A GOOD BILL BY PLUM

To Deliver Patents for Public Lands To Their Owners.

TARDY JUSTICE TO SETTLERS.

SPECIAL TO THE ASTORIAN.
WASHINGTON, July 2.—In the senate this morning, Plumb, from the committee on public lands, reported to the senate a bill to provide for the delivery of land patents to their rightful owners, and asked for its immediate consideration.

Statements were made by Plumb, Paddock and Berry, that there were some 250,000 land patents accumulated in the central land office, for which those entitled to them had not applied; that a thrifty firm of Washington attorneys had been permitted to have lists made of them; that they had then communicated with persons entitled to them, notifying them that they could get their patents on the payment of a certain fee; that this was an act of collusion between the assistant commissioner, who was then assistant secretary of the interior, acting as commissioner, and this law firm, and that the bill was designed to frustrate that job.

The bill then passed. It directs the secretary of the interior to send to the recorder of deeds in each city, in which the lands so patented lie, lists of the land patents in that county, which have been in the general land office unclaimed for, for twelve months.

A GOOD REQUEST.

To Have Wyoming and Idaho Admitted on the Fourth.

SPECIAL TO THE ASTORIAN.
WASHINGTON, July 2.—The national American woman suffrage association, through Jane H. Hoffman, its treasurer, the national christian temperance union, through Ada M. Bitterbender, superintendent of legislation and petitions, called upon the president to-day, and asked him to sign a bill, providing for the admission of Wyoming on the Fourth of July. The Wyoming bill provides for political equality without distinction of sex, and advocates woman suffrage. They say that they desire to celebrate the Fourth of July in honor of this beginning of the republic, in connection with events which the day is already in commemoration. It is the intention to have the Wyoming and Idaho bills sent to Cape May point, where the president will pass his Fourth, and request him to sign them there.

AN INFERNAL FRIEND.

Fortunately He Kills Himself Afterwards.

SPECIAL TO THE ASTORIAN.
ST. LOUIS, Mo., July 2.—John Chapman, a crazy young man, suffering from heat and from the pangs of unrequited love, shot his sweetheart and man who tried to save her, and then put a bullet through his own heart, at 10 o'clock to-night.
Chapman was a carpenter, 35 years of age, and had been boarding with Mrs. Joanna Elmer, a prepossessing young widow who conducted a boarding house. During the past week Chapman proposed to her and was rejected, on account of his dissipated habits. The rejection caused him to go on a spree, during which he remained away from the house.
To-night he called on Mrs. Elmer. She invited him into the parlor, and his first question was "what is my bill, I want to pay." The unsuspecting woman named the amount and Chapman reached into his pocket, but instead of his purse, he pulled out a pistol and began firing at Mrs. Elmer. She screamed and ran out to the street, closely pursued by Chapman. He fired three times and missed, but the fourth shot struck her in the back, as she was escaping through a confectionery store.
Mike Meizie, the proprietor of the store, struck Chapman and got in front of the woman. Chapman shot him through the body. After gazing for a few seconds at the bodies of his two victims, Chapman put the muzzle of the weapon to his heart, pulled the trigger and fell dead. Mrs. Elmer and Meizie are still alive, but their wounds are believed to be mortal.

The Wool Trade in New York.

SPECIAL TO THE ASTORIAN.
NEW YORK, July 2.—An attempt has been made to establish a department in New York of the cotton exchange, for selling future deliveries in wool. The meeting had only a small encouragement. There are but few wool men belonging to the cotton exchange, and it is agreed by them, that it would be cheaper for them to open an organization for their own trade.

Musicians in Council.

SPECIAL TO THE ASTORIAN.
DETROIT, July 2.—The first session of the Music Teacher's National Association convention began here yesterday, a large number of delegates being present.

AN INDIAN MURDERER.

Hard Times to Capture Him in the Mountains.

SPECIAL TO THE ASTORIAN.
REDDING, Cal., July 2.—"Shaved Head Bob," the Indian who shot and killed another Indian named "Big Mike" in Burney valley last December, and who has since kept hidden in the mountains, was found and arrested last Sunday, and brought here by two constables. They overhauled him with several other Indians in a cabin. The officers had a lively time making the arrest, and for a while, it looked as if it would be necessary. The Indian and his father were in the cabin, and met the officers at the door with Winchester rifles. Bob showed fight, but one of the officers compelled him to throw down his gun. An old squaw present, secured the rifle, and was going to shoot, but upon being confronted with a six shooter, she surrendered, and threw down the rifle.

THE TERRIBLE DISASTER.

SPECIAL TO THE ASTORIAN.

SPECIAL TO THE ASTORIAN.
ST. CROIX FALLS, Wis., July 2.—There is great excitement over the discovery of copper and silver at Kettle river. For years search has been made for the main lead, as nuggets of pure copper and silver are washed from a large vein. This vein is located for a long distance, extremely rich copper being obtained. It is easily mined, while the silver is in detached particles, and found with copper.

SPECIAL TO THE ASTORIAN.
TACOMA, Wash., July 2.—Since the purchase of the Lake City & Tacoma road by the Union Pacific, there has been a gradual growth of ill feeling between them and the Northern Pacific railway, and yesterday the frogs and switches connecting their roads at the junction, were torn up by the Northern Pacific railroad. PACIFIC COAST NEWS.

A Terrible Struggle with a Desperate Suicide.

ABOUT GOVERNMENT VESSELS.

SPECIAL BY THE UNITED PRESS.
SAN FRANCISCO, July 2.—It was learned at the Mare Island navy yard to-day that the *Ranger* and the *Thetis* were ready to proceed on their different missions as soon as orders are received from Washington. Both vessels have been ready some little time, but their missions are unknown. When orders were first received to fit out the *Troquois* and *Ranger* with quick dispatch, it was believed that both vessels were to be sent to Behring sea.

