FUNDS FOR IRRIGATION.

Major Powell Overcomes His Persistent Opponents.

HOUSE PASSES A SILVER BILL.

Special by The California Associated Press.
WASHINGTON, June 7.—Senator Allen, of Washington, introduced the following, which he intends to propose as an amendment to the river and harbor bill, making an appropriation for removing snags, cleaning bars and deepening the channels of the following rivers in the state of Washington: Nooksack, Skagit, Snohomish, Squoquiline, Dwanish, Black and Puyallup. Mitchell, of Oregon, will propose the following amendment, making appropriations for the following: Young's bay channel, from ship channel of Columbia river to head of Young's bay, a distance of one and one-half miles, with a view of dredging the same, so to secure 18 feet depth of water at low tide. Squire, of Washington, will propose the following amendments: making examination and estimating the cost of removing the obstructions to navigation between Port Townsend harbor and Oak bay in the state of Washington.

DEPT. OF THE ASTORIAN.

WASHINGTON, June 7.—Senator Moody to-day introduced an amendment to the tariff bill, which was referred to the finance committee. It imposes a duty of 30 per cent. ad valorem after July 1st, 1891, upon castor oil, black oxide of iron, and upon bar, black and pig tin. In the house bill tin ore, or tin bars in blocks or pigs, and grain or granulated ore are on the free list.

DEPARTMENT CLERK RESIGNS.

WASHINGTON, June 7.—Geo. B. Hensell, of Washington, clerk in the war department at \$1,200, has resigned.

TWO MORE PENSIONERS.

WASHINGTON, June 7.—Oregon pensions granted: original—Johiel Boyles, Wilcox; original widows, etc.—Zilpha Hines, former widow of Epran McClure, Monroe.

WASHINGTON PENSIONERS.

WASHINGTON, June 7.—Original pensions granted: Geo. C. Borne, Patoka City; re-issue and increase—Dan I. Barr, Walla Walla.

FRAUD IN PENSION OFFICE.

A thorough investigation to be made.
WASHINGTON, June 7.—Cooper, of Indiana, this morning introduced into the house a resolution to investigate Greenbaum's administration of pension affairs. The resolution recites that pension commissioner Raum has been charged with selling to his employees stock of the company in which he is president, which company was organized for the purpose of introducing impracticable and worthless refrigerators, and that in consideration of such purchase of stock shares, pension clerks are promoted in office. It also recites that Raum has been charged with partially toward pension attorney Lemon at Washington.

THE SILVER BILL.

It is Passed by the House With Amendments.
WASHINGTON, June 7.—The house passed the silver bill by a vote of 135 to 110. The measure passed in a substitute offered by McKinley, and adopted by the Republican caucus on June 4. It comprises the Conger bill, with the following amendments: That the amount of silver bullion to be purchased monthly shall be four and a half million dollars. That treasury notes shall be legal tender for private, as well as public debts. That said notes be redeemable in coin. That funds held for redemption, in National Bank notes be converted into treasury notes. That there shall be free coinage when the ratio of silver is sixteen to one.
A Reasonable Permission.
WASHINGTON, June 7.—At the war department it is learned to-day that the permission of the Mexican government would undoubtedly be received, to follow the Apaches into that country. Advice from Mexico are that the request will be granted.
MAJOR POWELL WINS.
WASHINGTON, June 7.—Major Powell, director of the geological survey, has out-generaled all opposition. The house appropriation committee decided to allow him an appropriation of \$750,000 for irrigation surveys.

SILVER SCHEMES.

What They Wanted and Still Hope to Secure.

SPECIAL TO THE ASTORIAN.

WASHINGTON, June 7.—Morrow who intended to speak on the silver bill to-day, was unable to get recognition. The Republican side of the house had promised to allot him ten minutes, but failed to do so. Springer, of Illinois, who had the disposition of time on the Democratic side, had promised to yield several minutes to Morrow, but the first speaker consumed nearly all Springer's time, and only four minutes were left for himself. Morrow as well as the other Pacific coast members, except Wilson of Washington, favored recommitting the bill back to the coinage committee, with instructions to report a free coinage measure, and this would have been done, only for Window's bill, believing that thereby the senate would have a chance to act on it, and perhaps amend it so that the bill approaching free coinage would pass the senate, then in conference an agreement might be reached between the senate and house, the result of which would be indefinitely later for the silver men than no legislation at all, and they have hopes that this will be the final result.

