**The Favorite**  
Medicine for Throat and Lung Difficulties has long been, and still is, Ayer's Cherry Pectoral. It cures Croup, Whooping Cough, Bronchitis, and Asthma; soothes irritation of the Larynx and Fauces; strengthens the Vocal Organs; allays soreness of the Lungs; prevents Consumption, and, even in advanced stages of that disease, relieves Coughing and induces Sleep. There is no other preparation for diseases of the throat and lungs to be compared with this remedy.  
"My wife had a distressing cough, with pains in the side and breast. We tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which cured her. A neighbor, Mrs. Glenn, had the measles, and the cough was relieved by the use of Ayer's Cherry Pectoral. I have no hesitation in recommending this medicine to every one afflicted."—Robert Horton, Foreman *Heavlylight*, Morrilton, Ark.  
"I have been afflicted with asthma for forty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Its effects were magical. I was immediately relieved and continued to improve until entirely recovered."—Joel Bullard, Guilford, Conn.  
"Six months ago I had a severe hemorrhage of the lungs, brought on by an incessant cough which deprived me of sleep and rest. I tried various remedies, but obtained no relief until I began to take Ayer's Cherry Pectoral. A few bottles of this medicine cured me."—Mrs. E. Coburn, 39 Second st., Lowell, Mass.  
"For children afflicted with colds, coughs, sore throat, or croup, I do not know of any remedy which will give more speedy relief than Ayer's Cherry Pectoral. I have found it, also, invaluable in cases of Whooping Cough."—Ann Lovejoy, 1257 Washington street, Boston, Mass.

**UNDER EVERY ADMINISTRATION.**  
Daniel Frederick Of Indiana, Born 1789, Still On Earth.  
Daniel Frederick, who lives on a farm four miles east of this city, was 100 years old October 16, and his family commemorated the event by tendering him a splendid repast. He walks with a rustic ease, and is not bowed with age. He steps with a surprising alacrity, and bears with a distinctness and answers with a promptness that is remarkable. His face is not full, nor is his body burdened with corpulence, out in every movement he manifests the wire and endurance of his physical organization.  
His mind has always been clear, and his life has been comparatively quiet and uneventful. Indeed, he has been perfectly contented with the quiet life of a farmer, which perhaps accounts largely for his longevity. His short whiskers under his chin were quite gray, if not white, but his hair is still nearly black, and thick upon his head. It was no little astonishment to hear that he had never worn spectacles and that his eyesight had never failed him. He said he never had what some people call their "second eyesight."  
His appetite is as good as it ever was, and he sleeps as peacefully as a child. His health has always been good except on two occasions, the last one of which was nineteen years ago, when he had what the physicians called a fever. His father's name was Louis Frederick and his mother's name was May Mary. They came from Tennessee to this country when the Indians skulked through the country and killed unsuspecting farmers as they followed their plows. He was born in Knox county, October 16, 1789, the year Washington took the reins of government under the present constitution, therefore he has lived under every president since the beginning.  
He was born and "raised" on the Louis Marching place in Johnson township, and has always lived in the country. "Youngsters now," said he, "don't know what hard work is. Since my young days, I worked hard, mended nobody's business but my own, and maintained my mother and grandmother for forty years. The best of farm laborers they only got ten per month, and in hard times when extra pay was given, we only got 50 cents a day. We used reupholsters and plowed with wooden mouldboards. We raised just as good corn then as now, but not so many bushels. Corn then was 10 cents per bushel and potatoes the same."  
Mr. Frederick had but few school advantages in those days, but he learned to read and write. Last June fifty-one years ago he was married to Miss Rhoda Farmer. She was then but 15 years old, and on the 25th of next December she will be 69. She is the mother of 16 children, six of whom were twins. Four of the twins are dead.—*Vincennes, Ind., Dispatch.*

**A New Log Rule.**  
The Washington legislature will in all probability adopt a new rule for obtaining the quantity of lumber in a log making 1x12x12 inches the basis of measurement. Several rules have already been filed in the house of representatives for adoption. Edward McDaggart, of Ulsandy, who for the past twelve years has been lumber inspector for Skagit, Snohomish and Whatcom counties, has prepared a new and novel rule which he thinks ought to be adopted.  
The fundamental principles of his rule are based upon each diameter from twelve to seventy-two inches. The ratio of increase given in his log table or chart is in accordance with the ratio of increase of all the diameters from twelve to seventy-two inches. The government rule ties this at thirty-six inch diameter and decreases below the true line of ratio of increase very materially and of much above the true line the other way.—*Seattle Post-Intelligencer.*

**Burchell's Medical Water.**

A new cotton mill to cost \$500,000, will be built at Dennison, Texas. It will have 25,000 spindles and will employ 800 hands.  
Suppression of the Meneses may be relieved by a dose of Ayer's Pills, which produces the desired effect through sympathetic action.  
WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price, 10 cts., 50 cts. and \$1, at J. C. Dement's.

**STIMMONS**  
REGULATOR  
NOTHING LIKE IT  
It takes the place of a doctor and costs no prescriptions. All who lead sedentary lives will find it the best preventive of and cure for Indigestion, Constipation, Headache, Biliousness, Piles and Mental Depression. No loss of time, no interference with business while taking. For children it is most innocuous and harmless. No danger from exposure after taking. Cures Colic, Diarrhoea, Bowel Complaints, Feverishness and Nervous Colic. Invalids and delicate persons will find it the mildest aperient and Tonic they can use. A little taken at night insures refreshing sleep and a natural evacuation of the bowels. A little taken in the morning sharpens the appetite, cleanses the stomach and sweetens the breath.  
**A PHYSICIAN'S OPINION.**  
I have been prescribing medicine for twenty years and have never been able to get up a vegetable compound that would, like the Stimmons Regulator, promptly and effectively move the Liver to action, and at the same time, instead of weakening the digestive and assimilative powers of the system.

**The Albany and Astoria Railroad.**  
J. O. Wristmann and Henry Susens came in from the front on the Oregon Pacific last evening. They brought in five car-loads of the plant purchased by the Albany & Astoria Railroad Company. This, and about as much more, is being brought to this city to be placed in readiness for work on the road from Albany to Astoria. Preparations are being made to put about 1,000 men to work on the road early in the spring. The company has quite a pay roll now among its engineers, surveyors and other men employed. They pay their bills promptly and have plenty of money backing the enterprise. The company has already paid out over \$10,000. They do not seek any subscriptions to build the road but go at it in a manner which indicates that they mean business.—*Albany Herald, Is.*  
Ayer's Sarsaparilla makes the blood pure, rich and vitalizing. Sold by all druggists.  
The annual report of the Register of the treasury shows that the total amount of Government bonds outstanding is \$762,428,812, of which amount only \$10,360,850, or 1.30 per cent, are held abroad.  
Grave Cause for Anxiety  
Exacts when the kidneys lose their activity. Prompt measures should be taken to remove it, otherwise Bright's disease, diabetes, or some other organic trouble is to be apprehended as a consequence. Hostetter's Stomach Bitters is a most desirable diuretic, as its stimulating action on the organs never crosses the border line of safety and merges into irritation, as do many stimulants used for the same purpose by the careless and un-instructed. The stimulant of commerce, fiery and unimpaired, are not suitable corrective agents in a case like this. They excite and out-producing a permanent, desirable result. The "just mean" between them and an ineffectual diuretic is the Bitters, which is also a specific for malarial complaints, dyspepsia, indigestion and rheumatism.
