the country over a quarter of a century.—Olympian Dispatch.

A dyspeptic from Zanzibar announces that Emin Pasha has met with a probably fatal accident. Being near-sighted he walked out of a window by mistake and fell on his head, fracturing the skull. He now lies at Bogowoyo in a critical condition. All the doctors except Stanley's physician declare Emin's injuries will prove fatal. Stanley's physician is hopeful of saving Emin's life, but says under the most favorable circumstances the patient cannot be moved for at least ten days.

For cleaning and healing foul and indolent Ulcers, Sores, and Abscesses and removing the bad odors arising therefrom, and sloughing, contused and lacerated wounds, Darby's Prophylactic Fluid is unequalled.

"I have used Darby's Prophylactic Fluid in hospital and private practice for ten years and know of nothing better for sloughing, contused and lacerated wounds, foul and indolent ulcers and as a disinfectant."—J. F. HERRIS, Professor, Mobile Medical College.