A MISSING OFFICIAL.

His Case to be Investigated.
WASHINGTON, June 7.—Secretary Tracy will next week take action in the case of Ensign F. Hanson of the survey steamer *McArthur*, who disappeared. No official explanation was given of his absence but the fact is that he has gone without leave. It is said he is following an opera company through California. It is likely that the officer will be court-martialed should he return, on a charge of absence without leave. If he does not surrender himself, he will be declared a deserter.

HARVARD VANDALS.

The Very Worst Act of all.
BOSTON, June 7.—One of the very worst acts of vandalism committed by the Harvard students, during the painting exhibition, has just come to light and is the crowning offense. It seems that not content with the work on the college ground, they invaded St. Paul's Roman Catholic church and on several places of sanctuary, daubed the words "I. H. S.," to hell with it. The church was terribly excited, and after waiting several days, and finding that despite their loud protestations, that both the faculty and students were busy hunting it up, they hired detectives to search the college premises, and discovered that instead of freshmen, as president Elliot would have it believed, the criminals were three seniors, one junior and one sophomore, and all men of high standing in the college society.

This was the reason of the attempt to hush up the scandal. The church has notified president Elliot that if, as stated, in a certain number of days, by way of penance, the offenders do not come forward and make a public apology to the outraged faith and defray the expenses of removing the stains, they will have the men indicted.

A Colossal Combination.

NEW YORK, June 7.—It is rumored that Vanderbilt and Atchison interests are forming a combination of railroad properties. It is said that the Atchison is negotiating with the "Big 4" for an eastern connection at St. Louis. The "Big 4" is the natural outlet to the east of the Atchison system now that the Atchison has secured control of the St. Louis and San Francisco company.

President Ingalls of the Atchison, and chairman Magoun, of the Atchison, both of whom have been in the west for the past week, held a conference in Chicago on the subject. It is probable that the outcome of negotiations will be a traffic arrangement between the two roads.

AN ELECTRIC SHOCK.

One Man Killed and Another Injured.
BALTIMORE, June 7.—Charles Frazer, aged 25, was instantly killed to-night, in a saloon, by catching hold of a broken electric wire. Charles Korn placed his hands on Frazer's body, when he received a terrific shock, and for a time it was thought that he too, was dead.

Engineer Killed.

CHATTANOOGA, June 7.—Two freight trains collided on the Rome and Columbus road this morning. Engineer Williams was killed. The regular crew escaped uninjured.

Doubled Their Score.

NEW YORK, June 7.—The local team of players to-day, took the laurels from Brooklyn by doubling their score which was four.

Cleveland Conquers.

CLEVELAND, June 7.—The Buffalo players played here to-day, and were defeated by a score of 11 to 5.

EXPEDITING PASSENGERS.

An Important Arrangement Regarding The N. P. R.

TOURISTS TO GET PASSPORTS.

SPECIAL TO THE ASTORIAN.
MINNEAPOLIS, Minn., June 7.—An important traffic arrangement has been completed between the North Western and Union Pacific, by which better time has been made between Chicago and Portland, than could be made over the Wisconsin Central from Chicago, and over the Northern Pacific from St. Paul. The result has been a great inroad upon the first class business of the Northern Pacific. The latter, therefore, has made overtures to the Milwaukee and St. Paul, for a traffic arrangement for through passenger business, and the arrangement has been completed. Pullman sleepers will be run through from Chicago to Portland, and other North Pacific coast points. Just what time the trip from Chicago to Portland will consume, has not yet been announced, but it is said it will be considerably shorter than that via North Western and Union Pacific. The first train under the new schedule leaves Chicago June 15.

SMOKING IN THE PARK.

It Will Not be Longer Allowed.
PHILADELPHIA, June 7.—Authorities under the old law, have organized a crusade against smoking in the city parks, and orders have been issued to all park policemen, to interfere with smokers who are seated in the parks. It is explained, however, that the intention is not to enforce the order offensively. A man may be allowed to smoke, without being molested, provided the squares are not crowded, and no ladies are occupying benches near him.

AFTER LONG SERVICE.

Resignation of an Old Railroad Official.

SPECIAL TO THE ASTORIAN.
OMAHA, June 7.—Edward Dickenson, general manager of the Missouri river division of the Union Pacific road, has tendered his resignation, to take effect July 1st. Dickenson's connection with the road extends over a period of twenty years. It is understood that he will be succeeded by J. O. Brinkerhoff, superintendent of the Kansas Pacific division.

