CITY AND COUNTY OFFICIAL PAPER. Pensive at Kindred park to-day. Is your basket packed for the picnic to-day.

Polk street is being graded between First and Second streets. Two drunken men were arrested at two o'clock this morning by officer Larsen.

Give a worthy cause the generous appreciation of your presence at the theater to-night. Well: is it too soon to suggest that Astoria have a rousing Fourth of July celebration this year?

Reserved seats at the New York Novelty store for the "Damon and Pythias" play this evening. The Cooley Bros. will shortly start the Columbia bakery in the new building corner West Ninth and Water streets.

A large invoice of stamps has just been received at the postoffice, so that all who desire them can be supplied. In the Mikado candy factory last evening, a clerk let a showcase lid fall too heavily, and the glass was broken.

The pointing of D. K. Warren's house and buildings at Skippaway has just been completed, and they present a fine appearance. There will be an ice cream festival at Resaca hall next Thursday, the 8th inst., under the auspices of the ladies of the Baptist church.

Services in Grace church Sunday as usual: 11 a. m. and 7:30 p. m. Sunday school at 12:30. The Rev. Mr. Johnson of Portland will officiate. On First street below Washington a one-story building with two stores is being constructed, and just opposite a two-story building is going up.

On Flavel's wharf is a large boiler which has been repaired here and is to be sent down to Tillamook lake, where it belongs in the steamer General Garfield. THE WEEKLY ASTORIAN, the largest newspaper in the state is published this morning. It has a complete synopsis of the news of the week, home and foreign.

At a meeting of the stockholders of the Astoria Iron Works yesterday John Fox was re-elected president, A. L. Fox vice president, and J. G. Hustler secretary and treasurer. A legal advertisement in the advertisement column gives notice of a suit for divorce, brought by Emily Handlen to dissolve the matrimonial tie which binds her to Joseph Handlen.

Every one who signed that request to the amateur association to repeat the play "Damon and Pythias" will, of course, take two tickets to the entertainment which comes off to-night. The steamer Gen. Conly will make an excursion to the forts and Havoco tomorrow, leaving here at nine a. m., and returning will leave Havoco at 4 p. m. Fare for the round trip fifty cents.

The old Johnson boat house, opposite the Astoria Iron Works, on the lot recently bought for \$5,000 by the city, is being torn down, preparatory to the transfer, to that site, of Astoria No. One's engine house. The W. C. T. U. at their last meeting, on Thursday, elected the following delegates and alternates to the state convention, which meets in Portland the 20th of May: Delegates, Mrs. Geo. Gramis, Mrs. M. A. Brown, Mrs. McCormac, Alternates, Mrs. D. K. Warren, Mrs. Mary Fox, Mrs. S. C. Gibson.

Captain H. Olsen, of the sealing schooner Bessie Butler, returned yesterday. The United States grand jury at Portland promptly dismissed the complaint and released him. While it was an unfortunate affair, yet public opinion justifies the course the captain pursued as the only one possible under the circumstances. Usually actors and actresses on the stage are strangers to the audience. Not the least among the attractive features in to-night's entertainment at the theater is the fact that those who participate are all of our own citizens, and the knowledge of this always makes the play more interesting to the audience.

The basket picnic at Kindred Park, to-day given by the woman's Relief Corps, will be an enjoyable affair. The Gen. Conly will make two round trips; she will leave Flavel's dock at 8:30 a. m., and 1 p. m. Returning, she will leave Kindred park at 4 and 5 p. m. Get your baskets ready and take the children. Sheriff Smith returned last evening on the Telephone bringing Henry and Thomas Helgeson, who had been arrested as stated in yesterday's Astorian, for stealing a rifle from the sealing schooner Bessie Butler. Their examination is set for ten o'clock this morning, before Judge May, and meanwhile they will remain in jail.

In conversation with D. K. Warren yesterday, he stated that the well beside the shop of Harrison & Thielen is now down a depth of 280 feet, that the drill is passing through soft sandstone and that some gas comes up, but not in a very large quantity. The boring will still continue. The drill broke yesterday, entailing a little delay. In the police court yesterday before Judge Jewett, the two men arrested for fighting the evening previous, as mentioned in these columns, appeared to appear, consequently the ten dollars each had deposited was declared forfeited, and August Olen and Nels Benton now realize that their little fight cost them ten dollars apiece.

