Arsenie in Every Stomach

"Traces of arsenic in the stomach Traces of arsenic in the stomach after death are by no means certain indications of murder or suicide."

The speaker was a prominent St. Paul attorney, the scene during an intermission of the editorial convention at the chamber of commerce,

"Do you believe innocent parties have been convicted on such evidence?" inquired a reporter.

inquired a reporter.

"I do, most assuredly. I am by no means posing as a medical expert, but I have a theory founded more upon many practical illustrations than upon science, that every human body contains a certain amount of arsenic, which immediately after death concentrates or crystalizes in the stomaach. This theory is butressed by the fact that, so far, I have never known a body exhumed and dissected for the purpose of satisfying inquiry into the question of the cause of death in which a certain amount of of death in which a certain amount of arsenie was not found. I remember a ase in which a man was arrested and case in which a man was arrested and accused of having poisoned another man with strychnine, in which all the evidence upon which the prisoner was held to trial was based on the purchase by him of strychnine, and then the results of a post-mortem examination revealed only traces of arsenical poisoning. Were I a juryman in a murder trial of this kind I would attach but little weight to the would attach but little weight to the mere fact of arsenic being found in the
