**CITY AND COUNTY OFFICIAL PAPER.**  
 The plot of South Astoria is about ready to be recorded.  
 Last evening between 5 and 6 o'clock two boys had a sparring contest with gloves on Cass street above Fifth.  
 Work has already been commenced on Second street in front of Wilson & Fisher's store for the new street railway line to be laid there.  
 The Y. M. C. A. Yvonne meets tonight. This will be the closing session for the season and an interesting programme has been prepared.  
 Real estate business yesterday raked in from the lettings caused by election, and 18 deals were filed for record, the considerations amounting to \$6,237.  
 Successful candidates were receiving friendly congratulations yesterday. In a few instances those who were elected to stay at home are the ones to be congratulated.  
 The government telegraph line between here and Ft. Canby is out of order, the cable across Chinook river being damaged. It will be fixed today, if possible.  
 Shade is such a rare thing in Pasco that the *Pilot* remarks: "The shade of the malish and lettuce leaves is noticeable and has a cooling effect upon all passers by." Lettuce pray for Pasco.  
 The election returns were yesterday officially canvassed by county clerk Tenenland, auditor and police judge Jewett and justice of the peace May. They will be found in full on the first page of this issue.  
 Even the ladies from foreign lands are changing their national flag, for yesterday Betty Anderson took out first papers of citizenship, discarded the blue flag of Sweden with its yellow cross and adopted Columbia's starry banner.  
 Saturday the 7th being "Labor Day" the ladies of Grace Church guild will give a basket picnic to Tanzy point. The steamer *Benita* will leave Wilson & Fisher's dock at 9 A. M. Round trip tickets 50 cents. Children half price.  
 There was a meeting of the board of directors of the Astoria and South Coast Railway Co., yesterday morning at which final arrangements were made for the transfer of the stock formerly held by D. K. Warren as trustee to I. W. Case, as trustee.  
 This evening there will be a musical entertainment at Resene hall, under the auspices of the ladies of the Congregational Church. Miss Hattie Bixby will have charge of the musical part of the programme, followed by an ice cream social. Admission free.  
 The meaning of the word advertise, "to make known," explains its importance. Make a woman what you have to sell or what you wish to buy. The benefits are so far reaching that you cannot tell where they will end. Like the ripples caused in the water by a falling stone, they extend far beyond the sight.  
 This afternoon at 1:30 o'clock, the closing exercises of the primary department of the Court street school will be held at the school house. The school system of teaching will be exemplified, and its progress shown for the work of the year. All who are interested in a progressive mode of teaching are invited to be present.  
 Several gentlemen were discussing the present outlook in Astoria yesterday afternoon when it was suggested that they adjourn to McGowan Bros. & Tuttle's office near by and resolved themselves into a meeting, to discuss the business more fully. It was decided to appoint a committee to call a meeting of the citizens this evening at 8 o'clock at the opera house, to discuss ways and means of extensively advertising the city.  
**MARINE NEWS AND NOTES.**  
 The steamer *Lincoln*, Capt. Matthews of the United States Geodetic and Coast survey, came down the river yesterday morning. She is being towed by the survey of the Columbia river, and has already worked down nearly to Clifton.  
 The steamer *Telephone* had a slight accident to the stay bolts of her boiler in Portland, and did not come down yesterday, the steamer *Bonita* coming in her place, and going back again last night.  
 The steamer *Manzanita* left here last evening at 7 o'clock, bound for Destruction Island. She carries for that place a large portion of the iron sections for a new highway, and a large whistling buoy to be placed in Neah bay. It is expected she will return on Sunday.  
 The Strawberry season is now at its prime. Thompson & Ross are receiving large quantities of this delicious fruit. Order a case early.  
**SPECIAL:**  
**Dirigo! Dirigo! Hoop-a-la!**  
 All members of this club are requested to meet at the old Army hall on Third street, this Thursday evening at 8 o'clock sharp.  
 Business of importance.  
**ALBERT DUBRAE,**  
 President.  
**Attest: F. J. CARNEY, Sec'y.**  
**Card of Thanks.**  
 My sincere thanks are tendered to the members of the G. A. R. and W. R. C. and to the Sisters of Charity, and friends of the family who by their presence at the funeral of my wife yesterday, honored her memory.  
**GEORGE LOVETT.**  
 For Fruit and Nuts of all kinds go to the Columbia Bakery.  
**The Hoffman House Cigar.**  
 The La Palma cigar, and other brands of cigars, the finest in the city, at Charley Olsen's, next to C. H. Cooper.
 Boots and Shoes made to order, all repairing neatly done at T. J. Josephson's.

**THE SEATTLE FIRE.**  
 An invitation to Celebrate its First Anniversary.  
 THE ASTORIAN last evening received a telegram from Alfred Holman, special committee of the Seattle chamber of commerce, which so fully explains itself that it is given as received:  
 "SEATTLE, JUNE 4, 1920.  
