

The Daily Astorian.

VOL. XXXIV, NO. 38.

ASTORIA, OREGON, FRIDAY, FEBRUARY 14, 1890.

PRICE FIVE CENTS

NATIONAL CAPITAL NOTES.

The Nation Recognizes the United States of Brazil.

A BIG FIRE IN CHICAGO.

WASHINGTON, Feb. 13.—In the senate this morning on mention of Senator Doherty of Oregon, the senate bill appropriating \$50,000 for a public building in Portland, Oregon, was taken from the calendar and passed. The senate then resumed consideration of the bill providing a temporary governor for the newly organized territory of Oklahoma, the pending question being Senator Plumb's amendment to comprise a little strip between Texas and Kansas, known as Cimarron, or "No Man's Land," with the new territory of Oklahoma.

An Excellent Idea.
WASHINGTON, Feb. 13.—The subcommittee of the senate and house committee on judiciary gave a hearing to the committee from the American Bar association upon the bill intended to give relief to the supreme court and facilitate the administration of justice at that bar. The committee argued in favor of the establishment of an intermediate appellate court.

A Little Premature.
WASHINGTON, Feb. 13.—In the house the senate joint resolutions passed unanimously congratulating the people of the United States of Brazil on the adoption of a republican form of government.

Galveston's Chances in Congress.
WASHINGTON, Feb. 13.—The senate committee on commerce to-day further considered the bill to make a deeper harbor at Galveston. It will take a vote upon the measure at the next meeting.

A Disastrous Explosion.
PITTSBURGH, Pa., Feb. 13.—The boiler of a locomotive attached to a passenger train on the Pittsburgh, McKeesport & Youghiogheny railroad, exploded this morning at Douglas station. It is reported that several have been killed and a large number injured.

Officials of the road say that only one was killed and two injured. It was the boiler of the engine of a construction train which exploded.

LATER.—Charles Jenkins, a flagman, was killed, and four other trainmen injured. Wm. Ludwig, the engineer, died from his wounds.

The Committee Couldn't Agree.
ALBANY, N. Y., Feb. 13.—The assembly this morning reported that the conference committee on the world's fair bill failed to agree. It was decided to appoint a new committee. The new committee is made up of members from New York exclusively.

Yesterday's Temperature.
CHICAGO, Feb. 13.—Signal service reports give to-day's temperature at the following cities as follows: New York 32; New Orleans 68; St. Louis 30; Cincinnati 28; Chicago 26; Winnipeg 22.

Chicago Markets.
CHICAGO, Feb. 13.—At the close of the markets to-day wheat was quoted lower; May 77½c, July 75½c. Corn easy; May 29½c. Oats easy; February 20½c, May 21½c. Barley—nothing doing. Pork steady; February \$9.70, May \$10. Lard steady; February \$5.89, May \$5.90.

Thought To Be Lost.
GLOUCESTER, Mass., Feb. 13.—The schooner *Isaac A. Herman*, engaged in the herring trade, sailed from St. Pierre January 16. The schooner is long overdue and it is feared she was lost in the great hurricane which passed over these waters on the night of her sailing. The *Herman* carried a crew of seven men and one passenger.

A Half Million Dollar Fire in Chicago.
CHICAGO, Ill., Feb. 13.—The southern half of the great wholesale block owned by J. N. Farwell & Co. was gutted by fire this morning. The occupants were Taylor, hats; Wolf Bros., clothing. Loss \$500,000, insured. Farwell's great dry goods stock was saved by a steel wall. One fireman was badly hurt.

A PREMIER'S FREAK.
Singular Adventure of a Canadian Minister.

OTTAWA, Ont., Feb. 10.—Premier Greenway, of Manitoba, is not as happy a man as he was a week ago. The cause of his trouble is an escapade which has created great excitement both in political and social circles. The premier is a jolly fellow, fond of wine and women. His love for the latter is the cause of his probable downfall from the high position he now holds. The premier is a married man, aged 47, and the father of

twelve handsome children. A few days ago he went on a pleasure excursion, having for his companion a beautiful woman, the daughter of a respectable citizen and merchant of Winnipeg. The pair drove around the city, taking refreshments here and there, and about midnight arrived at the Nicollet hotel, on the outskirts. This hostelry is a great rendezvous for evening parties, and the proprietor is one of those men who rake in the shakels without asking questions. The Greenway party halted there for the night. Although the premier's palatial residence was within a mile or two of the place, he preferred to rest at the hotel. His companion also rested there. The premier is so well known that his identity was immediately established, and the best room in the house was placed at the disposal of himself and his companion.

