Special to THE ASTORIAN.
ST. LOUIS, Mo., July 24.—A circular of an inflammatory nature has made its appearance on the streets and been sent to the newspaper offices of the city by the author, Dr. Henry Schanz, the dentist, who also made himself notorious by the circular he issued. "Citizens, arouse; country, arouse; the country is in danger. The people are asked to write letters to the senate before it is too late, or there may be the cry of 'To arms, and the streets will be wet with blood. Never before in the history of these states has there been greater danger to the liberties of the people than at this moment," states the circular, and concludes with a request for the reader to pursue the federal election bill.

Special to THE ASTORIAN.
NEW YORK, July 24.—The board of health of this city has detected large shipments of a new baking powder from Europe, which has been analyzed and found to contain oxalic acid in deadly quantities, instead of yeast. A ship load of such goods is now on the way here. It is reckoned that two teaspoonfuls of the powder contained several grains of oxalic acid, which is a fatal dose. Large quantities have been sold here.

INDIAN TROUBLES.

Sensible Ground by the Indians.

Special to THE ASTORIAN.
HELIXA, Mont., July 24.—A couple of weeks ago a white man killed a flathead Indian in Missoula county, and was not caught or punished. This incensed the Indians, and in retaliation an Indian a few days ago killed a white man, and the officers called upon the commandant at Fort Missoula to arrest the Indian, who was known, and Company A of the 25th Infantry was sent after the murderer. Arriving on the reservation, the flathead chief met the troops, pointed out the Indian murderer, and told the officer he could not have him, that the troops had no right on the reservation, and if they attempted to arrest the Indian there would be a fight. The troops returned and new orders were immediately sent back by Commissioner Morgan for Roman to proceed to the scene of the trouble, and use his best efforts to arrest a criminal also to wire report. Roman left for the scene of trouble with an interpreter.

His Sufferings Ended at Last.

Special to THE ASTORIAN.
COLUMBUS, Ohio, July 24.—Vance Sadley, the unfortunate victim of the mad dog's bite, who created such a panic on the train, yesterday applied to the hospital here and they refused to take him in, and his brothers started to-day to take him back to his home in London. At the depot, while waiting for the train, he was taken with a horrible spasm, and before medical aid could be summoned he died.

AT THE NATIONAL CAPITAL.

A Bill to Regulate the Value of Gold and Silver.

VIEWING THE NATIONAL GUARD.

Special to THE UNITED PRESS.

WASHINGTON, July 24.—In the senate this morning Morgan introduced a bill to fix the limit of value and provide for the free coinage of silver, which was referred to the committee on finance. The bill recites that the market value of silver bullion is rapidly approaching the value of gold, on the standard of relation fixed by the laws of the United States, and that there are no provisions of law for the coinage of standard silver dollars, or the purchase of silver bullion by the government, when the value of silver bullion exceeds one dollar for 37.25 grains of pure silver. It therefore provides that the unit of value in the United States shall be a dollar of 412.5 grains of standard silver, or 258 grains of gold, and that these coins shall be legal tender for all debts, public and private, and that any owner of silver or gold bullion may deposit at any mint, to be formed into dollars or bars for his benefit without charge.

A Visit to Mount Gretna.

WASHINGTON, July 24.—President Harrison, accompanied by Secretary Proctor, Attorney General Miller, Postmaster General Wammamaker, General Schofield, Colonel Ernst and Captain Taylor, left this morning to visit the encampment of the Pennsylvania National Guards at Mount Gretna. THE SILVER QUESTION.

Strong Statements From Mr. Delmar.

Special to THE ASTORIAN.

CHICAGO, July 24.—The Times prints a column interview with Alexander Delmar, who stopped in the city to-day, on his way from California to London, where he goes to attend the National Conference of the Bimetallist League, which begins with the following statement: "I deliberately predict a severe panic, far worse than that which swept over the country in 1873, unless there is some further legislation on the silver question. It will come about the time of the World's Fair, and will end in the most disastrous panic, unless, as I remarked, further legislation to increase the monetary circulation is had in the meanwhile, money was never so high as it is to-day, and it is daily becoming higher. Trade is suffering and will suffer more unless relief is had. A monetary stricture is almost upon us, and will be hastened by the Sherman bill. The bill is a gold bill in disguise, as it provides that the government shall buy at market value, all the silver bullion. It will exactly prohibit the very thing which it contemplates doing."