 DAILY ASTORIAN: Will you please print the following invitation? Your mayor and citizens are invited to join with the people of Seattle on Friday night, June 6th, at the Mansion or the chamber of commerce in celebrating the anniversary of our great fire.  
 Seattle Chamber of Commerce, ALFRED HOLMAN, Special Committee."  
 The activity and energy displayed by the citizens of Seattle in recovering so quickly from the disastrous effects of the great fire within one short year, speaks volumes in their praise. This activity should be represented on that occasion, and it would be well to attend to this matter at the public meeting this evening, and appoint a committee to leave here to-morrow morning and be present on the occasion, to represent Astoria.  
**MIND TO MIND.**  
 Practical Illustration of Thought Transfer.  
 Some people think; others think they think; a few are able to think. Carl King is one of the last class. It is a success, but it is exhausting and if he doesn't quit he'll be in the same fix as that newspaper man over in Port Townsend who worked on his paper for eight months steady and then sat out last Thursday a total wreck. There was a small audience last night to see what is usually called mind reading. Mr. A. G. Salmon played divinely on the piano. Then Mr. King appeared. The audience selected a committee who seated themselves on the stage. Mr. King was blindfolded in an inner room back of the stage, then he and grasping the hands of one who had previously procured an article and secreted it he rushed off dragging the other man along and succeeded in finding the article and returning it. All he asked was that the person whose hand he held would concentrate thought on the object. At the end of the effort his pulse was 165, evincing the extraordinary mental effort.  
 His third feat was elaborate. One of the committee (while Mr. King was blindfolded in a back room) collected a pair of pants, a shirt, a necktie, a pencil, a pencil and a key, from different members of the audience then tied them in a handkerchief, and hid the whole. Grasping his hand, Mr. King rushed to the spot, found the articles, and succeeded in finding them, blindfolded, to their owners, telling one the date on the coin on the bangle, another the date on the ring, and a third the device on the ring.  
 There was no collusion, all he did being genuine and wonderful.  
**PERSONAL MENTION.**  
 W. S. Geary, of Portland, is in the city.  
 F. D. Winton went to Portland last night on the steamer, and will meet his wife in that city.  
 Miss Susie Humphreys has returned from a visit to her sister, who resides at Astoria, Washington.  
 Maj. Thomas H. Handbury, Corps of Engineers, U. S. Army, came down from Portland yesterday on the steamer *Bonita* and went to Fort Stevens in the evening on the steamer *Geo. H. Mendon*.  
 L. A. Loomis, president and J. R. Goulet, secretary of the Ilwaco Railway and Navigation company, came over from Ilwaco yesterday and went up to Portland last evening on the steamer.  
 A. J. Brownie went out on the steamer *Mermaid* with a gang of men, and will have charge of landing the iron sections for the new light-house at Destruction Island. He is superintendent of construction of this light-house district.  
 A Large Funeral.  
 Yesterday morning the funeral of Maston Parke Mullinnix was attended from Grace church, and the edifice was crowded. As Dr. Mullinnix, father of the deceased had a member of the G. A. R. in the state, conducting Post and the ladies of the W. R. C. attended, each carrying a wreath of flowers to deposit on the grave.  
 The remains were in an elegant casket, which was covered with flowers, there being elaborate designs, as well as bouquets and wreaths. Rev. W. A. Short presided, and the impressive funeral services of the Episcopal church were rendered.  
 The pall bearers were six young men from Bishop Scott's military academy at Portland, class mates of the deceased, whose names were as follows: Capt. W. B. Mackay, Adj. E. L. Davies, Jr., Master F. C. Owens, Lieut. E. B. Watt, Sergt. W. Campbell and Sergt. B. Seefeld.  
 In addition to the flowers on the casket was a silk American flag. The interment was at Clatsop cemetery, the steamer *Electric* taking the people over, and was crowded with those in attendance, mourners and friends of the deceased and of his family.

**TAKING THE CENSUS.**  
 The Work Here Has Not Yet Begun.  
 Monday, June 2, was the day for the census enumerators here to start out where to begin the eleventh decennial round up of the inhabitants of this great and glorious republic, but the work has not yet begun in Astoria. There is a hitch somewhere, and it is hard to locate it. Jno. Kelly, the supervisor, writes that he sent all necessary books, blanks, etc., on May 26th, but they were not received by the enumerators here till yesterday morning. A new difficulty now presents itself. Two of the enumerators want interpreters. One of them started out yesterday morning, but of five men that he tackled "could" by any possibility be made to understand the questions that he had to propose. They are a tough lot of questions, and to try to throw them into Russian or Greek is away beyond the ability of a plain \$3-a-day enumerator. It is right that Astoria have a full and fair count of all present dwellers here, and the sooner the enumeration begins the more accurate it will be. So far nothing has been done.  
