The Daily Astorian.

ASTORIA, OREGON:

FEDNESDAY JANUARY 15 18 0 City and County offic at Paper

SENATOR BUTLER of South Carolina is still determined that congress shall appropriate \$5,000,000 to pay for the exportation of all negroes who desire to depart for foreign lands.

GERMANT's pension law for laborers will include 12,000,000 persons. Every working man, according to his wages, must pay from 3 to 716 cents per week. The employers must pay the same for each laborer, and the government will contribute \$10.50 yearly for every man. The pension will be paid to the cick and all over 70 years. The pen-through the streets last night cheering cion is from \$26 to \$41 per year. That sum is one-third of the wages paid in that country.

Why Cain Killed Abel.

The basest fraud on earth is agriculture. The deadliest ignis fatuus that ever glittered to beguile and daz sie to betray is agriculture. I speak with feeling on this subject, and I'veben glittered, beguiled and dazzled, and deceived by this same arch de spine. She has made to a new thousand. ver. She has made me a thousand bem. She has promised me early po atoes and the rain has destroyed bem; late potatoes, and the drouth as withered them. She has promised cherries, the curculio has stung them they contain living things uncomely to the eye and unsavory to the taste She has promised strawberries and the young chickens have devoured them. young chickens have devoured them, and the eye cannot see them. No wonder that Cain killed his brother. He was a tiller of the ground. The wonder is he did not kill his father, and then weep because he had not a grandfather to kill. No doubt his Early Rose potatoes, for which he paid Adam 87 a barrel, had been cut down by bugs from the head waters of the Euphrates; his Pennsylvania wheat had been winter killed and was no worth cutting; his Norway outs had gone to straw and would not yiel I five pecks per acre, and his Black Spanisl. watermelons had been stolen by boy who had pulled up the vines, broken down his patent picket tence, and written scurrilous doggerel all over his bank gate. No wonder he felt mad when he saw Abel whistling along with his French merinos worth. 28 per head, and wool going up every day. No wonder he wanted to kill some body, and thought he would practice on Abel. And Nonh's getting drans was not at all surprising. He had become a husbandman and drowned his sorrow in the "flowing bowl". The fact is agriculture would demoralize a saint. I was almost a saint when I went into it. I'm a demon now. I'm at war with everything. I fight my self out of bed at 4 a. w., when all my better nature tells me to tie till 7. a fight myself into the garden to work like a brute, when reason and instinctell me to stay in the house and enjoy myself like a man. I fight the pigchickens, the moles, the birds, the bugs, the worms-everything in which is the breath of life. I fight the docks, the burdocks, the mulleins, the thistles, the weeds, the roots—the whole wagetable kingdom. I fight the heat, e frost the rain, the hail; in short I light the universe and get whipped in On

A Legal Problem in Eugene.

Most of the legal talent in Eugene as been employed recently in extri-sting the loggers and mill men from erious difficulty. About 6,000,000 set of saw logs are jammed in the south of the Mohawk and the several owners are in Eugene seeking to formulate some plan by which the can get their pay. The logs are in extricably mincled, and it is likely that owners will have to divide them pro rata. The creek is full of logs for two miles from its mouth where it empties into the McKenzie. A por-tion of the logs will be held in the Mohawk until spring.—Oregonian, 14

One Way to Detect a Thief.

"I'll tell you how I ran down a thief recently," said the man in the Lewiston police station. "I lost eighty dollars in money. I did not say a word. I did not even tell my wife. I hardly told myself. The other day, two years the recent and in the recent of the recent after the occurrence, a woman in my neighborhood said: 'By the way, day you ever find out who stole you, eighty dollars? I looked her in the face and said: 'I never had until just this minute.' She turned as pale as a et, and the result was that she paid me eighty dollars and interest on the

The Sampson Family.

Mr. John G. Sampson, who lives on Bear Creek, twenty-five miles south o Pendleton, has lately returned from an extended visit to his brothers and ers in New York and other eastern tes. There are nine b others and lows:84, 82, 78, 72, 68, 66 64, 59 and 58.