Overland Steamers.

Special to THE ASTORIAN.

Red Wing, Minn., July 24.—The government inspectors have secured the names of 214 persons who were on board the ill-fated steamer *Soring*, which was wrecked in the storm on lake Pekin. The steamer and barge were allowed by law to carry only 175 persons, and the penalty for violation of the law is very severe.

GUATEMALA INTERFERING.

Blaine's Course in the Behring Sea Seizures Criticized.

THE "EGYPT'S" CREW AT DOVER.

Special to THE UNITED PRESS.

MONTREAL, Que., July 24.—Additional advices from the steamer *Idaho*, of the Dominion line, ashore at South Point, Antiochi, are to the effect that she will prove a total wreck. The ship made no water when she first struck, and it was thought that by throwing over part of the cargo she might get off.

Dispatches were consequently sent to Fox bay, Heath point and South-west point, Antiochi, for wrecking schooners. Three vessels started at once for the scene. A heavy gale sprang up, and as a heavy sea was breaking on the steamer, it is not thought possible to save her. The *Idaho* was launched last fall, and the vessel of 4,000 tons. She sailed from this port on Monday for Avon, at the mouth of the docks, with a cargo of produce.

SAFE AT LAST.

The "Egypt's" Crew Landed at Dover.

Special to THE ASTORIAN.

LONDON, July 24.—The oil tank steamer *Manhattan*, which sighted the National line, line of the steamer *Egypt* on fire in latitude 40, 28 north, longitude 38 west, on the 15th inst., arrived off Dover to-day and landed the captain, crew and cutlemen of the burned steamer.

The captain of the *Manhattan* reports that on sighting the burning steamer she was all ablaze, and as his vessel was loaded with oil, he was afraid to go near her. Boats were lowered, however, and all the men from the *Egypt* were safely transferred to the *Manhattan*. The captain of the latter steamer, who was formerly an officer of the National line, then informed the rescued men through their captain, that he had only rations on board for forty of them.

The situation was then discussed, whether it was advisable to make for the Azores, which were only 250 miles distant, or proceed to Dover, and it was finally decided to proceed to Dover.

Spinal Weakness.

Henry J. Gallagher, 56 Pine street, N. Y., writes:

"Having been troubled with pains in back and chest during the last winter I was compelled to remain at home unable to attend to business, until I was advised by a friend to try one of ALLCOCK'S PINKETTS. After applying one to my chest and one to my back, in three hours I found relief which I had not got in over three months. I cheerfully recommend them to persons having spinal weakness and lung trouble."

THE DANGERS SHOWING UP.

The Fourth Vessel in Four Days Ashore in the Straits.

HALF OF CHINA COMING.

Special to THE UNITED PRESS.

PORT TOWNSEND, Wash., July 24.—An unknown barkentine is ashore, four miles south of Cape Flattery, on the rocks, in a dangerous position. The bark *Detroit*, from San Francisco, passed the vessel yesterday, and was unable to ascertain whether she was loaded or light.

She appeared to have been abandoned and was listing considerably towards shore. There have been heavy fogs and strong winds off the cape several days, and unless definite news is brought up by some vessel, it will be ten days before the identity of the barkentine can be ascertained. This makes the fourth vessel gone ashore in the straits of San Juan Fica within the last four days.

BETTER TAKE THEM FROM THE UNITED STATES.

Special to THE ASTORIAN.