THE MERCHANT REGISTER FOR 1920 IS BEING DELIVERED TO ITS SUBSCRIBERS. IT IS A "TAKE," IS INCOMPLETE, UNRELIABLE AND OF LITTLE VALUE, AND IS WORTHLESS FOR RELIABLE AND PRESENT INFORMATION AS LAST YEAR'S ALMANAC.

The Port Townsend Leader says that collector Bradshaw received on the steamer Michigan yesterday two boxes of soft shell clams, and will endeavor to plant that variety in the Sound waters. The clams were dug at Gray's harbor by Chief Engineer Harry C. Lord, of the light-house tender Manzanita, and they are the first clams of this variety ever brought to the Sound.

Every stateroom was taken, every berth occupied, and over forty passengers had no sleeping place on the R. Thompson last night, for she carried one of the largest loads of passengers which have been taken since last summer. A few such loads and the U.P. company would soon increase the service between this city and Portland. Travel has been steadily increasing of late.

"Two souls with but a single thought, two hearts which beat as one," yesterday entered the county clerk's office and the official agent of Cupid granted them the necessary document to commit matrimony. It is evidently not the first experience of either in that line, as the lady has a bright little girl who calls her "mamma," so they already have a commencement in business, whatever the future may bring forth. The happy couple are registered as W. D. Wheeler and Mrs. Etta McKinley, but after this, as the register, the latter name will probably be laid aside.

PERSONAL MENTION. John F. McGovern is in the city, en route to the East. Hon. C. W. Filton returned from Portland yesterday. John C. Bryce arrives from Portland to-morrow morning, on a visit to his relatives.

Dr. H. A. Smith returned yesterday from a month's sojourn in southern California. Henry Doyle came up from San Francisco yesterday, on a brief visit to this vicinity.

Prof. R. K. Warren, who has been visiting in the past week, returned to Portland last evening. Dr. W. P. Gibson came up on the steamer Oregon from California. He will remain here for two months.

Mrs. John Minto, of Clatsop plains, enjoys the distinction of being the first lady ever married in this county. Sheriff Smith went to Portland last night on the steamer, where he is summoned as a witness before the United States grand jury.

Dr. Buleh, wife and son, A. Gilbert and W.J. Shanahan were passengers on the State of California yesterday from here to San Francisco. A DOUBLE FUNERAL. Yesterday noon Surprenant's undertaking parlors were crowded with mourners in attendance upon the funeral services over the remains of John Hayman and Nicholas Andrew, the two fishermen who were killed near Rainier on Tuesday morning. The sidewalks and street were thronged with men, mostly members of the C.R.F.P. Union, while many ladies were also on the sidewalk, unable to get in the rooms.

A procession was formed headed by the brass band of the Scandinavian Temperance society. Over 500 men and 100 women were in line and to a death dirge by the band moved slowly to the wharf, the coffin being carried by six men each and closely followed by the weeping relatives and sorrowstricken friends. The steamers Venusa and Electric and a large barge towed by the latter, were made ready to accommodate the many who desired to embark, but carrying as many as possible, they started for Clatsop where the interment took place. The tide had fallen so low that the steamers could not return until evening, but sail was made on the sea, and as she drew less water was enabled to return after the burial, bringing part of the company.

The Fire Bell. At 1:15 p. m., yesterday an alarm of fire was sounded and the firemen responded promptly, many a man leaving an unfinished meal. The fire was but slight, and a stream of water from No. 1 soon extinguished the incipient conflagration. It was the roof of a small house on Second street, near Washington, owned by Charles Hojr and occupied by Mrs. Hough and family. Mrs. Hough stated to THE ASTORIAN reporter that there had been no fire in her stove since 12 o'clock, and she could not imagine how it originated. Her first knowledge of the fire was when, coming into the kitchen from the yard, she saw coils and sparks dropping on the ground. Looking up in surprise, she discovered that the roof was on fire. Only a small hole, some two feet square, was burned in the shingles, thanks to the prompt action of the fire department, for in a few minutes there would have been considerable damage, as there are other houses on each side but a few feet from this.

A Narrow Escape. The little son of Mrs. Merie Davis, about five years of age, fell into the river last evening, soon after the arrival of the Telephone, while playing at the dock, near the steamer. A deck hand, named William Murphy, promptly jumped overboard and catching the boy as he was going under the third time, brought him safely out of the river. It was a narrow escape for the water is very deep, and the tide was running rapidly. Unfortunately, later in the evening, the same man became intoxicated, was abusive to the mate of the steamer, arrested and locked up in the city prison on a charge of drunkenness. In consideration of his brave and manly act, it seems as if punishment might be suspended.

