Even cigarettes may be the cause of virtue, or they may provide the same.

An Alabama man died of cigarette smeking the other day and left \$10,000 of Keatings & Ball, of Columbia, South smoking the other day and left \$10,000 Carolina, soon after the close of the to the Y. M. C. A.

To a tale this trifle will tell—

Anchersnop Gross of this state has ordered a Triduum throughout his ecclesiastical jurisdiction, in order to ward off the scourge of "la grippe," or influenza. His Grace requests the people to stop cursing, drunkenness and other sins, for by sin hath death entered into this world.

SENATOR DOLPH has introduced into the senate a bill appropriating \$500,-000 for the continuance of jetty work at the mouth of the river. A similar bill has, presumably, been introduced in the house. The requirements of the situation demand the immediate passage of this necessary measure.

STANLEY sees fine prospects for railway in Africa. According to his estimates 800 miles could be laid down for \$17,000,000. This mileage would open to commerce four great river basins, with a total area of 2,470,000 square miles, and a total population of 80,060,000. Of the resources of the region he speaks in the highest terms.

A FEELING in favor of a postponement of the world's fair until 1895 is just that such a memorial should be growing rapidly, and it is believed that a sufficient number of senators it, and there are few now who ever Successor to W. THE following from the Benton Leader, narrates one of the most remarkable cases in the history of the Joseph Moore, Proprietor of the St. Willamette valley: "A few days ago we were presented by George Waggoner with a check amounting to several dollars, which was given by the years prior to visiting Drs. The breakfast has been ordered and eaten, but if all engaged couples were put on that sort of probation there might be fewer marringes, while very certainly divorce courts would lose half business.

Just after it became known that it was proposed that the state should clothe some of the poor children of Chicago, in order that they might obey the compulsory education law, me socialists suggested that the state should go a step further and complete the scheme by furnishing free food to the children, too. A Card.

A Card.

I notice in to-day's ASTORIAN a card in which a certain "Jeff" warns the public not to give me any credit, as he (Jeff) was not responsible for my debts. Parties I am dealing with have surely found out by this time that there is no necessity to have an individual who does not enjoy the very best reputation as in regard to his celerity in paying himself, as my iscurity. "Jeff" insertied this card out of spile to injure me, because I was obliged to throw him out of my (formerly Jeff's) restaurant last evening.