Tourists Must Have Passports.

WASHINGTON, June 7.—A special from Washington to the *Mail and Express* takes effect July 1st. Dickenson's connection with the road extends over a period of twenty years. It is understood that he will be succeeded by J. O. Brinkerhoff, superintendent of the Kansas Pacific division.

Smuggling Officials.

NEW YORK, June 7.—The customs officers have detected chief officer Allen, of the Inman steamship *City of Chester*, in smuggling. Allen has escaped, but four others who are implicated in it are arrested. It is said that a gang of prominent steamship men coming here, have been smuggling at wholesale for two years past.

Will Cause Distress Among the Poor.

NEW YORK, June 7.—The increase in the price of ice in this city, from \$3 to \$10 per ton, promises to cause distress on account of the advancement of provisions of all kinds. This advance is estimated to reach ten per cent. on all sorts of perishable articles of food. Three of the largest meat firms in the city have pooled their business and promised to advance the price at once. The poor of the city will probably have a disastrous summer.

Mail Carrier Robbed.

ST. LOUIS, June 7.—A mail carrier in Lamotte, Mo., while en route to a mine with \$4,000 in currency yesterday, was robbed by two men, who escaped with the money, which was to be used to pay off the men to-day in the mine.

A Great Rise in Sugar.

PHILADELPHIA, June 7.—The price of refined sugar has advanced 60 cents per barrel to-day. Refiners have increased the cost of sugar \$1.20 per barrel in two days and \$2.60 per barrel in ten days.

Fine Table Wine.

Delivered at 60 cents a gallon, to any part of the city, a fine line of pure California wines at low prices, at A. W. Utzinger's Cosmopolitan saloon.

ELUDED THE OFFICERS.

Alien Contract Laborers Escape.

NEW YORK, June 7.—Seven Bohemian glass blowers, who came here under contract, and were ordered to return on the steamer *Umbria*, of the Cunard line, escaped by a tug, which came alongside while the steamer was outward bound. They were landed without the knowledge of the customs officers, who are indignant at this bold violation of the law.

A Magnificent Game.

PHILADELPHIA, June 7.—The Brooklyn Nationals played a magnificent game to-day, the work in the box being particularly good, and won in a score of 4 to 3.

Knocked All Over the Field.

PHILADELPHIA, June 7.—Home team of Players knocked Boston all over the field to-day. Score, 6 to 5, in favor of the Phillies in the first game, but in the second game the score was 11 to 10 in favor of the Bostonians.

Now Aiding Justice.

CHICAGO, June 7.—Kunze, known to be the man who drove Cronin to death, is now assisting the state's attorney to find him.

PATRIARCHS MILITANT.

Grand Parade to Take Place in August.
CHICAGO, June 7.—A monster demonstration of the Patriarchs Militant, at the Old Fellows celebration, will take place here August 1st to 10th. The sum of \$50,000 in prizes has been set apart for competing companies. It is expected that 20,000 members from the Pacific Coast will participate. One first class fare for the round trip including admission to the drills, has been arranged with the railways.

Met With Disaster.

CINCINNATI, June 7.—The Pittsburg Nationals played here to-day and met with disaster at the hands of the locals, by a score of 6 to 2.

CONTRACT LABORERS.

Refused Return Passage to Europe.
NEW YORK, June 7.—Capt. McKay of the *Umbria*, this morning stopped the steamer off the Battery and signaled for a tug and put off six contract laborers who had been refused permission to land and were being returned to Europe. Then the *Umbria* steamed away. The laborers were captured and the Cunard company will be proceeded against by the government.

JOHN L. SULLIVAN.

Says He Has Nothing to Say.

PITTSBURGH, June 7.—John L. Sullivan, in speaking of the efforts of certain parties to get up a match between Joe McAuliffe and him, said: "What's the use of talking about a meeting between me and McAuliffe; at present I would not look at \$10,000. They had better talk about \$15,000 to \$20,000 when they want to secure the champion. I am making a comfortable living and will not talk business with anybody until I have met and talked with the champion. There are lots of people trading on my reputation and would like to do more of it. When they come up to my price, I bar no body, when the money is in view. In the meantime I have nothing to say."

Played a Poor Game.