**To Locate a Homestead.**  
 The steps to be taken by a citizen of the United States to entitle him to become the possessor of 160 acres of government land are exceedingly simple and the expense is trifling. The first step, of course, is to select the land desired. Information as to the location of the public lands can be obtained from the land office at Washington. After the site has been selected, the next step is to make an affidavit before the register or receiver of the local land office in the state where the homestead is located, setting forth that the applicant is the head of a family or is 21 or more years of age, or has performed service in the army or navy of the United States; that the application is made for his exclusive use and benefit, and that it is made for the purpose of actual settlement and cultivation, and neither directly or indirectly for the use or benefit of any other person. On filing this affidavit a fee of \$10 is payable.  
 A further condition of obtaining a patent or evidence of title to the land from the government is actual residence on the land or cultivation of it during five years, which must be proved by two witnesses, and who must further show that no part of the land has been sold or otherwise alienated. The law does not require any fee for the issue of the patent.  
 The procedure in the case of an honorably discharged soldier or sailor is somewhat different, and the time of his residence or cultivation of the land is shorter. He has six months after locating his homestead and filing a declaratory statement within which to commence his settlement and improvement, and if he has served four years in the army or navy, or was enlisted for that time and discharged on account of wound received or disability incurred in the line of duty, he may perfect his title by residence or cultivation for the period of one year. In other respects the procedure is the same as in the case of a civilian.  
 The registry fee of one dollar for each declaratory statement filed, a commission to be paid by the homesteader applicant at the time of entry of 1 per cent. on the cash price as fixed by law of the land applied for, a like commission when the claim is finally established and a certificate issued therefor, and a fee of five dollars for the final certificate issued by the local land agent as the basis of the patents, constitute the total expense required of the sailor or soldier in the preparation of his homestead.  
**Prize Baby and Carrier.**  
 Last evening Mrs. E. W. Creighton came down on the steamer *Bonita*. She brings her baby which took the prize last year at the county fair in position in Portland, also the prize which was awarded the handsome baby. It is a four wheeled carriage of a wicker work, designed something like a regular baronette with a small seat for the baby and a lower seat for the occupant. It is elegantly upholstered in blue plush and is a magnificent baby buggy, handsome enough for even a prize baby.  
**Passengers to Portland.**  
 The following is the list of passengers who went up the river last night on the steamer *Bonita*: R. J. Brown and wife, Dr. Alfred Kinney and wife, Mrs. L. J. La France, C. Butterfield and wife, Mrs. L. G. Hanson, F. D. Winton and daughter, Capt. Reed, F. Wright, L. A. Loomis, J. R. Goulet, J. A. Campbell, F. P. Nichols, P. J. McGowan, Mr. Taylor and others.  
 This is the best time of the whole year to purify your blood, because now you are more susceptible to benefit from medicine than at any other season. Hood's Sarsaparilla is the best medicine to take, and it is the most economical—100 Doses One Dollar.

 Invest in Astoria Real Estate.  
 Among other good things the New York *Journal* says: "On basis of all wealth is real estate. There is no venture in the purchase of it. You can always turn land and lots into money at a fair valuation, and there are many opportunities to secure good property and prices at the natural growth of the surroundings will always yield a large percentage of income on the investment. To prove this, take the Astor estate, whose enormous footings have come almost entirely from an increase in values of the surrounding property.  
 Five or six years will make great changes in growing cities, and in New York and Brooklyn building lots have in many cases doubled in value in the last three years. At the rate of \$1,000 invested when one is 21 years of age, would amount to over half a million when one reaches the age of 50 years."  
**Moral—Invest in Astoria real estate.**  
**A Doubtful Proposition.**  
 Few railroad men, even among Hunt's friends, now believe that he will attempt to build his proposed road from Centralia to Grays Harbor city, although he has several carloads of scrapers and mules at the former place ready for operations. Hunt had an option on the Ellsbury grade until a couple of weeks ago, and failed to have the right of way still in the east and still holds bonds to go ahead and complete his road according to a survey already made by a corps of surveyors. His Walla Walla friends say he will build the road, but Tacoma railroad men have little faith in the project—*Tacoma Ledger*.  
**A CASE IN POINT.**  
 In our fastidious days, pimples were attributed to diseased blood. But modern medicine has demonstrated that rich food does not create eruptions by fouling the blood, but retards digestion, which makes the stomach torpid, and the circulation sluggish, and in turn causes an entangled mass of the pores which congest or become simply. The modern theory therefore is not to treat the blood, but the stomach and liver, and it is under this new idea, that Joy's Vegetable Sarsaparilla was conceived. It is wiping the old "blood disease" idea out of existence. A case in point: "I have had for years spots of indigestion and dyspepsia and tried nearly everything. Finally I took one of the leading sarsaparillas. It caused pimples to break out on my face, which I was told was caused by the potash. Hearing that Joy's Vegetable Sarsaparilla did not contain mineral, I got for it. The pimples disappeared and I have had no return of the skin spots. It is a cure for indigestion and dyspepsia and the stomach and liver."
