He also deprecates that part of McKinley bill which increases duty on carpet wools. GOULD'S RESIGNATION.

Emphatically Contradicted.

Special to THE ASTORIAN. NEW YORK, May 26.—The rumor on Wall street this afternoon, to the effect that Geo. Gould has resigned the presidency of the Pacific Mail and J. E. Houston, a former president, has been elected in his place, caused a great deal of comment, as it was an unusual course for Gould to adopt. At the office of the Pacific Mail company it was said there had been no meeting of the directors since May 21st, and a regular election could not have taken place until May 28th.

Edward Lauterback, one of the directors, also denied the story. It is confidently believed on the street, however, that the Huntington-Hart combination has secured the control of stock and will proceed to oust Gould at the meeting on Wednesday, as they are not in accord with his plan to make a terminus of Tacoma. Houston's name is mentioned as his probable successor.

They Want the British to Drive Out Some French, Quick.

A BAN GOVERNOR OF BAHIA!

Special to THE ASTORIAN. LONDON, May 26.—The address of the Newfoundland legislature to the queen, protesting against British grants to the French Newfoundland fisheries has been received here. The document is very voluminous, and is couched in stronger language than any address to British majesty since that of the American colonies. It declares that the modus vivendi means ruin and destruction to 200,000 British subjects, claims the home government has no legal authority to make the grant, and calls on the queen to revoke her act.

Her unpatriotic advisers say this colony will be satisfied with nothing short of the final removal of every Frenchman lobster farmer from Newfoundland, and all means in our power will be used to that end. In our opinion the time has arrived when submission to such glaring injustice, is no longer possible. The colony must take all means in its power to frustrate the designs that are at its disposal. By this appeal to your most gracious majesty and the people of Great Britain, we desire that as we have right and justice on our side, such steps as we may leave to take has been forced on us by the foreign aggression, and by the selfish avarice of those of your imperial ministers.

CHOUNCED BY CHOYINSKI.

The Omaha Man Knocked Out in Great Shape.

Special to THE ASTORIAN. SAN FRANCISCO, May 26.—Joe Choyinski, the well known local heavy weight and Jack Davis, of Omaha, fought to a finish with five-ounce gloves at the Occidental Athletic club to-night; 1,500 members were present. The mystery surrounding the record of Davis caused the talent to be leary in betting and as the result little money changed hands, with the odds of 2 to 1 with Choyinski on the long end.

In his fight with Jim Corbett he demonstrated beyond all question that he was nimble on his feet, and could hit a terrific blow and was a glutton for punishment. With these facts in the wind the average sport attended the exhibition to-night with full expectation that Choyinski would literally chop his man to pieces.

Choyinski entered the ring at 9:15, and was soon followed by Davis. The former weighed 165 pounds and the latter tipped the beam at 170. Time was called at 9:25. Both were of about equal height, Choyinski looking to be the heavier of the two, and both were in perfect condition. The fighting from the start was the most furious ever witnessed in any athletic club on the coast.

In the second round both men were very weak Choyinski having a shade the better of it, using his left to good advantage driving Davis' head back. Just as the gong rang at the eighth round Joe gave Davis a terrific left hander under the chin that knocked him down.

When he came to the scratch of the 9th round, he was so weak that Choyinski had little difficulty in putting him to sleep. The Omaha man's cleverness was a surprise, but he can hardly be considered a good match for so hard a hitter as Choyinski.

When some distance from Astoria on her up trip, John P. Ward, the watchman on the boat fell overboard and was drowned. Deceased was aged 27 years and was a nephew of Jno. P. Ward, U. S. weigher at this city.

Wm. J. Russel, a hostler, was found dead to-day. The cause of his death was cholera rheumaticum. The situation of the strike has undergone a slight modification, inasmuch as the bricklayers have gone to work as well as a large number of laborers. There are not many carpenters engaged, owing to the fact that there is little work for them to do. It is thought that within the coming two weeks business will be found for all that are idle by which time they will be glad enough to accept wages. The strike has so nearly paralyzed the building movement that some time will be required to get contracts and material ready.
