MURDERED AND ROBBED.

His Head Cut Open With an Iron Bar.

Special to THE ASTORIAN.]

MARSHFIELD, Cal., July 16.—Gen. Ball, manager of Ball's Soda factory in this city, was murdered about midnight last night in a stable at the rear of the workshop. The body was placed in a doorway, which connects the stable with the factory, covered with straw, and set on fire, for the purpose of covering the crime. The fire was extinguished before much damage was done to the building.

The doctor who examined the remains found four or five large cuts about the head. The deed was done with a heavy iron bar, about three feet long, which was laying near the body, covered with blood.

The police positivly say that robbery was the object of the crime, as a gold watch the deceased carried was missing, with other jewelry. The safe was also robbed of its contents, but it is not known how much was taken. The deceased was a middle-aged man, unmarried, well-known in this country.

The robber is supposed to be a colored man, who has been about the city, and who has disappeared. If he had been captured last night, he would have surely been lynched.

More Coal Arriving in San Fran-

Special to THE ASTORIAN.]

SAN FRANCISCO, July 16.—The steamer *Umatilla* arrived in port last night, from Victoria and Puget sound ports. It was expected that this steamer would bring some news in regard to the colliers strike, at Wellington, but this far nothing has been learned. The reporter called at Dunsman's office this morning, but could obtain no information on the subject. The *Umatilla* brought down considerable coal.

The *Conqueror* arrived from Seattle, with a cargo of coal this morning, and commenced discharging immediately. Merchants are anxiously waiting for the result of the strike as it will have considerable influence on the market here.

ANOTHER CYCLONE IN MINNESOTA.

MINNEAPOLIS, July 16.—It is reported that a cyclone struck the town of Stillwater this morning. The station and powder house and dwellings seemed to follow, and the work of destruction had only just commenced. I stood rooted to the ground. I had an idea, of course, what had occurred, but I could not tell what it was. I knew many lives were going to be lost, but I was powerless to lend assistance.

Then dense volumes of flame and smoke came pouring from the doors and windows of the cartridge factory, and I saw men and children tearing at each other, in frantic endeavor to escape. The explosion and the fire at the cartridge house, seemed to be simultaneous. The building did not catch fire in the ordinary way, but the flame seemed to penetrate the doors and windows from all sides. I saw a number come out, but some certainly perished in the flames."

NUMEROUS WASHOUTS.

Damage to Railroads in Penn-  
sylvania.

Special to THE ASTORIAN.]

PRINCETON, Pa., July 16.—Several sections of roadbed were washed away by the cyclone, which struck the Wheeling division of the Baltimore & Ohio railroad, about 11 o'clock to day. The most serious damage occurred between Whitehall and Greenville stations, distant ten miles. In this distance are washouts at intervals of about half a mile. Several bridges are washed away. That over Peer's creek, about 100 yards long, is a total wreck. The damage will amount to thousands of dollars. Traffic over divisions will be suspended for several days.

A report has reached this city, that the McKeeps and Belle Vernon had suffered damage of over \$100,000 from washouts. It is said that about four miles of tracks and bridges have been swept away by last night's storm.
