#### RELIEF FOR SUPREME COURT.

Special by THE CALIFORNIA ASSOCIATED PRESS.  
WASHINGTON, April 1.—The subcommittee of the house judiciary committee has been at work for some time on a measure that is proposed to relieve the supreme court of the United States, of a large amount of work, with which it has been constantly overwhelmed. A large number of bills for this purpose have been introduced and these have been considered and a rough draft of measures has been practically agreed upon. Both the house and the senate committee have gone over the subject to a considerable extent and it is thought that the bill reported by the house committee will meet with opposition. The bill which is already roughly drafted, proposes to increase the circuit courts by the addition of one judge in each court. The district courts alone are to have original jurisdiction and appeals are to be made from the circuit to the supreme court in cases involving at least \$10,000, involving legal questions, constitutional or treaty questions, or legal questions of sufficient importance to require final decision by the supreme court, and in patent and copyright cases in equity. This is in addition to the usual constitution and admiralty questions, in which the supreme court of the United States now has original jurisdiction.

#### Astoria Will Have Free Letter Delivery

Special to THE ASTORIAN.  
WASHINGTON, April 1.—The house committee on post offices and post roads has agreed to report favorably the bill to extend the free delivery system to cities of 5,000 inhabitants, or in which the gross postage revenues are \$10,000 per year. It is said this will embrace about 290 more cities, and will increase the cost of postal delivery about \$65,000.

#### Proposed Regulation for Lager Beer.

Special to THE ASTORIAN.  
WASHINGTON, April 1.—In the senate to-day, Stewart introduced a bill regulating the manufacture, sale and importation of lager beer. All beer containing anything except hops, malt and water, is designated as adulterated beer. The bill imposes a tax upon brewers and dealers in adulterated lager beer, with heavy penalties for failure to take out a license. It has been found utterly impossible to close the breweries, except below the city, and those above continue to grow larger. The losses as yet are not very large, except in stock. Many refugees have come here from the flooded district.

#### To Prohibit Chinese Immigration.

Special to THE ASTORIAN.  
WASHINGTON, April 1.—At a meeting of the senate committee on the census to-day, the house bill providing for furnishing certificates to Chinese residents on the 1st of June, 1890, by the enumerators of the census, with a view of prohibiting further immigration of Chinese to the United States, was amended. In its present shape the bill is wholly unacceptable to the Pacific coast delegation, as leaves many loopholes for the fraudulent entry of Chinese.

#### Condition of Winter Wheat.

Special to THE ASTORIAN.  
CHICAGO, April 1.—The Farmer's Review gives the condition of winter wheat as follows: Outside of Kansas the condition of winter wheat is very discouraging. In Illinois and Indiana the average for the state will fall as low as Wisconsin. Six counties only in Illinois estimate the present condition of winter wheat 100 per cent.; all other counties report the damage to range from 10 to 60 per cent. The same state of affairs prevails in Indiana but several reporting a good condition. The per cent of damage is the same. Ohio makes a better average, 15 counties in that state reporting the condition 100 per cent or over. Other counties report the damage to range from 10 to 40 per cent. Kentucky shows a falling off of 20 per cent.; Missouri, 64 per cent.; Michigan and Wisconsin, from 10 to 50 per cent.; Kansas alone holds its own.

We summarize reports as follows: Illinois, 76 per cent.; Indiana, 76 per cent.; Ohio, 88; Missouri 84; Kentucky, 87; Kansas, 92; Wisconsin, 72 and Michigan, 67.

### A WIDE WATERY WASTE.

Graphic Pen Picture of the Flooded Region.

#### Special to THE ASTORIAN.

MEMPHIS, April 1.—The government steamer *Titan* is at work in the relief of the devastated districts, suffering from distress, which confronts hapless water bound natives is appalling. The havoc of the furious waters is almost complete devastation, annihilation and starvation express the situation. The demand for assistance and for succor is imperative, and every hour it is withheld, adds intensely to the horrors which the brave people have to face, and are heroically battling against. The whole country is covered with water from eight to twenty feet deep, rushing relentlessly to the sea carrying away life and property, whirling and crashing through the forest.

The steamer carried four barges, capable of holding 100 head of stock and any amount of storage; also two flats for ferrying purposes and five substantial skiffs on which to send out into the country relief stores. The steamer also carried a supply of provisions, consisting of crackers, biscuits and corn beef. All along down the Mississippi side where the levee could be seen to the aid of glasses, it was holding its own against a heavy pressure, with from a foot to two feet of good broad seeded ground to spare, and here and there could be seen where the costly barrier had been broken. At Anderson's landing the levee is strong and can apparently withstand two feet more of water.

#### Great Damage and Loss of Life in Kentucky

Special to THE ASTORIAN.  
ANNO, Ky., April 1.—News has just been received from the lower part of this state, that the damage done by the flood is immense. Four miles beyond Barren river and five miles on this side, the storm swept everything before it, in a track 500 yards to half a mile in width and did not leave a tree standing. Seven teen lives are said to have been lost in Allen county, and dwellings, barns, timber and fences destroyed. The money loss is very heavy.

#### The Ability to Bear Pains

Is the test of fortitude among the Indian tribes. But we defy any Cherokee, Sioux or Comanche to endure the twinges of rheumatism without wincing. These, indeed, are slight at first, but grow in intensity until they become insupportable. No malady is more obstinate in its maturity than that which gives rise to them. The more need, therefore, of a powerful remedy. For most ailments remedied by it is Hostette's Stomach Bitters, safer and infinitely more effective than colicium, veratrum and other vomics, all remedies which natch p or de-structive of life in a slightly excessive dose. Mineral deposits, also, when not positively mischievous, are far inferior in remedial power to the salutary bitters. I entirely expels from the blood the acid impurities which originate the rheumatism, sciatica, neuralgia, constipation, liver complaint, dyspepsia and other ailments also give way to it.
