

The Daily Astorian.

ASTORIA, OREGON: THURSDAY, MARCH 26, 1890. City and County Official Paper.

ENGINE claims a larger population than Albany. But Albany has two daily newspapers. Eugene hasn't one.

The grandmothers in the United States senate who are making such a fuss over the leaking of news, ought to join a sewing society if they want to see how gossip gets out.

Is a railroad cut near Whitcomb creek, fifteen feet under blue clay, workmen recently unearthed the skeleton of an Indian. The Oregonian states editorially that "he was dead."

If there is any one thing more utterly useless than the "weather crop bulletins," issued under state auspices in this commonwealth, it has not come under the writer's observation. An almanac of date 1890 is a sparkling store of fresh information beside these reports.

A LETTER from a man who has charge of a band of horses and cattle in the Big Bend country, on Whitsome creek, says that the horses were caught in a blizzard while two miles from his haystack and were blocked by the drifts. They are dying rapidly. He offered \$150 for a single ton of hay near where the horses were caught, but was refused.

MISS HORNWORTH, of Port Townsend, left that enterprising burg last Tuesday morning on the same boat that Gov. French's Train left Tacoma. He goes west, she goes east. He is going to try to log around the world in sixty days, she is going to try to beat his time by her \$5,000 and a newspaper man; she has \$5,000 and a woman's wit and winsomeness. Success to both of them.

WELL, gentlemen, how about the hotel? Remember, the three factors necessary to a city's growth are a great hotel, a great newspaper and a great theater. THE ASTORIAN is getting these with both feet, speaking after the manner of the ancient Athenians, and will attend to the great newspaper part of it, as it promised some measure of the theater is all right, too; but how about that hotel?

The resignation of Bismarck, the greatest event in European history for twenty years, was promptly announced in THE ASTORIAN, the Oregonian and other papers which pay for the news. The Columbia had the "news" the next day. It omitted to credit the dispatch to THE ASTORIAN, but that is all right. The Columbia is always welcome to the "news" the day after. THE ASTORIAN prints it.

YOUR men and maids in the state of Washington are not equal in point of numbers, so that when the former want to marry, they have to go or send elsewhere for wives. In '89, the men in Washington were 65,281; the women, 52,528, and this year the two-to-one ratio continues. Things will gradually equalize, and the present disparity will disappear as the state settles up and the men settle down.

USEFUL INFORMATION. Tubercle, Fox, M. D., the eminent medical writer, in his work "Sixty Diseases," thus accounts for the pimples so common to the face and neck. Eating too rich or too greasy food, or too heavy eating while the excretory organs are sluggish, causes in most people indigestion or a dyspeptic condition, which causes the blood to move sluggishly, and encloses the pores. The result is, that the excretory organs in the pores, which infuse, each distinct inflammation being a pimple. Dr. Fox therefore does not prescribe "blood purifiers" so called, but a "dyspeptic cure" to be taken, to use his own words "fill the dyspeptic symptoms have disappeared." The old idea was, that face eruptions were caused by a "humor in the blood," for which he treated the blood, giving the mineral, potash. Dr. Fox's Vegetable Sarsaparilla follows the modern ideas of Dr. Fox, and aims with gentle vegetable stimulants at the stomach and digestive organ. The reason is apparent why it cures dyspepsia and indigestion, and the pimples and skin eruptions which result therefrom, and why sarsaparilla that use minerals fail. Remember the Astin house at the Seaside is open the year round.

03 Instead of Snow.

In the lumber regions of northern Pennsylvania a curious expedient has been resorted to for the purpose of getting the logs out of the woods. Hunting the logs out of the woods. Hunting the logs out of the woods. Hunting the logs out of the woods.

This is the first time that crude petroleum has been used to lubricate the slides to any extent. Some of the slides are twelve miles long, starting away back on the summit of a mountain and rounding through the passes; in some instances shooting up one hill and down another in a series of inclines. The momentum the logs gather with distance sends them along with a furious rate of speed, and the crude oil has been found not to wear off for nearly a week. There are to-day 250,000,000 feet of timber lying in the woods, which ought to have been in the booms at Williamsport by this time.

Out of the Fire

Tormented with Salt Rheum. Cured by Hood's Sarsaparilla. Only those who have suffered from salt rheum in its worst form know the agonies caused by this disease. Hood's Sarsaparilla has had great success in curing salt rheum, and all affections of the blood.

Burning Building. I was tormented with salt rheum, and had to leave off work altogether. My face, about the eyes, would be swollen and scabbed, my hands and a part of my body would be raw sores for weeks at a time, my flesh would seem so rotted that I could roll pieces from between my fingers as large as a pea.

Entirely Cured. I have not had salt rheum since. I also used Hood's Olive Ointment on the places affected. It stops the burning and itching sensation immediately. I will recommend Hood's Sarsaparilla not only for salt rheum, but for hemorrhoids.

Loss of Appetite. "All-pace" feeling so often experienced." A. D. ROBINSON, Jamaica Plain, Mass. N. E. If you decide to take Hood's Sarsaparilla, do not be induced to buy any other.

Hood's Sarsaparilla. 50c to 1.00 per bottle. Prepared by C. I. Hood & Co., Lowell, Mass. 100 Doses One Dollar.
