THE GREAT STATE OF IDAHO.

The Bill For Its Admission Passes
The House.

DEMOCRATIC GAINS IN R. I.

Special by THE CALIFORNIA ASSOCIATED PRESS.

CHICAGO, April 3.—The winged angel of peace, which yesterday hovered over the master plumbers and their striking employes has disappeared, and in her place, figure Pinkerton's men.

The master plumbers claim that the strikers are intimidating the men who refuse to strike, hence they request Pinkerton's men. The strikers deny this and claim the hiring of special police is simply a game of bluff.

Both sides are firm in their determination to hold out, and the fight promises to be a long one. The master carpenters' association has decided in view of the threatened strike to make 8 hours a day's work and the pay 35 cents per hour, and the men will be informed of this on pay day which is Friday.

The carpenters demand 40 cents per hour and 8 hours. If the advice of conservative men be taken, these terms will be accepted and no strike will occur.

The probabilities of a general carpenters' strike are gradually falling away.

The manager of the Phoenix factory sent for his men to-day, and after a brief talk with them regarding their mutual interests, accepted to their terms, and the men will return to work on Monday.

Serious Accident to Hudson River Tunnel.

Special by THE ASTORIAN.

NEW YORK, April 3.—A hole was accidentally burned through the roof of the Hudson river tunnel, and caused the flooding of the tunnel.

The engine was unable to expel the water. The accident reaches the magnitude of a disaster. It is feared that a new start may have to be made from New York, and in which case a year's work is lost. The tunnel is now 2,000 feet long from New Jersey, and but only about 100 from the New York end, and yet this represents the work of years, great engineering difficulties having been encountered.

Steamer in Distress.

Special by THE ASTORIAN.

HALIFAX, N. S., April 3.—The brigantine *Algo* reports that on Monday, half past six, she was on the coast of the Georges, she signaled the steamer *Southgate*, from Placentia, N. F., for New York, flying signals. Immediate assistance was wanted, as the crew were starting.

The shaft was broken and their provisions were all gone, as they had been helpless for a number of days. The captain wanted two tugs to tow him. The *Algo* supplied them with provisions and fuel, and will search for the steamer *Harlan* which is in ballast.

Iowa Politics.

Special by THE ASTORIAN.

DES MOINES, April 3.—The anti-prohibition Republicans are following up their movement yesterday by a direct appeal to Republicans to withdraw from the prohibitory laws.

The executive committee of the new association have prepared addresses to the joint Republican caucus of the senate and house which were submitted to-night. Among other things it says the situation of the largest and most important cities of the state and indeed of many other communities is deplorable in the extreme. To leave them as they are subject to all the evils which absolute free whiskey can inflict, is little less than treason.

There never was a time when whiskey was so openly sold, as at the present time in large cities.

CHICAGO, April 3.—There arose a hitch in the proceedings of the committee having in charge the organization of the inter-state Commerce Railway association, to-day, by the receipt of a telegram from the officers of the Missouri Pacific, saying they would not join any association that recognized the Union Pacific Northwestern agreement. In to-day's proceedings, nothing was done, but a majority of the members think an organization will be formed.

THAT ENGLISH SYNDICATE

Gobbles Up Some Large Paper Manufactories.

A \$20,000 PURSE FOR JOHN L.

Special by THE CALIFORNIA ASSOCIATED PRESS.

MCKENNA, April 3.—The flour output improved slightly last week, the average daily manufacture being 22,900 barrels; the aggregate production, 137,450 barrels; against 133,720 barrels the week before and 90,870 barrels for the corresponding time in 1889. The mills so far have not suffered any special inconvenience from the coopers' strike. Most of the firms have conceded to the demands of the men and for a while at least will pay 35 cents for barrels, instead of 32 and 33 cents as for some time past.

The inactivity of the flour market is the same. There is very little demand except for small lots, for prompt shipment, and the current output will be reduced at it is exceeding the current sales. Prices are rather easy and have a downward tendency.

The lease of the present operators of the C. C. Washburn Mill company, is continuing, and unless the firm is notified to the contrary by July 1, will remain in force for another year.

The Pillsbury-Washburn company desires to lease this property, and is in competition with the present lessees for its future control. The directors prefer to sell rather than lease, but have refused to dispose of the plant on a basis of 25 per cent. cash.

Twenty Thousand Dollars for a Fight.

Special by THE ASTORIAN.

NEW YORK, April 3.—At a meeting of the Puritan Athletic club, of Long Island City, the committee were instructed to offer a purse of \$20,000 for a battle between John L. Sullivan and Peter Jackson, the purse to be deposited with Richard K. Fox, the contest to take place within three months after signing the articles. The club also will give a purse of \$5,000 for Joe McEuliffe and John L. Sullivan to contend for.

In regard to the Sullivan matter,

it is certain that the champion will agree to meet Jackson, but may not be ready to do so now. There seems to be no prospect of a go between John L. and Corbett, as the latter wants to return to California in a few weeks.

Eastern sports Surprised.

Special by THE ASTORIAN.

HOT SPRINGS, Ark., April 3.—Mike Cleary was knocked out in the first round to-night by Ed Smith, the Denver champion. The result was a complete surprise to the eastern sports present.

Tricks of Swindlers.

Special by THE ASTORIAN.

LOCKPORT, N. Y., April 3.—Swindlers have been working in the west, claiming to have Lockport as their headquarters. Cashier Arnold of the Merchants' bank here, received dispatches from Kansas and Spokane Falls asking if a firm named Wm. H. Bradley & Co., who had drawn on the First National bank, of New York for amounts of \$400 and \$1,200 respectively, were safe and responsible. No such firm has existed here, and from the tone of the dispatches it is evident that western people are being badly swindled, and quite extensively too.

WILL NOT RETIRE.

Special by THE ASTORIAN.

The Alaska Commercial Company Will Not Abandon Alaska.

SAN FRANCISCO, April 1.—Louis Schloss, of the Alaska Commercial company, who retired last night from the management of the company, has been elected to the position of president of the company. The company is a joint stock company, and the retirement of Schloss means to us an absolute retirement from all our interests in Alaska. There could be no greater mistake. Our investments and many other interests are in no wise affected by the success of the Tevis-Liebs syndicate in securing the lease. Furthermore, the firm of Hutchison, Kohl, Phillips & Co. still retains the Russian lease, and will hold it nearly twenty years more, and some of those who are interested in the Alaska company are members of that firm. Some of us are also leucy stock holders in salmon canneries in Alaska, and altogether there is plenty to do for us as well as for others. A movement is on foot among salmon canners, and agents to some understanding whereby the production of the coming season will not be as large as it was last year. Most careful estimates show that there is still a stock ranging from 200,000 to 250,000 cases of 1889 salmon in the hands of producers. Prices have not yet risen, and agents which agents would like to observe, nor is there any immediate prospect of the disposal of the carry-over stock. Packers are now on the threshold of a new season, and naturally some of them are debating what shall be done to prevent a recurrence of the over-production. The best authorities agree that a pack ranging from 1,200,000 to 1,300,000 cases this year will be ample for all purposes, and a few of the canners are thinking of limiting things, so that more than this quantity may not be put up. As far as possible, causing of white salmon will also be prevented. They are as good as dead, but consumers cannot be said to be used to them, and those that have been sold have acted to the detriment of the market for red fish."
