LOOK OUT FOR FIRE! Everything indicates a grand parade to-day. There will be no paper issued from this office to-morrow.

Almost every business house is decorated, and some of them very elaborately. This being a legal holiday, the banks, courts and public offices will be closed.

Beaver Lodge No. 35, I. O. O. F. installed the newly elected officers last evening. An extension is being built on the rear of C. E. Bain's sash and door factory.

Sheriff Smith has trimmed the court house entrance in a very neat and tasty manner. Let every one be on the alert to guard against fire until after the celebration to-night.

Gerry's "Gem theatre" was closed last evening, having been neither a social or financial success. No freight will be received at the U. P. dock to-day, for the employees will be celebrating the Fourth.

Many business houses and private residences are elaborately decorated, and the city presents a festive appearance. The postoffice will be open to-day from 10 to 11 a. m. and for one hour after the arrival of the mail boat from Portland.

To-day there will be free rides over the Bay railway, every half hour, commencing at 1 o'clock p. m. Everybody will be welcome, for all who care to ride. A. E. Shaw, a first class billiard and pool table, is now a resident of Pomeroy, Wash., where he is trying to make people believe that he is a dentist.

Everyone should be on the alert for fire to-day. The celebration would be a costly one if it burned up. Look out for fire, and keep an eye on the youngsters and their fire crackers, etc. All hopes are given up for the safety of the bark J. H. Hustede, which sailed from Victoria with a very valuable cargo of salmon for London.

Fitting Preparations for Its Celebration To-Day. THE PROCESSION, SPIRITING EVENTS, ETC. The city presented a festive appearance yesterday. A forest of evergreens lined streets, the national colors were in a thousand places, and tasteful decorations greeted the eye on every hand.

T., has received a telegram from G. W. Hunt, announcing that he has successfully carried forward the project of a road to New York, the sale of \$5,000,000 worth of O. & W. T. bonds.

An hundred carloads of steel for the O. & W. T. system, have left Chicago, and are expected to arrive soon. When they do, the completion of the line to Grays harbor and Portland, says the East Oregonian, he will have an outlet of his own for the wheat and other produce shipped over his line, and can afford to snap his fingers at the two great railway corporations which have been attempting to gain control of his road, the Union and Northern Pacific.

Says the Oregonian: "There is probably no railroad in the state in which local interest is so keenly and so strongly at present than that known as the Seaside division of the Astoria & South Coast railway. The four days of excessive heat have turned the thoughts of hundreds towards the beach and the satisfaction with which the completion of the line was greeted last year is duplicated in that of the completion of the Clatsop road this week. It is now safe to say that with the increased facilities for reaching the coast, every body will get a sniff at the ocean this season who cares for the luxury of its bracing air."

The hall to-night is given under the auspices of the general committee of arrangements for the celebration of the Fourth, and is part of the program of exercises for the day. Dancing will commence immediately after the display of fireworks, and everybody is invited. Tickets are only one dollar, admitting a gentleman with lady, and are for sale at the New York Novelty store, at Griffin & Reed's, and at the door of the opera house, where the ball will be given. The opera house has been elegantly decorated, and the floor will be in fine condition.

PERSONAL MENTION. A. Tarbett and wife, of Spokane Falls, are here on a visit to friends. Music on the Bay. Yesterday afternoon there was quite a whistle concert at Smith's point, participated in by two locomotives, one on either side of the bay, and a steamer between. As the steamer T. J. Potter was going down towards the point, the motor on the Bay railroad came along in the same direction, and when the company's dock was reached by the motor, the latter saluted the steamer, which passed close to the dock. The salute was answered by the boat, and then the engine of the Astoria and South Coast railroad sounded a salute and for awhile, the clear sharp notes of the three whistles woke the echoes around the bay, and made a lively concert.

