SILVER BILL FINALLY PASSES

After a Protracted Debate in the House.

CHINAMEN WILL RESENT HOME.

Special by THE UNITED PRESS.

WASHINGTON, July 12.—When the silver bill came up for discussion in the house to-day, Blaud of Mo., con-

ferred with the gentleman in hoping that the next house of representatives would be a free coinage house, but that the house would be composed of those who advocated free coinage and stood by their colors. It would not be composed of the Republican party which by a gag rule has voted down and stifled free coinage. If free coinage come at all it would come from that party which stood firm to the flag of free coinage, and which has not surrendered its principles at the beck of Wall street. He denied that the bill was the result of a free and fair conference. It was the result of secret meetings of the Republican conferees. He, as a conferee, had known nothing of the measure until it had been framed and the report ready to be signed. The Democratic members had been ignored in the preparation of the bill. The bill was one which practically demonetized silver. It was a sugar-coated quinine pill. On the first reading it seemed that the secretary was to purchase 4,500,000 ounces per month; but when a man rolled the pill around in his mouth he began to taste the bitterness of the "or so much thereof as may be offered."

Here could be traced in this measure the stealthy "Italian hand." The bill surrendered every principle; it made combination with the bullion speculators of Wall street in the interest of Wall street; it departed from the legal ratio and changed that ratio from sixteen to one to twenty to one. To change the ratio of gold to silver as established by usage, was to pile up much capital in the treasury at the expense of the people and in the interest of Wall street and bullion owners and he denounced it as a fraud and a cheat on the people, who were demanding a ratio of sixteen to one. The bill made silver simply a commodity, to be measured by gold, upon which money shall be issued at its value. It was true that the measure might make an increase in the general circulation, but it would make it by concession to the gold standard and a desertion of silver. It was a declaration that congress would not make any further fight for bi-metallicism. It was neither a silver bill nor a greenback bill, but simply a political device concocted to tide over an emergency.

We denounced it as a fraud and would denounce any measure as a fraud that did not provide free coinage. The bill that has his name passed (the Bland bill) had fallen into a trap, every silver representative then felt perfectly confident that the next president would sign a free coinage bill. He would refer to the history of these members now willing to accept this report as leading to free coinage. Now was the time to make a fight. If the conference report was rejected another conference would be held and the objectionable features of the report stricken out, and that is what he had undertaken to do.

Morrow, of California expressed his approval of the conference report and proceeded to argue that the depression in the price of silver in recent years resulted from artificial manipulation. The house adopted the report of the conference and passed the bill. The bill, after 122 yeas and 93 nays, finally passing the bill.

Passed the Subsidy Bill.

Special by THE ASTORIAN.

WASHINGTON, July 12.—The senate today resumed consideration of the two shipping bills, and was addressed by Vest. Vest spoke at length against the subsidy bill, showing how former subsidies ended in failure and scandal, and illustrated his argument by reference to various subsidized steamship lines. He predicted that the subsidies would never bring a dollar of foreign commerce to the country. George then spoke in opposition to the bill. The senate passed the subsidy bill, after 29 yeas and 18 nays, the only exceptions to it being a strong party vote that Payne voted with the Republicans for the bill and Edmunds and Plumb with the Democrats against it.

Trouble in Agreeing.

Special by THE ASTORIAN.

WASHINGTON, July 12.—The senate caucus committee spent its time till noon to-day trying to devise a plan to carry out the absolute instruction of the caucus to report some practicable method of procedure by which a majority of the senate may reach a vote upon the national election bill or any other pending measure within a reasonable time. Several different propositions were advanced in the caucus and were critically discussed. The committee did not reach any definite conclusion, but hopes to be able to report to the caucus early next week.

They Will Be Sent Back.

Special by THE ASTORIAN.

WASHINGTON, July 12.—Collector Phelps, of San Francisco, to-day telegraphed to assistant secretary Tichenor that he had received twenty-four Chinamen from the authorities at Tucson, Arizona territory, for shipment to China. He was instructed to forward them at once and by the first vessel.

A Very Good Idea.

Special by THE ASTORIAN.

WASHINGTON, July 12.—Representative Anderson, of Kansas, in the house to-day offered for reference a resolution revoking all leaves of absence except on account of sickness after Tuesday next.