SAN FRANCISCO, July 24.—A short time ago an account was published regarding the departure of Lyman I. Mowry, an attorney of this city, for Mexico, in connection with a proposition to place within the Mexican territory 8,000 Chinese, who were to be used for the building of a railroad at Tehuantepec. The statement was made that upon the arrival of Mowry in this city he would depart at once for China, to carry out the negotiations he had entered into for furnishing the necessary laborers. Mowry returned home to-day, and was interviewed. He stated that he expected to leave this city on the next steamer for China, which sails on the 31st, but it was probable that he might be detained until the sailing of the first steamer in August. "The number of Chinese," said he, "that will be placed in Mexico to perform the contemplated railroad work will be 8,000. I shall charter steamers to bring them over at different times, and they will be placed at work as rapidly as possible. I do not fear any trouble whatever being raised about landing Chinese in Mexico. There is not the slightest objection to the deposit of any of the Chinese brought over anywhere near the boundary line of the United States. On the contrary, they will be taken direct to Tehuantepec, which is the far end of the boundary line. It would be a difficult matter for them to reach the United States."

DEAD BODY FOUND.

Special to THE ASTORIAN.

A Seattle man committed suicide, according to reports from the coast, July 24. The man found dead to-day, on school section 16, near the disjunct mining claim, half a mile from the city limits, was found by county commissioner Johns. The man had committed suicide with morphine, two boxes of which had contained the drug being found beside the body, which was in a terrible state of decomposition. No inquest was held, the coroner deeming one unnecessary.

Special to THE ASTORIAN.

SAN FRANCISCO, July 24.—The Union Pacific announces a changed time table, going into effect immediately, which will shorten time in a remarkable degree between San Francisco and eastern points, the change chiefly affecting second class travel. According to the new arrangement it will now take only three and a half days to make the trip. From San Francisco to Chicago, and five days to New York. The special purpose of the Union Pacific in making the change, is to outdo the efforts of the Atlantic and Pacific people, who have lately made a reduction in time necessary for trips east over their route.

ON THE BEACH.

The Bark "Savona" and Her Sickly Crew on Dungeness.

ONE OF THE MATES IS INSANE.

Special to THE UNITED PRESS.

PORT TOWNSEND, July 24.—The Chilean bark *Savona* of Iquique, Chile, which went ashore near Dogers' point, four miles West of Dungeness, will probably be a total wreck. Her port side lies in shore and the keel is fast embedded in the sand. Heavy seas from the ocean and a strong westerly wind is driving the vessel hard ashore. The *Time's* correspondent was the first to visit the scene of the disaster on the tug *Tacoma* last evening, which went down to render assistance. Heavy seas and a strong wind prevented the *Tacoma* from being of any service, as it was impossible to launch boats or get a tow line aboard the *Savona*.

The *Tacoma* went into Dungeness and captain Bailey of the tug with your correspondent, walked four miles to the wreck and found captain Kruger and sixteen of the crew camped on the beach watching their vessel slowly going to pieces.

The vessel went ashore about 2 o'clock yesterday morning during a heavy fog and strong westerly winds. The officers and crew abandoned the vessel without their effects, taking enough provisions to last them while they remained near the vessel.

The second mate of the vessel became insane about a month ago, and since the wreck has become worse, and is roaming around Dungeness in the woods, bewailing his misfortunes.

The chief of the crew has been ill for some time and was in bed when the vessel went ashore. His mates removed him from the ship and made a bed on the beach for him. It is thought by his mates, that he will not live over twenty-four hours. Both officers being disabled, the captain has experienced considerable hardship in navigating the vessel. The crew consists of Germans and Chileans.

The *Savona* is sixty days out from Valparaiso, chartered by Balfour, Guthrie & Co., of Tacoma, to unload lumber. The vessel is situated so that considerable wreckage can be saved if the weather is moderate. When he left the vessel last night at 8 o'clock, seas were heaving against her and she began to break. Her rudder was gone. The tug *Tacoma* left for the wreck this morning and if the weather is moderated and the vessel stands an effort will be made to tow her off to-day.

Special to THE UNITED PRESS.

The amount of track washed out covers altogether a distance of twenty miles, from the forks of the creek to Smith hill, and fourteen miles from Golden to Floyd hill.