This belief was strengthened, when it became known that orders from Washington are included for the change of the *Ranger* from a surveying vessel, and the placing of a battery again on board of her, but the *Troquois* when ready to start, was ordered to Samoa, to relieve the *Adams* and the *Thetis* still remain. Both are ready to go on an hour's notice.

STUBS HAS RETURNED.

From a Visit to the Interstate Commerce Commission.

SPECIAL TO THE ASTORIAN.
SAN FRANCISCO, July 2.—J. C. Stubbs, third vice-president of the Northern Pacific railway, arrived here on Saturday last, and reported for business at his office this morning. Stubbs was called off to Washington to testify before the interstate commerce commission, relative to the alleged discrimination in freights, on European and Asiatic products over their line. He made an argument before the commission on the subject, claiming that the position assumed by the company was a necessary one, and forced upon it by the active competition of British freighters. The commission reserved their decision.

LEADER ARRIVING.

Nearly Two and a Half Million Feet.

SPECIAL TO THE ASTORIAN.
SAN FRANCISCO, July 2.—Quite a fleet of lumber laden ships arrived in port to-day. The bark *Southern Chief* brought 1,000,000 feet. The schooner *Norma*, from Astoria, 490,000 feet. The *Signal* will return to San Francisco in a few days. The *Eastern Oregon* has been running for some time between this city and Yaginn Bay.

Government Vessel Coming Here.

SPECIAL TO THE ASTORIAN.
SAN FRANCISCO, July 2.—The steamer *Delaney* will shortly depart for Oregon. The delay in the departure of the vessel was owing to a lack of funds, but as the new appropriation becomes available, on account of the fiscal year of 1890-91, being at hand, her stay at the navy yard will be brief.

SPECIAL TO THE ASTORIAN.

A DESPERATE SUICIDE.

He Tried Hard to be a Murderer.

SPECIAL TO THE ASTORIAN.
SAN FRANCISCO, July 2.—Shortly before midnight on Monday, George Collins, assistant marine reporter for the *Merchant's Exchange*, sighted the schooner *Letitia*, passing up the bay inward, bound from port Madison. He at once put off alone in his boat to board the schooner and gather a report.

Collins had pulled away from the wharf about thirty-five yards when he heard a splash, as if some one had fallen, or jumped into the bay. He pulled in the direction from which the sound came, and found a man floundering in the water. After great exertion, Collins succeeded in getting the man into his boat. The man assisted, and seemed to wish to be rescued. When he got in the boat Collins saw that he was middle aged, of robust build, weighing fully 250.

No sooner had the man been lifted into the boat than he stood up, and approaching Collins, who was also standing in the stern of the boat, placed his arms with a vice-like grip, around his neck. Collins struggled with all his might and main, and the two tumbled overboard, locked in each other's embrace and sank. The stout man held on to George with a grip of steel.

The reporter, however, at last managed to shake him clear and rose to the surface exhausted. Had he not been a good swimmer, he would certainly have been drowned in the suicide's embrace. After scrambling into his boat he saw nothing of his would be murderer.

NOT YET CAUGHT.

Engineer Sam Dunn is Still Missing.

Hale received advices a few days ago, that Dunn had been arrested down south, and was in jail, awaiting his orders. Since that time Hale has received no word about the matter, and believes the authorities have caught the wrong man.

SUIT FOR DAMAGES.

Brought Against the Union Telegraph Company.

SPECIAL TO THE ASTORIAN.
SAN FRANCISCO, July 2.—Robert Atchison to-day sued the Western Union company to recover \$685. The complaint sets forth that on December 20th, 1889, Phillip Wolf & Co. presented to the defendant, the following cipher message which it undertook to forward:
"Theo. Bernheim, Medford, Oregon.
—No salary presented Shething half Independence lots fluke best elder marked E.
(signed) PHILLIPS, WOLF & CO.
The word "salary" in the cipher meant "we cannot contract." The word "shething" meant "to fill our contract orders quickly, you may get cents higher over last limit." The firm sent an answer, also in cipher. Several dispatches were then interchanged, and it is claimed by the plaintiff that through the negligence and carelessness of his defendants, the cipher dispatches were not sent as they were written.
The plaintiffs were prevented from purchasing a lot of hops, consisting of 152 bales, averaging 180 pounds per bale, at 8 1/2 cents per pound, and amounting to \$2325.00, and they claim that by their failure to make said purchase, the plaintiffs were damaged in the sum of \$684.

JAPANESE IN ONE LESSON.

A Half Dozen Words Will Enable One to Say Anything Worth Saying.

Contrary to popular belief, Japanese seems to be tolerably easy language to learn, after all. The following under the heading of "The Japanese Language in One Lesson" is from the *Japan Herald*: "Arims means everything. Arims means nothing. Wakarimas means to understand in all its moods, tenses, persons, etc. It is a whole conjugation in one word. Wakarimas is the opposite of Wakarimas. Dekimas means unlimited potentiality, past, present and future, and can be made to express anything. It also is a whole conjugation in itself, and can be applied to everything and everybody (yourself included). Dekimas means, of course, everything that dekimas doesn't mean. Kis is a vocal note of interrogation, and can be tacked on to anything. Ano-ne can be thrown in anywhere to make conversation.
After going through the above course the student is competent to say anything. When being spoken to or answered it is advisable to exclaim Hoi (long), hai (medium), or ha (short), which expresses surprise, wonder, assent, sympathy, absorbing interest, honor—in fact, the whole gamut of feelings—care being taken to ejaculate it in a different tone every time (minor scales preferable)—with a varied and appropriate facial expression, the one for which must be taken from the face of the speaker. When the student is not speaking this word properly played upon will keep the other man going all the time.