A Commutation of Sentence.

Special by THE ASTORIAN.

WASHINGTON, July 12.—The president has commuted to eight months the sentence of the convict in the case of Byron W. Brown, convicted in Utah of perjury.

SCATTERED TO THE WINDS

Stolen Money Flying Around Dakota Prairies.

Special to THE ASTORIAN.

JAMESTOWN, N. D., July 12.—On the night of June 7th last, the Northern Pacific train was boarded near New Salem, N. D., by two masked men, who terrified the passengers on the cars. The men got away with several pouches of registered mail matter. One of the robbers was afterward captured. The postal authorities probably know by this time the amount of the money. The published estimate of \$5,000 to \$6,000, as the amount, is but a rude guess. It is believed that the robbers got away with nearly \$50,000. The postal inspectors have searched over the ground where they caught the robbers and they found, in torn bits and ragged pieces, a large amount of currency including one bill of \$1,000. There were found numerous tens and twenties, more or less mutilated. A whole bundle had been dropped in one place, and in the robbers' haste not securely hid, and the coyotes and gophers had torn and separated the money and the wind had scattered it. The amount recovered, the inspector would not disclose, but it runs into the thousands.

A False Report.

WASHINGTON, July 12.—The letter published this morning under date of Carlisle, Penn., purporting to give the views of prominent Harrison concerning free trade and protection is not genuine.

STANLEY'S MARRIAGE.

An Extremely Weak Condition for the Ceremony.

Special by THE ASTORIAN.

BREMEN, Wis., July 12.—County Supt. C. R. Bower was pelted with rotten eggs at the polls to-day. He was active in getting the women of this district out to vote for a new school building and longer terms. They were paralyzed with astonishment at the sight of women actually voting, and their anger knew no bounds when it was found that the men had won the point. They were only prevented from demolishing the ballot boxes and destroying the record of election by the prompt action of a few cool headed men. When the supply of eggs was out affairs became more quiet.

THE FISH ESTATE.

Special by THE ASTORIAN.

The Old Firm of Grant & Ward, Special to THE ASTORIAN.

New York, July 12.—The report of the referee in the suit of James W. Elwell against John H. Morris as assignee of Jas. D. Fish was filed to-day under the Fish assignment. The amount claimed by the firm was \$577,936, including the interest claim of the Marine National bank, which is \$546,664.18. The claim of the Broadway bank against Fish is \$31,271.84 and of J. R. Grant \$12,472. These claims are against Fish. A member of the firm of Grant & Ward and give precedence to individual debts. After paying commissions, etc., the assignee will have \$265,335.56. It is expected that a dividend of 45 per cent. will be made upon the claims of the first named in the assignment.

WANTY TREATED RIGHT.

Special by THE ASTORIAN.

New York, July 12.—Ex-warden Michael Duffy has brought suit against John Kennan, who had just returned from Canada, to recover \$50,000, the balance of the sum of \$50,000, that he claims to have been promised for his vote in favor of granting a charter to the Broadway road. Duffy has confessed that he was in the employ of Kennan, who was bribed by Jake Sharp to vote for the Broadway railroad franchise, and has testified against several of his confederates. He says he only got \$10,000 of the \$50,000 promised for his vote.

IS IT A FISSURE VIB?

Special by THE ASTORIAN.

CHICAGO, July 12.—The Inter-Ocean correspondent sends the following in regard to the recent sensational find of gold in Colorado. When the writer visited the mine last evening it showed a face vein three feet in thickness. From an assay made in the camp it is thought to run 22 ounces gold, while in nearly every piece of rock on the same vein there could be found free gold in small quantities. There is no doubt that the ore averages at least \$1,000 per ton, while mass and assay \$15 to \$20 in gold.

Death of a Conjurer.

Special by THE ASTORIAN.

BUPAESTH, July 12.—Danis, a native of San Francisco died to-day of apoplexy, after a long illness, while performing his fire-acting to-day. The use of a current of electricity enabled him to spit out fire and flame, on this occasion the strength of the current broke a blood vessel and caused his death.

No Lead on Which the Sun Shines.

Special by THE ASTORIAN.

