The Idaho Supreme Court Decisions Sustained.

CAVALRY TO OUST BOOMERS.

Special by The California Associated Press. WASHINGTON, March 17.—In the house to-day McKenna called up the bills to amend the census act so as to authorize and require the superintendent of the census to enumerate the Chinese population and to give them certificates. Morrow addressed the house on the bill, explaining its provisions and reasons why certificates should be given. He showed how the Scott-Chinese exclusion act was null and void, and claimed that as many Chinese laborers come into the country now as before the adoption of the Scott law. He believed that if this bill was passed, the coming of this class could be checked, if not stopped. If a Chinese laborer could not show a certificate, then he should be returned. Clinch followed and urged the passage of the bill. He said the Pacific coast demanded the exclusion of all Chinese, including merchants, and would only allow members of the old Chinese league to enter. Owens opposed the bill. He thought the superintendent of the census has quite enough to do without having this additional labor imposed on him. He favored the exclusion of the Chinese, but wanted it done in another manner. McCree, of Kentucky, and Vandever, of California, followed in favor of the bill. At the close of Vandever's speech the bill was passed, with but few opposing votes.

Legal Decision on Idaho Legislature.

WASHINGTON, March 17.—The supreme court of the United States has affirmed the judgments of the supreme court of the territory of Idaho in the cases of J. P. Clough, president of the council of the 15th session of the legislature of Idaho, appellant, against I. J. Curtis, secretary of the territory and that of H. J. Burnhart, speaker of the house of representatives, appellant, against C. H. Reed, clerk of the house of representatives and I. J. Curtis, secretary of the territory. The appellants, alleged that they declared the laws of the territory in violation of the constitution of the United States, and that the laws of the territory were null and void. The supreme court affirmed the judgments of the territorial court, and held that the laws of the territory were valid.

Money to Save the Letters.

WASHINGTON, March 17.—Secretary Proctor has authorized an expenditure of \$20,000 to protect Morgan's letters in Louisiana on the Mississippi river.

Another Federal Election Bill.

WASHINGTON, March 17.—Mr. Kelly, in the house to-day, introduced another federal election bill. The bill is constructed on the general lines of the senate bill on the same subject, providing that in an election of representatives to congress where it is desired, a certain number of voters in a district government may take charge of such election and see that a fair vote is obtained.

Assistant Secretary of the Navy.

WASHINGTON, March 17.—Senator Hale this afternoon introduced a bill providing for the appointment of an assistant secretary of the navy. The bill is similar in its brief details to the one which created the office of assistant secretary of war. The salary is fixed at \$4,500.

How the Cherokee Strip Will be Cleared.

GUTHRIE, March 17.—Inquiry at military headquarters elicits the information that when six companies have arrived here they will be dispatched to the Cherokee border and deployed in a line that will probably cover 20 miles. This skirmish line will cross through the entire strip 60 miles wide as rapidly as possible and then by a flank movement to the right and left return to Oklahoma. By this means the entire strip will probably be cleared in less than two weeks.

He also presented a memorial from the chamber of commerce of Port Townsend, Wash., asking for an appropriation to place the telegraph line between Port Townsend and Tatoosh Island, under the signal service. It is claimed that the signal and lighthouse service at Tatoosh is so important to mariners that the entire service should be controlled by the government.

The Union Pacific Wants More Time.

SPECIAL TO THE ASTORIAN. WASHINGTON, March 17.—Charles Francis Adams, president of the Union Pacific road to-day addressed the house committee on Pacific railroads. He criticized the Frye bill which provides for the payment of the debt in 30 years with 3 per cent interest. He said that judging by the late earnings of the road the company would have a hard time to meet these, however, if the bill was passed and became a law they would make every effort to comply with it. He would suggest, however, that the rate of interest be extended to 2 1/2 per cent, and the time extended to 60 years.

Senator Voorhees is Right.

SPECIAL TO THE ASTORIAN. WASHINGTON, March 17.—Senator Voorhees introduced a concurrent resolution depicting the great distress among the laboring and farming classes of the country and urging that congress lay aside mere political legislation and consider this subject. Cavalry Will Drive Out the Boomers.

GUTHRIE, I. T., March 17.—The cavalry is concentrating here to move on the Cherokee strip to eject the boomers. No bloodshed will follow but the boomers expect a hard time getting the soldiers out owing to their scattered location. A California Associated Press reporter will accompany the soldiers. An officer arrived here from Ft. Leavenworth last night. This morning he sent a telegram to Gen. Merritt at Ft. Leavenworth saying that the reports of the strip movement have been greatly exaggerated. The prairie grass has been burned to the extent reported, and in his opinion the cattle men have no serious grounds for alarm. The town of 5,000 inhabitants at Ponca existed only in fancy. Willow Springs was the only place where a townsite was organized and assumed any proportions.
