If the man or men who carried away the Third street sidewalk in front of THE MORNING ASTORIAN office will put back again, all will be forgiven and forgotten; the present chasm is neither useful nor ornamental.

Elsewhere appears the vote by precincts. It is interesting and probably instructive. It indicates that if the hatchet was buried the handle was left sticking up.

Yesterday Auguste Sforzini ex-hanged his hold from the republic of rance to the republic of the United states, and Leonardo Porroy severed connection with the king of Italy, and hough neither of the men can change the land of their nativity, this land to be henceforth their home.

The cars will ran on Second street in one direction number fourteen guessed on eleven and on Third street in the other direction candidates. Number eleven came West Ninth and Second and Wash-

There isn't much doing in the way of canning at present. So far not over 650 boats have been out. The gill nets are thicker than usual in front of the city, it being not so necessary as of late years to go down toward the bar. Should the price of salmon go down to 75 cents it is probable the number of boats would be greatly increased.

In Justice May's court yesterday the case of the state versus George Evans for larceny of money from Grace Wilson, the complaining wit-ness, was investigated. There not ap-pearing evidence sufficient to bind the accused to await the action of the grand jury, the case was dis and the costs, amounting to \$41.60 were assessed to the complaining wit-

An injunction suit has been brought in the circuit court by Samuel Elmore against E. J. Ford et al. It seems that a lease of whanf property from B. C. Kindred was obtained by Elmore C. Z. Ferguson. brought. If a temporary injunction is granted, an effort will be made to have he order perpetual.

The entertainment given by the eleone hall last evening was attended by a large number of people, and was remarkably successful, both lly and financially. There was a very attractive literary and musical program rendered, after which every one present indulged in ice cream, erries and other delicacies, making the occasion very entertain-ing and agreeable.

The mellow tones of the Decker Bros' piano at Wednesdays evening's entertainment was a noticeable feature of the performance. The Decker Bros' celebrated pianos are much cought by artistes all over the country. Carl King paid quite a tribute to its melody, when he said that its tones always soothed his nerves. W. S. Geary, of Harper and Winter, of Portland, is the agent for the celebrated Decker Bros' pianos.

Steigle's facile pen and pencil is now defineating a bird'sleye view of Astoria, which when completed will hand down to admiring posterity a correct portraiture of how the seaport of Oregon did seem to the birds of the air as they hovered above it in 1890.

For the first time the exact vote of Clatsop county and the official majorities of Monday's election is published.

Elsewhere appears the vote by presented and their majorities. On the morning of election day the polls were closed, and the box full of guesses sealed up, and put in charge of the committee, who met yesterday to canvass the returns. After going through the mass of papers, the committee selected sixteen and numbered them. These sixteen they subjected to a rigid analysis, being compelled at times to postpone their labors in order to complete the requisite mathematical calculations. After several hours they had succeeded in narrowing the contest down to two.

Chief of police Barry was aware of the fact, and kept a lookout. On election day he saw a man with the end of a watch chain sticking out of his pocket. It looked like Thompson's chain, and drawing it out of his pocket it proved to be the missing property. Barry asked the man where he got it. He said that he had bought it of a resident of Westport, naming him, and that he had given him ten dollars him up. The man said if given a little time he could get the watch. He exonorated the man who had been wearing the chain and said that he had sold him the chain for ten dollars, and acknowledged that he had stolen the watch and chain from Thompson's dead body just before it was brought down to Astoria.

In our forefathers' days, pimples were at-tributed to diseased blood. But modern medicine has demonstrated that rich food does not create eruptions by fouling the blood, but retards digestion, which makes the stomach torpid, and the circulation sluggish, and in turn causes an enfechled sation of the pores which congest or become pimply. The modern theory therefore is not to treat the blood, but the stomach and liver, and it is under this new idea, that Joy's Vegetable Saraparilla was conceived. It is wip-ing the old "blood disease" idea out of exence. A case in point: "I have had fo years spells of indigestion and dyspepsia and tried nearly everything. Finally I took one of the leading sarsaparillas. It caused pimples to break out on my face, which I was told was caused by the potash. Hearing that Joy's Ve stable Sarasparilla did not con lain mineral, I sent for it. The pimples dis appeared and I have had no return of the sid spells. It is a cure for indigestion and hypopsia and the attendant face eruptions."
