> principal places in the state, includ-ing Portland, evinces a quietness in branch of business that is strangely at variance with our brisk little city. Talking about "dull" times is mostly a habit; a good deal like a fashion many men adopt of telling daily about the state of their stomach, or how their liver feels, or what a bad night they had, etc. It is only habit. Then again a good many, or oach many people get into the same rut through a singular feeling that is rarely modesty is discretion; that's all. The modest girl won't let you hold her modest girl won't let you hold her modest girl won't let you hold her time, and make one cigar last the only rule of life experience brings us entire afternoon, does not tend to make times livelier for the individual who does nothing else. He would find it dull anywhere.

Wire brings the nations of the The one time that a fellow, or two earth together at breakfast, lunch and dinner. It girdles the earth and ocean as well. It is the world's speaking tube. It brings to us the whispers of the most distant denizens of the globe. It is the world's camera, bebause it pictures to us the events of the universe in the order of their daily occurrence. It is the only vehicle that unites continents. We can girdle the land with steel rails. We can send our fleet steamers from port to port, but while they are at sea, there is a hiatus in the communication between nations. The surging cable be neath the waters is the international link that makes the family of nations one every day and all the time. If there were no other use of wire than that furnished by the cables its praises could never be exhausted. In that sphere alone it supplies a want that has not been and probably never can be met by any other agency. What talks of peace and of war, of commerce and religion, of social conquests and disorders, of political triumphs and reverses, of hopes and fears, love and tears, successes and failures, have passed to and fro in the last thirty years over these strong and yet small coils suspended in the mighty deep The successful operation of a cable is an illustration of the divine wisdom in man, for which he should ever be grateful. It annihilates distance so.

Let something happen to day in London and Knappton. We'll know first what it was that happened in London, thanks to the wire. He was an old poker-player. To be a poker-player it is advisable to have all the infirmities at your command; to possess all the senses most acutely at possess an the senses most acutely at the same time. There are times at poker when it is well to be blind, dumb, deaf, and all the time you must be able to see, hear and speak. This old, old gentleman had cultivated con-venient deafness. He could not hear a word sometimes. He was playing one night with a man who had come to town for a good time, and who found apparently the best time at poker. The old gambler had won most of the visitor's money, and on the last hand he raised him just the balance of his pile. The visitor responded gal-lantly, and added:
"Til bet you \$20 more."
The old fellow was bent over his

cards, with his nose a nong the edges.
"I'll bet you \$20 more."
Still the old gentleman didn't hear, although it was yelled at him. He happened to look up and the visitor

In these days the "live" newspaper devotes more space and larger head-lines to the man who develops the greatest brute force and power of

If some fellow has developed his muscle so as to stand more punishment than some other fellow, and saves himself from getting "licked" or "knocked out" by "licking" or "knocking out" the other fellow, he is hailed as a great champion, and the newspapers devote columns to the glorious achievement. He is greeted by an exulting crowd—banquets are The two principal streets of the city given to him equal to those of some are in a chaotic condition at present; great conquering chieftain. Astoria is to-day attracting more at tention than any other community in the northwest. This is not idle talk. The new nickel plated numbers last and fine rock than to lay planks on top of the earth, to rot as heretopat up over the doors of many a house and store.

There is no place in the United States to-day that offer the same inducements to investors and permanent residents that Astoria does. Advantages that other places get. The new line of the street railway are under, and make doleful predictions, when, as a matter of fact, they are making money right along, and are only afraid that some one will get on to it, and, probably or possibly, start opposition to them and make there we alone with you they'd sit half a mile off and talk primly about the weather. Those girls wouldn't make good wives. them rustle a little harder to keep on making money. There isn't a town in the northwest to-day that has as much the same as with boys eating cherries. They lay aside the best to finish up with, but when they get to what they're laid aside they're so full condition of affairs that doesn't even exist in their own imaginations. The spread wouldn't make good wives. They lay aside the best to finish up with, but when they get to what they're laid aside they're so full of cherries they can't enjoy any more. Of course, there are other boys who eat all the good ones first. But all surest way to really make dull times, eat all the good ones first. But all is to assert their existence. Some time ago a gentleman named Ed. N. Deady was here and in response to some insulting remarks got his nose punched by W. J. Barry. Deady's papa is the honorable Judge Deady, and don't you forget it. He (Deady Junior) told Barry that as soon as his papa got back from the land of the Kanakas that he would have Barry bounced from the position of deputy United States marshal. Judge Deady is now back and Ed., who occasionally goes—out on a mild toot and is occasionally called to order, is trying to make his threat good. If Barry is put out, it will be serving notice on every United States official in Oregon that they must put up with Deady junior's lip or be bounced. The great quantity of cathartic pills, etc., which are taken by the people of this country are productive of immensely more mischief than is generally suspected. True, the physic unloads the bowels, but its action tends to diminish the tone of the intestines; so that, instead of removing continens, it aggravates it, leaving the bowels is a more torpid condition.

Joy's Vegetable Sarsaparilla was design Joy's Vegetable Sarsaparilla was designed to fill just such a contingency as the doctor's arraignment anticipates, viz.: instead of be-ing a powerful mineral purgative, it is a mild vegetable laxative, that, owing to its solvent and gentle stimulating properties, is so certain a relief in constipation that it has so certain a relief in constipation that it has been given away to hundreds, not to be paid for unless it was of positive benefit. It se-places constipation almost immediately with a natural easy habit, and is so mild that, unlike drastic purgatives, it can be taken indefinitely with perfect safety.

A suit was brought in the circuit court yesterday by the Clatsop Mill company against Sophia Daggett, F. L. Parker and J. H. D. Gray, to recover of Sophia Daggett the sum of \$1,540.60, claimed to be due the company. The other defendants are included because they also hold claims on the Daggett property.

Tormented with Salt Rheum-Cured by Hood's Sarsaparilla. Only those who have suffered from salt rheum in its worst form know the agonies caused by this disease. Hood's Sarsaparilla has had great success in curing salt rheum, and all affections of the blood.

" I owe the gratitude to Hood's Sarsapa-rilla that one would to his rescuer from a Burning Building I was tor-GET IN with salt rheum, and had to leave off work altogether. My face, about the eyes, would be swollen and scabbed, my hands and a part of my body would be raw sores for weeks at a time, my flesh would seem so rotted that I could roll pieces from between my fingers as large as a pea. One physician called it type Poison and gave me medicine accord. and gave me medicine accord-ingly; but salt rheum cannot be cured in that way. Finally I bought a bottle of Hood's Sarsaparilla. It helped me so much that I took two more bottles, and was Entirely Cured I have not been troubled with salt rheum since. I also used Hood's Olive Ointment on the places affected. It stops the burning and itching sensation immediately. I will recommend Hood's Sar-saparilla not only for salt rheum, but for and that Loss of Appetite 'all-gone' feeling so often experienced."
