## AMERICAN CITIZENS

**Will Certainly Be Protected, No War.**  
Special to THE ASTORIAN.

WASHINGTON, July 11.—The action of secretary Tracy yesterday in ordering the United States steamers *Thetis* and *Hanger* to proceed at once to the west coast of Guatemala and San Salvador in anticipation of the outbreak of war between those countries, has caused some gossip in diplomatic circles, and especially as the diplomats are not inclined to believe that these steamers are simply going there to protect American citizens.

The case against Honduras is that of editor Hollander, an American who published a paper in that country. He unearthed and exposed a plot, instructing the president to invite the president to the United States minister Hall, who was appointed by Cleveland, was engaged in a conspiracy with prominent officials of the Honduras government. For this Hollander was first imprisoned and then banished, from the country, and his property valued at \$65,000, was ordered confiscated.

The case against Guatemala was on behalf of William Fagua, formerly of Boston, who is still in that country. Fagua went to Livingstone, Guatemala, in 1885, and entered the employ of the commercial firm of Anderson & Owen. The following day he was arrested by the Honduran government, and his property valued at \$65,000, was ordered confiscated. Secretary Blaine has demanded that the property be not confiscated, and that Hollander be allowed to return to the country, and his property valued at \$65,000, was ordered confiscated.

The senate proceeded to the consideration of the senate bill to establish a United States land court, and provide for the settlement of private land claims in New Mexico, Wyoming, Arizona, Utah and Colorado, such claims being by virtue of Spanish or Mexican rights.

**THE COURT MARTIAL.**  
Of Wham and Baltimore Commanded.  
Special to THE ASTORIAN.  
WASHINGTON, July 11.—The *Critic* to-night in an article on the trial of Major Wham and Captain Baltimore in Arizona, says that army men all over the country, and especially in the West, are indignantly protesting against the court martial of major Joseph W. Wham, paymaster, and captain A. E. Baltimore at Tucson, A. T., and do not hesitate to characterize the trial as a farce, and the charges as frivolous. The protest is in the form of a letter to the war department, but have not been acted upon. There is little doubt but what an investigation will result in the vindication of the two officers, and it is declared that the captain Baltimore would never have been tried, had it not been that it was necessary to implicate him, in an endeavor to defeat Major Wham in his aspirations for a higher position.

## DEMOCRATIC CONTENTION.

**A Large Amount of Balloting Fails to Get the Man.**  
AWARD OF K. OF P. PRIZES.

Special by THE UNITED PRESS.  
COLUMBIAS, O., July 11.—There was a suggestion that when the Democratic congressional convention for the sixteenth district, which was in session at Orville, adjourned last night, matters would be harmonized and nominations made during the early balloting this morning. This was not the case, and the convention is having great difficulty in settling upon a man to put forward as the candidate.

**THE SILVER QUESTION.**  
Special to THE ASTORIAN.  
NEW YORK, July 11.—The *Evening Post* figures out the silver situation as follows: If the present silver bill becomes a law, the point where the secretary of the treasury would stop buying silver bullion would be 129,229, which corresponds with 371 grains of silver in the dollar. There is a margin of 129,229 grains of silver in the dollar from the present price, and the amount of silver to be bought by the treasury, which would absorb the present supply of about 10,000,000 or 10,000,000 ounces of silver within the next three months. It is presumed, however, that even half of the Michigan division, which is the first price for drill, of \$1,000, and the Erie division the second price of \$800.

## CURIOUS CREATION.

**Burning a Baby in a Locomotive**  
Special to THE ASTORIAN.

SYRACUSE, N. Y., July 11.—A detective from police headquarters waited at the station of the Delaware, Lackawanna & Western railroad to-night for the evening express from Oswego to the city. Curtis has been brakeman on the road for nine years, but has just been put on an engine to stoke, under instructions of Granish.

This morning Curtis came into the cab with a bundle which he tossed carelessly on the coal in the tender. He said nothing about the contents until the train passed Pleasant Bridge, a lake side resort near here. When he picked it up and remarked that it contained a baby, he was left by the engine. Curtis said the bundle undisturbed until the train was again in full speed, then he picked it up and unwinding the paper wrapped around it, he found it in sight of Granish. It was the body of a wee baby. Curtis said to his astonished companion, that it was his own and that he was going to have a quiet funeral, and without further ado he opened the fire box and deliberately threw the body in on top of the blazing coals. He said he had frequently done the same thing before.

Granish was appalled at the coolness of the man, but Curtis only laughed. When the train reached this city at noon Granish gave information of the crime to the police, who made the arrest to-night. Curtis denies the story, but as his wife was delivered of a child on Tuesday, and the truth is unquestioned by the police. The woman has two children living.

**STANLEY'S SUDDEN ILLNESS.**  
Will Cause a Postponement of His Marriage To-day.  
AN UNPARALLELED MURDERER.

Special by THE UNITED PRESS.  
BERLIN, July 11.—Bismarck in an interview in the *Frankfort Journal*, says he would not have signed the Anglo-German agreement in its present form. He holds that Heligoland might have been obtained at less cost. Unless the island should be strongly fortified, it might prove a source of danger to Germany in the event of a war.

**HEARST AND IRISH.**  
Promise of a Democratic Fight.  
Special to THE ASTORIAN.

SACRAMENTO, July 11.—A local paper says, a choice morsel of political gossip is circulating just now, in which two of the recognized Bourbon Trojans are involved. ## THE OREGON PACIFIC.

**Many Conjectures as to Its Extension.**  
Special to THE ASTORIAN.

SAN FRANCISCO, July 11.—The present trend of immigration to Oregon and Washington makes those interested in the Oregon Pacific project, but those who know the eastern Oregon country and the proposed route of the road, feel that some day the Oregon Pacific people will have the laugh on their side. Conditions cannot take the place of capital, but those who know say these railway projections have no lack of both. The road has been pushed slowly but work done has been well done and now the 140 miles of road in operation, with its connecting steam service, are paying well.

John I. Blair, of the Northwestern, and other veteran railway men are in the Oregon Pacific directorate, and their experience would indicate that such men know as much about the best time to build a railroad as any one.

When active construction work is resumed, as it is expected to be shortly, there is strong reason to believe that the Oregon Pacific project, which now is attracting the attention of the entire country. There is a vast fertile region in Eastern Oregon, which when it begins to be settled, will afford a local market for the new road, and as soon as the road is built a very heavy through traffic can be counted on, for this road passes through and opens up a section of country, which by any other overland road would be very roundabout to reach.