Toward the small hours of the morning the hotel proprietor stole softly upstairs to the room in which his distinguished guests lay. All was quiet. With quick fingers he unlocked the door and made for the garments and having secured these he vanished. The premier, bethinking himself of his official duties, had given notice that he wished to be called early. His instructions were carried out. Sharp at seven o'clock he was awakened. In the dim light of the early morning he sought his clothes, but they had mysteriously disappeared. He rang the bell and summoned the proprietor. The latter made lengthy inquiries for Mr. Greenway's garments, but could not elicit any information from the servants respecting the missing clothes. Here was a dilemma—the premier of Manitoba arrayed in nothing but the friendly folds of a sheet sitting in a room at a shady hotel on the outskirts of the town. It was a picture to look on and be reviled. The premier, however, being a man of quick wit, he thought of a plan. He could make an excuse at his home but nowhere else. His excuse would be found out and he would be a ruined man. He thought of a plan. He could make an excuse at his home but nowhere else. His excuse would be found out and he would be a ruined man.

To Take a Cinder from the Eye.
Nine persons out of ten with a cinder or any foreign substance in the eye will instantly begin to rub the eye with one hand, while hunting for their handkerchief with the other. They may, and sometimes do, remove the offending cinder; but more frequently they rub until the eye becomes inflamed, blind, and a long chronic ailment. Why it is so I do not know; but that it is all wrong. The better way is not to rub the eye with the cinder in it at all, but rub the other eye vigorously as you like.

A few years since I was riding on an engine. The engineer threw open the front window, and I caught a cinder that gave me excruciating pain. I began to rub the eye with both hands. "Let your eye alone, and rub the other eye (this from the engineer)." "I know you doctors think you know it all, but if you will let that eye alone, and rub the other one, the cinder will be out in two minutes." I persisted the engineer. I began to rub the other eye, and soon I felt the cinder down the inner canthus, and made ready to take it out. "Let it alone, and keep at the well eye," shouted the doctor. I did so for a minute longer, and looking in a small glass he gave me. I found the offender on my cheek. Since then I have tried it many times, and have advised many others, and I have never known it to fail in one instance (unless it was sharp as a piece of steel, or something that cut into the ball, and required an operation to remove it). Why it is so I do not know; but that it is so I do know, and that one may be saved much suffering if they will let the injured eye alone, and rub the well eye. —*Traveler.*

Infernal Inequality.
Could scarcely devise more atrocious tortures than those of which you see the evidence in the face of a rheumatic or neuralgic sufferer. The agonies are the consequence of not checking a rheumatic or neuralgic attack at its onset. Hostetter's Stomach Bitters has been found by all medical practitioners to possess not only remedial, but preventive efficacy, where those diseases exist, or a tendency to them, is exhibited. Surely this potent but safe botanical medicine, bearing, too, such high scientific sanction, better than the poisons often employed, but most unsafe, not only in its nature, but in its mode of action, should be separated thoroughly from the rheumatic virus, and the nerves slightly irritated, saved from ultimate and fatal throes by this benign, saving medicine. It cures, too, such ailments as malaria, kidney complaints, dyspepsia, constipation and liver complaint.

Explosion—Burglar Caught.
PORTLAND, Feb. 13.—A gas explosion occurred at C. Hogan's harness store

FIRE AT SPOKANE FALLS.

The Montana Men's Excuse For Running from Duty.

THE TRIAL OF SANDY OLDS.

LOS ANGELES, Feb. 13.—Major D. T. Burns, who sent \$200 from here to New Mexico to pay the Navajo Indians to prevent an outbreak, said yesterday that he thought that the payment of such money was the easiest way to get out of the difficulty, and prevent bloodshed. The policy of the agent in treating with the Indian tribes is to treat them as though they were a foreign nation and at the same time look upon them as the nation's wards. The precedents set by the government were had enough in the massacre by the Sioux in Minnesota in the winter of 1862.

The president had pardoned all the murderers in the meeker massacre in Colorado in 1879 where a whole family was butchered and the females taken into captivity. Two of the perpetrators received a few years in the penitentiary. In 1872 Indian agent Miller was killed by Navajo Indians and General Gordon Granger was ordered to arrest the murderers and take some of the chief men of the tribes to be held as hostages. General Adams, agent of the Tabanaches, telegraphed the government that if the troops were taken out of the country he would have the murderers arrested. The troops were taken away and that was the last heard of the matter. Two years ago there was a massacre of families on the Mancos river in Colorado. The murderers were not caught. He cited murders committed by Geronimo, Natchez and Nana, who were allowed to go unpunished, and said if the present trouble could be avoided by a little money he thought that the best thing to do was to give it.