John G. being the fifth, 68 years old.

All of these nine brothers and sisterhave families, but none of them except Oregon Sampson has a son, all the "running to girls."—East Ore-

A CASE IN POINT.

In our forefathers' days, pimples were not found to diseased blood. But modern medicine has demonstrated that rich food has not create eruptions by fouling the be stomach torpid, and the circulation describe, and in turn causes an enleaded stion of the pares which congest or become mly. The modern theory therefore is not mat the blood, but the stomach and liver, d it is under this new i lea, that Joy's Vegeable Saraparilla was conceived. It is wip-ing the old "blood disease" idea out of ex-A case in point: "I have had for m spells of indigestion and dyspepsia and d searly everything Finally I took one the leading sarraparillas. It caused pimthe leading surraparilles. It caused pim-be to break out on my face, which I a told was caused by the potash. Hearing it Joy's Vegotable Sarsaparilla did not con-mineral, I sent for it. The pimples dis-tared and I have had no return of the epolis. R & a cure for indigestion and and the attendant face cruptions." MRS. C. D. STUART,

A STATEMENT FROM H. JACKSON

The American Versus The English To the Subsidy Contractors on The Simply Transferred from Salem to Astoria Street Car Extension.

In November last-we were instructed to proceed to obtain subsidies and

the distinct understanding that the road should be extended and energetically operated for their benefit and the benefit of the public generally with some propelling power more suitable to this growing city than animals. The subsidies were all contracted for on this distinct understanding with us acting in the above capacity.

The Astoria Street Car company have received our report since Jan'y list instant, and have now declined to extend the present system as far east as Alderbrook only; with which decision we cannot of course complain neither have we any right or inclination to dictate any other course or sur mise what events caused them to arrive thereat. But this will not we feel sure satisfy those who contracted to give subsidies for the complete system as was originally contemplated, viz: to give a rapid and complete system of transportation to the city. We therefore at the request of several of the contributors make this statement viz: that we will return the contracts to all who desire to have them or we look bill there is nothing that favors protection to young salmon.

In the old bill, where it save that no weir, trap, stake, net shall extend more than one-third of the stream wherein it is placed; it now reads in section 14 of the new bill one-half, that is to say if the owner of one bank of a river, stream or slough should choose to erect a trap or any other fixed appliance for catching fish, then the owner of the bank directly opposite, can do likewise and thus completely block it up.

There are many small streams in Washington that are now navigable where salmon ascend, that would be rendered useless if this bill becomes a law. For instance the Chehalia, on which is situated the booming and flourishing city of Aberdeen, and at the head of navigation is the city of Montesano. I know from experience that they want all the water room they can get, with nothing to spare either in breadth or depth.

This bill is a menace to shipping, the contributors make this and the contracts to all who desire to have viz: that we will return the contracts to all who desire to have them or we will accept an assignment of them for use at the earliest possible moment, either with the Astoria Street Car company should they later on elect to proceed or with a new company should one be formed as is at present contemplated; for we are sure you do not.

This bill is a menace to shipping, loggers, fishermen and all parties who navigate the waters of small rivers and streams, and it appears to me that the privileges they have already usurped, are now endeavoring to own the whole one that the privileges they have already usurped, are now endeavoring to own the whole one that the contracts the privileges they have already usurped, are now endeavoring to own the whole one that the contracts the privileges they have already usurped. The attention of the legislature of the contracts the contract the contracts the plated; for we are sure you do not wish the efforts which have been made by you and ourselves to be purely abortive. We shall therefore be pleased to receive any indication of your wishes or suggestions that may your wishes or suggestions that may aid a new corporation formed either by yourselves or others who may desire to keep pace with the demands and exigencies of the city so as to show the outside world that we can and will at least help ourselves, our visitors, our least help our least h least help ourselves, our visitors, our wives and our families to obtain all he advantages offered by modern science, and appliances for rapid transportation over and around the city. We now leave the matter in

will be mutually satisfactory, H. Jackson & Co.,

your hands and are sure the results