Possesses greater natural advantages than our own, but there are portions of the great West, especially in the mountainous atmospheric influences prejudicial to the health of the people. In some degree, as a result of residence. Heavy rainfalls and overflows of great rivers, which bring down to the rays of the sun, these huge malarial clouds, have there also the inhabitants are periodically obliged to use some medicinal safeguard against the scourge, the most popular is Hestetter's Stomach Bitters, a preventive that has over a third of a century afforded reliable protection to those whom experience in the fulfillment of ordinary remedies for fever and ague, has taught to use. Whether intermittent fevers are conquered or averted by the superb anti-periodic and fortifying medicine as they are by no other preparation in use. Use it, and abandon impure local bitters.

WOMEN SUFFRAGE AND EGGS.

Disgraceful Proceeding at a Wisconsin School Election.

Special by THE UNITED PRESS.

ELPASO, Tex., July 12.—It is learned this morning that the fight at Yesita between two rival political factories yesterday which resulted in six men and seven horses being killed, originated in this way: Benigno Alderte, mayor of Yesita has charge of a canal, and had a couple of men clearing it out, when Goel, one of the leaders of the posse of armed men to drive Alderte's men from their work, Goel claimed that he was mayor and put his own men to work and refused to discontinue when ordered to, by Alderte to do so. The mayor then procured a warrant for the arrest of Goel and placed him under a peace bond, and deter him from further interference with Alderte.

WHEN BOTTEN EGGS GAVE OUT

Special by THE ASTORIAN.

BETTERVIEW, Wis., July 12.—County Supt. C. R. Bower was pelted with rotten eggs at the polls to-day. He was active in getting the women of this district out to vote for a new school building and longer terms. They were paralyzed with astonishment at the sight of women actually voting, and their anger knew no bounds when it was found that the men had won the point. They were only prevented from demolishing the ballot boxes and destroying the record of election by the prompt action of a few cool headed men. When the supply of eggs was out affairs became more quiet.

THE DREADFUL RESULT.

Special by THE ASTORIAN.

CHICAGO, July 12.—This morning the best information attainable placed the number of dead and injured as the result of the explosion on the steamer *Tioga* last night at forty-five, at least fifteen are known to be dead. Daylight revealed how terrible was the force which wrecked the powerful steamer. The entire after part of the boat was a mass of charred timbers and distorted iron piled in two huge masses. One directly in the steerage, the other around the smokestack. The vessel had settled till her keel rested in the soft mud of the river bottom. Over the main deck the water flowed to the depth of a foot. The surface of the water was covered one inch deep with a dark green greasy oil.

ONCE RICH AND POWERFUL.

Special by THE ASTORIAN.

SPRINGFIELD, July 12.—Wm. N. Whitney, the manufacturer of repeaters, whose shops are the largest in the United States, but now deserted, is half crazed by the loss of his millions. His mental troubles have been augmented by the death of his only daughter. He would not let the emeralds touch the body. He had a coffin made plainly at his own shop, and was prevented at the last moment from hauling the body to the grave in a dray. Whitney is a giant in stature and physical strength and had built up a tremendous business. He was the builder and owner of the East street shops, employing over 3,000 men. Poor financial management ruined him, and now his mind is shattered by grief.

THE YELETA EMBLEM.

Special by THE ASTORIAN.

EL PASO, Tex., July 12.—The night at Yelita terminated in the peaceful surrender at daylight, to the sheriff's posse. Goel, who resisted arrest, cannot be found; sixteen men have been arrested and brought here to the county jail. It is not clear whether this surveying move is purely for the Southern Pacific or for the Oregon and Narrow Gauge which Huntington brought from the Southern owners while he was in the Pacific. His present terminus is Coburg near Eugene City only about 75 miles above Roseburg and its extension by this possible route indicates that he will make it a valuable piece of railroad property.

Will Be Made a School Ship.

Special by THE ASTORIAN.

New York, July 12.—The ship *Monogahela* recently from San Francisco, is about to undergo transformation into a school ship. She has completely discharged the stores brought from Mare island at the Brooklyn navy yard, and will go to Portsmouth next week where the necessary changes will be made.

Smallpox on Board.

Special by THE ASTORIAN.

New York, July 12.—The steamship *Island*