Passengers to Portland. The following is the list of passengers who went up the river last night on the steamer R. R. Thompson: C. B. Peterson, H. Christenson, C. D. Chambers, J. B. Foley, G. Bennebaum, Rev. W. S. Short, C. James, H. S. Shuster, V. Cook, T. J. Conroy, W. T. Chutter, C. J. Curtis, F. M. Warren, H. Clarke, Mrs. Perrie, Miss Gronnels, Miss Wilson, H. Southworth, T. G. Taylor, J. A. Cook, A. Clayburn, Maj. Canby, S. B. Saley, J. H. Woodron, Miss Smith, T. H. Tindale, W. E. Warren, F. Follow, D. Leahy, M. Danabum, W. H. Lewis, L. Borchers, R. K. Warren, F. O. Burehland, J. W. Gearhart, M. L. Pratt, L. F. Thatcher. Coffee and cake, ten cents, at the Central Restaurant.

MARINE NEWS AND NOTES.

The steam launch Occident is being overhauled and repaired at the foot of Lafayette street. The barkentine Eurka sailed yesterday for San Francisco with a load of lumber from St. Helens.

The steamer Dolphin came down from Portland yesterday, and leaves this morning for Shoalwater bay. The Volga is running on the Fort Canby route in place of the Suomi, which is laid up a few days for repairs.

The steamer Oklahama went up the river yesterday towing the barkentine Laura May and Marion, bound for Portland. The barkentine Marlon, Capt. W. Jorgensen, arrived yesterday from Eureka, California, with 255,278 feet of redwood lumber and 1,219 bunches of shingles for Portland.

The steamship State of California, Capt. H. S. Ackley, came down from Portland yesterday morning, taking from here 100 sacks of oysters, 1,200 bundles of shooks and some miscellaneous freight, and five passengers, then sailed for San Francisco. The steamship Oregon, Capt. E. Polemann, arrived yesterday morning from San Francisco, bringing to this port 130 boxes of soap for Parker & Hanson, 168 packages of groceries for Aberdeen Packing company, 60 pigs of tin for C. P. Uphur, 149 bundles of iron for Wilson & Fisher and 1,184 packages of miscellaneous freight for sundry parties. After unloading the above the vessel proceeded up the river for Portland.

An Unavoidable Delay. Yesterday morning the British ship Vantauru was all ready to be towed up the river to Portland, and the steamer Oklahama was about to connect for that purpose, but the departure was postponed. It seems that 75 boxes of tin which was to be left here and on which Capt. Skinner had paid duty were down in the hold and could not be taken out without first removing a large part of the cargo, to save this delay and expense, the captain wished to take it to Portland, and when he returns bring it back with him. This collector of the port could not allow without authority from Washington.

A telegram was sent to the secretary of the treasury, at Washington, in reply was returned granting the desired permit. Collector Taylor at once notified Capt. Skinner and agent Noves telegraphed for a tug which will be here this morning, and take the ship up the river. Capt. Skinner is grateful to collector Taylor for his kindness in wiring the department and gaining the permission for him to proceed.

The Paid "Specials" Didn't Work. Last week the reporter for the News paid a short visit to Anaocots. Reports had been in circulation for some time that the boom had collapsed, which was found to be true. People are leaving the terminus on every boat, and at the present writing there is a population, aside from railroad laborers, of about 500. This is certainly a great drop from 3,000, which was claimed at one time or the other. What does this exodus signify? Simply nothing, as it is composed in a great measure of people who had only \$100 or \$200 when they went there and spent it all in making the first payment on a lot, or building a shack on a leased lot, and when the reaction came, which was plainly foreseen from the start, they were forced to leave.

Tired of Matrimony. A suit for divorce was yesterday brought by Alice Atchison who desires to be legally severed from Samuel Atchison, to whom she was married in December, 1883, at Weirburg, in this state. She has resided here over a year but claims that Samuel has been very naughty, for he has cruelly assaulted her, called her foul names and beat her with a cane and inflicted severe and painful wounds. The unhappy couple have one child, a daughter three years of age, and this the mother wants, as well as \$100 to defray expenses of the suit for divorce. Samuel has not yet been heard from, and his reply to the above is yet to be made. Evidently both of them will vote that "marriage is a failure."

