THE NEW EXTRADITION TREATY.

Fixing The Date For Opening The World's Fair.

VILLARD CARRIES HIS POINT.

Special to THE ASTORIAN.
ATLANTA, Ga., March 25.—A dispatch from the Missouri Pacific country in the northwestern part of the state, says that the prairie fires have been stopped, but a heavy wind still prevails. At Stockton the town was saved only by the most extraordinary efforts.

So far as can be learned, no lives were lost. The burnt district covers an area of many miles square, and the loss, which includes houses, barns, granaries, feed and stock can only be guessed at. Near Marlin, on the north branch of the Missouri Pacific, thirty or forty miles due north of Stockton, there was a destructive fire Saturday night and Sunday. A gentleman who followed its track for a distance of twenty miles, says the country is a blackened waste. As far as he could see, houses, fences and everything was swept away. Occasionally there is a green field of wheat to relieve the black monotony.

Now Let the Work Begin

WASHINGTON, March 25.—The house to-day adopted the amendment to the world's fair bill providing that the fair buildings be dedicated on October 12, 1892, and that the exposition be opened not later than May 1st 1893, and closed not later than October 30th 1893. The Sheriff's Office Corrupt.

NEW YORK, March 25.—The grand jury reported a strong indictment against the sheriff's office. It found that for twenty years the office has been conducted with a total disregard to law and that a system of blackmail and extortion has obtained, by which the sheriffs were able to pocket fifty thousand dollars in fees annually, above their expenses. JOHN L. WOULD FIGHT JACKSON.

Special to THE ASTORIAN.
NEW YORK, March 25.—A conference of the Trunk Line association was held this afternoon in the office of commissioner Fink. Representatives were present from the Trunk Line association of the Lake lines, Northwestern Lines, Canadian Pacific and Western Freight association, and New England Trunk line routes. North-west of Chicago, the lines take the Superior ports and Duluth, Green Bay and Gladstone. The topic of conference was the rates to the north west by rail and by lake. An attempt was made to equalize freight rates by all routes to St. Paul through Chicago. Rates from New York to St. Paul through Chicago were made 10 cents higher on first-class matter, and 3 cents on second-class matter, than by Lake Superior routes. It was the sense of the conference that rates were too high by the Chicago and Milwaukee line. The Lake Superior line declined to concede lower rates. Only the western bound freight business was considered. This classification does not include lumber, cement, salt, iron or coal.

Sullivan Willing to Fight the Nigger.

BOSTON, March 25.—John L. Sullivan says, now that the Mississippi trouble is disposed of, he is free to fight Jackson, and further, that "if the California Athletic club, or any other club will put up a purse of \$25,000 for a fight between Jackson and myself I will meet him in battle for the championship. I don't care what the gloves are so they come within the restrictions of the law. I shall demand at least \$20,000 and shall stick to it. I am now willing to negotiate with the California Athletic club. I couldn't do anything about a match while sentence of the law was hanging over me. I think that that is now settled. I am willing to fight Jackson in my room. I should like to hear from them. If a match is arranged I shall train as never before. I am satisfied that Jackson is no mean opponent and I must be in first class condition to win."

Several houses have been washed away, but no lives were lost.

The Behring Sea Seal Fisheries.

OTTAWA, Ont., March 25.—Captain Warne, of Vancouver, is in this city on business with the minister of marine fisheries. In an interview, Captain Warne said he had come down armed with powers of attorney, representing \$300,000, claims of several owners, for losses in the Behring sea seal fisheries. For several years, in fact, since 1887, "Behring sea" has been a private sea, said the captain.

"When Russia owned the country, the United States protested against their claim that it was a private sea and were joined by Great Britain. In 1827 Russia seized a sealer belonging to the United States and had to restore it, paying all costs and claims for damages."

"Of course we do not admit now that the United States owns it, or that they can make it a private sea to suit their own convenience. We certainly expect to receive recompense for our losses. One of my boats was seized last year with about \$4,000 worth of furs on board. I have three boats which cost some of them \$16,000. A sealer is very heavily manned. Five men would be sufficient to sail the schooner, but for sealing they have to carry about eight seamen." Hon. C. H. Tupper, minister of fisheries, arrived here today from Washington, and was interviewed by Capt. Warne.

Favorable News of the Ohio Flood.

CINCINNATI, March 25.—There has been only one-tenth of an inch of rainfall in this valley, for the past thirty-six hours, but it has been principally in the Scioto and Muskingum valleys. The railroads expect to be in full operation by Saturday, when navigation on the Ohio will open.

Fairfield, Va. writes: "I have used Simmons' Liver Regulator for many years, having made it my only family medicine. My mother before me was very partial to it. Special to THE ASTORIAN.
OLYMPIA, March 25.—A personal fray occurred to-day between Hon. J. S. Brown, member of the house from Spokane Falls, and Robert Ehrman, assistant sergeant-at-arms from Seattle. Brown, entering the legislative hall at an improper time, rudely pushed Ehrman aside. For this he was reprimanded by the speaker of the house. THE REV. GEO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to Shiloh's Consumption Cure which will give immediate relief. Price, 10 cts., 50 cts. and \$1, at J. C. Dement's."

Washington Irving, who was a good writer and used good grammar all the time, in drawing off pieces for the paper, made a fluke on the prairie dog. I think you can see in a moment, if you are any judge of physiognomy, that a prairie dog does not know anything. His thought waves all originate in the pit of his stomach, and though of a social nature, he uses no judgment in selecting his associates.—Bill Nye.