Chinese Gamblers Captured. Last evening just before 7 o'clock, sheriff Smith and deputies, aided by the city police, raided two fan ting games and captured 21 Celestials betting on the 1, 2, 3, 4. They were escorted to the county jail, and among themselves in a moment they soon began to produce money, until \$210, or \$10 for each gambler, was deposited as bail. Constable Welch also made a hit, and caught five mooned heads "hired out of the pipe." They were fined placed in the city jail, and afterwards taken to the county bastille.

Big Land Transfer. C. F. Leavenworth came out of the woods Sunday evening, where he had been several days, when he was inspecting a large tract of land comprising 17,000 acres, lying between Shoalwater Bay and the beach, which he is in company with five other parties recently purchased. It is a big land deal—one of the largest ever consummated in the country. Montezuma Vulture. A monster spring salmon which weighed 75 pounds was yesterday brought into Seaside, where it lay in state "on ice" most of the day. The fish is worth \$5 and was taken out of the notorious Frazer-Seattle Press.

Remarkable Rescue. Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated a month by her physician, but grew worse. Her husband, who was a hopeless victim of consumption and that no medicine could cure her. Her husband, who was a hopeless victim of consumption and that no medicine could cure her. AT ASCHOR. I am going a journey, brother. Or would it be better to say, I am ending up a long voyage, and dropping my keel in the bay. Coming home; and in debt to the purser, with never a dollar to pay. Six decades. 'Twas a wearisome voyage, made over a mystical sea. In a poorly-rigged plebeian lugger that always was drifting in a lee; And where are the lofty square riggers that started the voyage with me? They passed me far up to the windward, with stunsails aloft and down. Some heading for tropical islands, some bound for the islands of snow. And where are the weather-clipper the merchants delighted to know? Some drowsily sailing to the anchors, as the numbering tide goes by. Some battling in frozen oceans, where the northerly gales are high; Some drift in the seething tropics, with keels upturned to the sky. Oh, grand is the lofty clipper, as she dashes the yeasty brine From the crest of the midnight billows, where the waters flash and shine. But I love the plebeian lugger—the little lugger is mine. And lofty clipper or lugger, it comes to the same at last. Or whether we count the wreckage, or hold to our noorings fast. And we swing to a final anchor, and the voyage of life is past. —George W. Sears.

Reception to Capt. Hooper. There are very many readers of THE ASTORIAN, who are friends of Capt. C. L. Hooper, of the revenue cutter Flue, Corvair, for that vessel and her genial officers are well and favorably known here. The Port Townsend Leader of Sunday has an account of a reception given to Capt. Hooper, from which the following is an extract: One of the most successful and brilliant social events of the week was the reception held at the Key City club on Friday night in honor of Captain C. L. Hooper, of the revenue cutter Corvair. Captain Hooper is a great favorite with Port Townsend people, and numbers his friends here by his acquaintances. The Corvair will start for Behring sea in the near future, and the citizens of this city are making it as pleasant as possible for her officers during her stay here. The officers of both the Corvair and the Flue were in attendance, as well as those from Fort Townsend. All appeared in the costume of their respective offices. The ladies who attended were in full evening costume, and the affair was a gay and pleasant one.

Coal Oil in Summer. A frightful succession of coal oil calamities again compels attention to the fact that in hot weather the products of petroleum become increasingly dangerous. As the temperature rises, all these products, from the heaviest crude oil to the most volatile naphtha, expand rapidly and give off gas that mixed with air becomes explosive. When cold these fluids do not evaporate, and dealers in kerosene illustrate the safety of their highly illuminating oils by showing a lighted match into a vessel filled with the article they especially recommend. That can be done as long as a low temperature is carefully maintained, but the instant the temperature reaches the point where expansion begins then danger threatens. Gas is generated, and, as it spreads abroad, fills the vicinity with an explosive compound which, coming in contact with fire communicates in flashing combustion with the body of the fluid, and an outburst of flame follows which it is almost impossible for any human agency to deal with.

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion and preparation, curative power superior to any article of the kind.