A \$5,000 Fire.
SPOKANE FALLS, Feb. 13.—A fire broke out at one o'clock this morning in a pawnbroker's shop on the corner of Post and Riverside avenues. In a few minutes several tents were in flames. The fire department was slow in responding and the flames destroyed the pawnbroker's store, a saloon and a lot store, and stopped at Wm. Beck's old gin store. Loss, \$5,000.

PORTLAND PARAGRAPHS.

Sandy Olds' Trial.—The Montana State Senators.

PORTLAND, Feb. 13.—The entire day of the court in the Sandy Olds murder case was occupied in securing part of the jury.

The Four Montana Men.
Four of the eight fugitive Democratic senators from Montana, arrived and registered at the St. Charles at Joseph A. Baker, D. J. Hennessy, W. M. Thornton and W. S. Becker. They are bright young gentlemen with a determination to hold out for what they consider their political rights. In an interview state senator Baker was the principal spokesman. The gentleman stated that the root of the whole trouble lies in the action of the commissioners of Silver Bow county, who antecipitiously assumed the right to throw out the entire vote of precinct 4 in that county, giving the legislature a Republican majority. "The fight on our part," continued senator Baker, "was to see justice done. The commissioners overstepped the limits of authority; that we all claim; and even after the district court ordered them to count the vote they ignored the mandate."

"There are sixteen senators all told, and the vote of the body we consider an injustice, having thrown out the Silver Bow vote and refused a voice upon the measure brought before the senate."

CATARHUS.

Catarhal Deafness—Hay Fever
—A New Home Treatment.
Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the living membrane of the nose and eustachian tubes. Microscopic research, however, has proved that the cause of catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

Explosion—Burglar Caught.
PORTLAND, Feb. 13.—A gas explosion occurred at C. Hogan's harness store

on the corner of Second and Stark this morning doing damage to the extent of about \$300. The gas was leaking and they looked for the leak with a light. Twenty games of glass were broken and wreckage made generally.

Late last night a burglar was captured at the residence of Captain Flanders. When discovered he jumped from the second story window and injured himself when he fell. He gave the name of J. Whalen.

SKETCHING FROM THE NUDE.

A Peep into the Studio of a Chicago Art Class.

On a platform raised about three feet above the level of the floor stood what appeared at the first glance to be a magnificent model of a woman in what. One hand rested lightly on a table, the other on her hip. The figure was of robust build and beautifully proportioned, while the pose was graceful, easy and as immovably maintained as that of a statue. A faint wave of color mantling the cheek was the only thing which warned the reporter that this was no triumph of the wax worker's art, but in reality a living woman clad in nothing but a blue blouse and her native modesty.

Answers On The East African Coast.
ZANZIBAR, Feb. 13.—The British corvette *Conquest* is ashore on the island of Pemba, thirty miles north of here in a dangerous position. The *Conquest* is a steel and iron vessel, cased with wood and mounts fourteen guns.

Arrived Out.

SOUTHAMPTON, Feb. 13.—Arrived, steamer *Treze*, from New York.

WHY WILL YOU cough when Shilo's Cure will give immediate relief. Price, 10 cts., 50 cts. and \$1, at J. C. Dement's.

SOL HIRSCH HEARD FROM.

Moussa Ben, the Kurdish Chief, Imprisoned at His Request.

ENGLISH POLITICAL MATTERS.

CONSTANTINOPLE, Feb. 13.—At the request of Hon. Sol Hirsch, the American minister to Turkey, the Sublime Porte has imprisoned in his palace Moussa Ben, the Kurdish chief, who is charged with robbing and outraging the Christians in Armenia.

THE RIGHT OF FREE SPEECH.

A Present Question in the English Parliament.
LONDON, Feb. 13.—The report of the special commission organized to investigate the charges made by the London *Times* against the Farnellite members of the house of commons, was laid upon the table in the house to-day by Hon. Henry Matthews, secretary of state and home affairs. The report occupies 122 pages. Each member of the house against whom the charges were made is treated separately.

The judges find that the speeches made by many Farnellites were intended to bring about a separation of Ireland from England, and that the speeches in view of the state of feeling in the country created prejudice against the government.

Arrived Out.

SOUTHAMPTON, Feb. 13.—Arrived, steamer *Treze*, from New York.
