

The Daily Astorian.
ASTORIA, OREGON:
FRIDAY, MAY 16, 1909
City and County Official Paper.
EDITORIAL MENTION.

THE Nebraska prohibitionists are in the field for the coming state campaign in that breezy commonwealth, and have raised \$100 for the fight.

THE S. F. Alta has a singular price schedule. The price for a year, by the month is \$5.40. The price for a year, by the week, is \$5.20.

THE Kent, Wash., Advertiser, a port, chippy style of paper is about to let go, and gives the Kent folks a "burning up" in its closing issues. If the Kent Advertiser man would stop to think or think to stop for a minute he would see the absurdity of the situation. Between Seattle and Tacoma, are four towns Kent, Slaughter, Summer and Puyallup, ten miles apart. They can't all support papers as a matter of fact the Seattle and Tacoma press cover the field and in an excellent manner. In any case "searching" and abuse is unjustifiable, and undignified.

THE ASTORIAN emphatically favors the eight-hour law. Those most intimately responsible for the daily appearance of this journal of progress work eight hours in the morning and eight hours in the evening. This leaves eight hours for amusement. The eight-hour system is great, and this office endorses it by practical observance.

BAKER CITY claims to be "the second city in the state." Some of our esteemed contemporaries dispute B. C.'s claim. Tut, tut, brethren, Baker City is "the second city in the state," as you come east from the Oregon line. Entering the state from the west, Astoria is the first city in the state. After awhile it will be the first which ever way the commonwealth is approached.

SINGULAR, isn't it, what a fuss people will make over a little thing. State Senator Snow, of the new state of Washington, has been arrested, charged with embezzling \$5,000 while deputy county treasurer. He wants the thing fixed up somehow, so that he can be on hand at the special session at Olympia in August, but some of his constituents are obstinate about it and want to cinch him.

HUNT is going to parallel the U. P. line from Pendleton to Portland, a distance of 200 miles.

In a recent interview C. P. Huntington, the S. P. magnate, made the following statement, which is worthy of note. "When I went to California in '49, I was accompanied by a party of young fellows from my native state, Connecticut, and when we reached Sacramento, the first thing they did was to go to the hotel and spend \$1 apiece for their dinner. My dinner cost me less than a sixteenth of that sum. It was always my rule to live within my income. Any young man who does that will get along."

W. L. Scott of Pennsylvania, with \$200,000, says he'd give the whole twenty million for a good sound stomach that would digest food. If Scotty will come to Astoria we'll give him a job that will fix his inside works so that he can eat five square meals a day and enjoy 'em all. Dr. Abernethy's advice to a rich dyspeptic, was never equaled. Here it is: "Live on sixpence a day, and earn it."

THE effort to have a change in the military headquarters of the department of the Columbia to Seattle has been deservedly unsuccessful, and the headquarters and headquarters of the army's representatives in the northwest will remain at Vancouver.

THERE is one paper at least in Tacoma that does not wear the collar of the Northern Pacific Railroad company. It is the News. It speaks plainly and candidly, and claims that the interests of that growing city are being sacrificed to the corporate greed of that great railroad monopoly.

WENDELL EASTON, the oldest and one of the most successful real estate men in San Francisco delivered a lecture on "Real Estate," and business methods, in San Francisco last Friday. Among other things he said: "There is another important factor, and that is advertising. In my lifetime I have written hundreds of books and pamphlets on real estate subjects, but after all this experience of twenty-seven years I have come to the firm conclusion to do no more of that, but advertise in the newspapers! Everybody reads them."

CIVIL service reform is having a hard time of it. The American theory is for frequent changes in all public offices, and for every American boy to have an honest chance, whether he seeks it in politics or elsewhere. There is no American sympathy for a life-holding class in office, and no real American sympathies attending the present experiment of creating a pro-