NEW YORK, June 7.—Boston Nationals played a poor game to-day, and were defeated by the locals, by a score of 9 to 1.

First One and Then the Other.

CLEVELAND, June 7.—The national home team and Chicago played two games to-day. The first was won by Chicago by a score of 5 to 3, and the second by the home team, 9 to 1.

MOISTENING MADMEN.

Infiltrated Lunatics Subdued By A Cold Water Bath.

PERSECUTION OF THE POPE.

LONDON, June 7.—Temperance advocates supported by the Liberals generally, made a great demonstration against concession to the liquor dealers. An immense procession composed of temperance societies, Liberal and Radical clubs, marched to Hyde park, where 50,000 persons were assembled. Speeches were made from several stands, denouncing the government for the "enfranchisement of the public houses," such being the descriptive phrase used. Resolutions were adopted to the sound of trumpets.

INFURIATED LUNATICS.

Hard Work to Subdue a Revolt of Them.
LONDON, June 7.—It is reported from Bicetre, France, that the lunatics in the asylum at that place, revolted on Thursday. The garrison was called in to rescue the keepers, who had been hemmed in, in the corridors. The mad men secured razors and hammers in the keepers' quarters, into which they had broken. With these they fought like demons, for an hour and the windows in the place were wrecked. A company of infantry was soon on the spot with fixed bayonets and loaded rifles. The sight of the soldiers exasperated the mad men, and the director dared not call on the soldiers to act. The fire engines were brought out, and strong streams of water played on the madmen, who huddled together in a corner of the yard thoroughly drenched. This completely cowed them, and most of the madmen allowed themselves to be led back quietly to their cells, and those who showed signs of resistance were easily mastered, and rendered powerless by straight jackets.

A Clear and Reasonable Statement.

BERLIN, June 7.—The *Tagblatt* publishes an interview with Bismarck, concerning the emperor, in which Bismarck said: "I am not angry with him; my position is like that of a father ill-treated by his son. I have to suffer, still I will say, he is a dashing young fellow. When I was younger I followed my sovereign about everywhere, and so could counteract the influence of opponents. Now I am too old to travel so far, and so continually, and thus, other advisors win the emperor's confidence and turn him against me."

OPINION OF THE POPE.

Will Remain in the Vatican.
ROME, June 7.—The *Tablet* prints an interview with the pope who said "Persecution of me and the church in Italy, is increasing. For twelve years I have been confined in these walls, and it is only within these few years that offenses charged against me have become intensified. While I live I must protest against and expose the way in which Italy is breaking the Holy See." He expressed a determination to remain in the sanctuary and defend the rights of the papacy.

THE KAISER ALL RIGHT.

His Recent Accident Has No Effect.
BERLIN, June 7.—The emperor appears to have entirely recovered from the effects of his recent accident. He reviewed the troops yesterday on horseback, thus silencing many rumors about his serious condition.

BOULANGER BLOCKED.

Gives Up Hope of Returning to France.
LONDON, June 7.—President Carnot, as an offset to the release of the Duke of Orleans, has granted a pardon to 72 striking workmen, imprisoned for offenses against law and order. These prudent measures have effectively blocked the game of Boulanger, who had threatened to enter France and claim amnesty if the duke was pardoned. The general made no demand as expected. He has given up the hope of returning to France, for the present, and has sent for his wife, with whom he seeks a reconciliation.

Death of a Clergyman.

SAN FRANCISCO, June 7.—Rev. Dr. Dwinelle, a professor in the Pacific Theological seminary and one of the best known clergymen on the Pacific coast, died this morning at his home in Oakland, from heart trouble.

The government will provide shelter and food for the unemployed at Sidney.

The exact manner in which the murder was committed is not known at this time. Various stories are about and the more probable one is, that Dobson was shot a blow by Pratt and fell and broke his neck.

MILLS DESTROYED.

\$200,000 of Property Destroyed.
BUCCODA, Wash., June 7.—The Bostco Manufacturing company's mills at Buccoda, Thurston county, were totally destroyed by fire yesterday afternoon. The fire originated in a dry kiln of the ash and blind factory, about four o'clock. In less than an hour the entire plant with three million feet of lumber was totally destroyed. About fifteen cars of lumber were on a side track in danger of being burned, when suddenly a train came to the rescue and saved all of the cars but two. The value of the property destroyed was about \$200,000. The property was insured for \$50,000 in eastern companies. About 200 men will be thrown out of work.
