ASTORIA, OREGON:

TUESDAY, MAY 15, 180 City and County Official Paper. EDITORIAL COMMENT.

The Atlanta youth who registered a vow that when he had arrived at the age of 25 he would have been married twenty-five times calculated only on the difficulties of courtship. The

law grabbed him with his fifth wife. Over 5,000 pianes are ruined every year by change of atmosphere. The poor man thus saves from \$300 to \$1,000 per year by not having a piano

If a severe thunderstorm were to rage in the city every night, some people would feel scarey. Yet that is exactly the case with every city lighted thunder, which never harms anybody.

THE Australian system is excellent yet it seems impossible to afford a better guarantee for accuracy and honesty in the counting of votes than ness of intelligent canvassers respectively representing the interests of rival candidates of office.

Experience has proved that every decrease in the postal rate has in creased the use of the mails, and in time the income of the postoflice.

A MAN in New York has been married 100 times, but he is not even a bigamist. He marries the same women in public at a dime museum and getten dollars for the operation.

A pernerive at Columbus, Ohio, recently came into possession of several 3-cent pieces which had been passed as 10-cent pieces. The modus operandi of making seven cents on each piece is to place a dime on each side of a 3-cent piece and by squeezing them in a vise, flatten the 3-cent piece and leave a dim outline of the dime on either side. The coin, after the de facement, very much resembles a 10cent piece which has seen consider-

Occasional wisdom of the worldly kind among Bohemians is worthy of remark. Twelve years ago a young reporter on the New York Tribune, o was enabled to carn \$18 a week had an opportunity to go west. In few weeks he came back, drifted among his friends and raised \$5,000 and went back again. This sam he invested in a cattle ranch up north of Cheyenne. A couple of weeks ago he turned up on Broadway with a large and violently developed desire to illuminate the town. He is now worth a cool \$500,000, and goes to New York every winter to celebrate. Upon these occasions he "blows in" several thousand dollars within three or four months and then he goes back to Wyoming and watches his cattle for the rest of the year. The business has its drawbacks, but the ex-reporter declares with emphasis that on the whole he wouldn't exchange it for life on a newspaper at \$18 a week.

On the principle that it is easier to create a boom than to develop one, Baker City is essaying the effort to make it appear that that city should be the second one in the state.

Having leased for a long term of years the corner ore of Young's new building on the corner of Third and West Ninth in this city, it becomes necessary for me to move my stock and fixtures from present location, and to avoid as little trouble and waste of time as possible I offer my well selected stock of

by electricity, except the noise of Men's and Boy's Clothing, Gent's Furnishing Goods, Hats, Caps, Trunks, Valises, Umbrellas, Blankets. Quilts. Etc.,

that supplied by the jealous watchful- REGARDLESS OF COST, until my removal to the new location, where I shall continue to conduct business as I have for the past three years-buying goods from the manufacturers and selling them under a low expense for CASH and at ONE PRICE to all alike, every day in

EXCEPT SUNDAYS AND HOLIDAYS.

Settling in this city over six years ago, where I foun a very healthy climate and good natural advantage etc., I concluded three years ago to open business in my line on my own account, with the intention, if possible to give no one an excuse to take or send money out of Astoria to build up any other city in preference.

And as I Have Succeeded in Building up a Good Business, and am Here to Stay.

I still invite you all to call, or send your children, as is well known that at my counters,

A CHILD BUYS AS CHEAPLY AS THE MOST EXPERIENCED BUYER.