A Singular Case. Over a year ago Rev. William J. Franklin started for Portland, and since then has not been heard from. He was highly esteemed by all, and his disappearance is shrouded in mystery. He left considerable property, and though very reluctant to leave, he of course, his sorrowful wife has to apply for a divorce in order that some provision may be made for her support, as under the present circumstances the property could not be disposed of by any one. The legal summons appears in our advertising columns. It is a very peculiar case, the like of which seldom occurs.

A Whole Orchestra. Rudolph Barth has sold his large orchestra to Val. Bilkner, of Baker City. It was manufactured in Villingen, Black Forest, Germany, by the Stein Bros., and was purchased from their San Francisco agents, by Mr. Barth for \$4,500. It is fourteen feet high, seven feet long, and five feet wide, weighs three tons. It contains twelve rollers and 300 pipes, each pipe representing a different musical instrument. It plays sixty different pieces and is a whole brass band. It has been boxed and ready for shipment.

ILWACO ITEMS. Griffin, formerly of Oysterville, sold his tract at South Bend for \$80,000. The John Johnson property at the mouth of Willapa river, sold for \$14,700. There were 147 acres. The Dolphin took the boilers and engine for the new mill at South Bend. They have four million feet of logs on hand. Parties have made an offer for the Columbia mills at Knappaon. They are supposed to be connected with the North Pacific R. R. A fine of \$20 was imposed on the steamer Tom Morris, by the inspecting department for not having on the stern, the name of the port where owned. There are over twenty millions feet of logs out on Nasel river, but one saw mill at Sunshine, to cut them up. Its capacity is about three million feet annually on full run, hence there is more than a year's supply out, which will cause many of the logging camps to shut down this season, thereby making dull times locally.—Astorian.

Lowanda's Gift Show. The largest audience ever assembled in the opera house greeted Lowanda's Gift Show last night. Fully one thousand people were in the hall and three or four hundred people were turned away who could not get even standing room. The show was a great success. Prof. Lowanda is a clever magician and kept the audience interested in his tricks for over an hour. A very laughable afterpiece, after which the presents were distributed.—Daily Key, Key West.

Will Aid Portland as Well as Astoria. It is imagined that Portland is instinctively hostile to the construction of any road to Astoria. We beg to inform our friends at Astoria that if any such motion is entertained there it is not entertained here, nor even thought of for a moment. A railroad to Astoria will undoubtedly build Astoria up, but will not pull Portland down. On the contrary, it will help Portland relatively about as much as it will help Astoria.—Oregonian, 2.

CLEAR YOUR FACE. It is now known that a pimply skin is not the result of blood disease, but is caused by impaired digestion, for which they now give vegetable cod. recieves instead of minerals. Treatise on skin diseases, giving the cause and cure of pimples, eczema, eruptions, itching, and all other skin troubles. Sent free on request. Write to Dr. C. D. Stuart of 1221 Mission street, S. F., who states that she took one of the leading sarsaparilla for indigestion and dyspepsia. Its only effect was to cause pimples to appear on her face. Upon taking Joy's Vegetable Sarsaparilla the first effect was the disappearance of the pimples and she was subsequently relieved of the indigestion and dyspepsia.

Robert Stewart also writes from Falls, Cal., that he, being troubled with boils he found that one of the leading sarsaparilla actually increased the eruptions, which responded at once to Joy's Vegetable Sarsaparilla and disappeared immediately.

Two Fish Commissioners. State Fish Commissioner F. C. Reed and James Crawford, who holds a similar position for the new state of Washington, were discussing the fishing situation at the St. Charles yesterday afternoon. Neither anticipated any further trouble between the union and non-union fishermen, and as far as fishing with wheels is concerned the law is rightly enforced.—Oregonian, 2.

A good appetite is essential to good health, and loss of appetite indicates something wrong. Hood's Sarsaparilla creates and sharpens the appetite, assists the digestive organs and regulates the kidneys and liver. Take Hood's Sarsaparilla this season. Sold by all druggists.

Not a Pimple on Baby.

Baby one year old. Had with Eczema. Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.

I cannot say enough in praise of the CUTICURA REMEDIES. My boy when one year of age was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctors would never grow again. Despairing of a cure from physicians, I tried the use of CUTICURA REMEDIES, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the CUTICURA REMEDIES to mothers as the most speedy, economical and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing. JOHN W. BROWN, merchant. Druggist, Gatesboro, Tenn.
