"Yes, I do," said senator Stewart emphatically.

U. P. Officers Changed. ecial to THE ASTORIAN.]

Owing to the irregular shape of, and the large amount of territory covered by Puget sound, many of the sesections granted to Washington are wholly or partially under water. The state asks for indemnity for the portions of sections so submerged.

Commissioner Goff, it is understood, favors allowing the request of the state, but acting commissioner Stone believes it cannot be done under the law, and will undoubtedly decide CHEYENNE, Wyo., June 5.—As a result of the visit here to-day of president Adams and party, rumors of Union Pacific changes are floating about. Following is the schedule: Ed. Dickinson becomes manager the Pacific division at Portland; C. F. Bessegue will take Dickinson's place, and Mr, Barr is sent to Salt Lake.

McCombs, ex-secretary of the Seattle relief committee for forging, was concluded this evening. The jury returned a verdict of guilty. They are charged with having taken only three ballots. Information has been secured in a number of other cases, charging him with a similar crime. While it now looks discouraging to silver men, free coinage senators will not relax their efforts. On the senate side senator Stewart said, "some of our western representatives are weak kneed but if the western senators will stand up to the crack we may ac-complish something." charging him with a similar crime. McCombs' shortage will probably not fall short of fifteen thousand dollars. DENVER, June 5 .- The massacre by band of renegade Cheyenne Indians, of chief engineer Wm. Crittenden, in harge of the 3rd division of governnent survey, in Wyoming, together with three of his men, was reported in this city late this afternoon, by J. S. Holt, purchasing agent for the Importing cattle company, who arrived rom the scene of trouble.

The terrible butchery occurred in the upper Green river country last Sunday, and resulted in the death of W. L. Criettenden, E. W. Timberlake, George Woods and Henry Ever-meyer, chain carriers, and the serious if not fatal, wounding of assistant en-

on last Sunday morning eleven Cheyenne Indians rode into the surveying camp, but nothing was thought reying camp, but nothing was thought of such a common occurrence, and they were given kindly welcome. It was soon discovered however that the Indians were intoxicated and disposed to be ugly. They demanded liquor of the surveyors, which was of course refused. The Indians then commenced drinking from flasks, which they had brought with them, at the same time inviting the men to join them. The men again refused and the Indians became boisterous and

they could not get whisky, they began to demand sugar, coffee, etc., and were again refused. They began finally to make threats and were ordered from camp. A quarrel ensued, the Indians suddenly attacked the surveyors party with their knives and guns. The attack was so sudden and unexpected that the men were in no way prepared for resistance, and when the Indians departed all the five men were left on the field for dead.

A pursuing party was at once or-ganized, and after a hard chase the Indians were captured and are now under guard, although it is the opinion that lynching will dispose of them shortly, if it has not already. Two of the ranchmen, who are known to have furnished Indians whiskey, are also under guard with the Indians.

DENVER, June 5 .- J. A. Holt, pur chasing agent for Importing Cattle Co., Wyoming, arrived here this morning, and gives a brief account of the Indian

massacre, which occurred in Upper Green river country several days ago. He says a party of Indians became intoxicated, came to the camp of the surveyors and demanded more fire-water. On being refused, the Indians water. On being refused, the Indians attacked the party, killing chief engineer Crittenden, in charge of the government survey, and chain bearers E. W. Timberlake, George Woods and Henry Overmeyer. Jesse Lee, assistant engineer, was left on the field for dead, but recovered sufficiently to get to a neighboring ranch, where he is now in a precarious condition.

A curious case was lately decided by a Berlin court. A well-to-do lady refused to pay a painter for a picture of herself and three daughters on the plea that the likeness was not good. The picture of the ladies was brought into court by the plaintiff, and the judges decided that, in order to find whether the likeness was good or bad, the defendants should appear in the rich evening dresses they wore in the picture. This was arranged, and the result was that, overcome by the beauty and splendor of the fair dames, the case was decided in their favor.

Pretect the System from Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, billious remittents, and as a preventive of the various forms of malarial disease. In those portions of the west and south where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.
