

The Astorian

VOL. XXXV, NO. 47.

ASTORIA, OREGON, SUNDAY, AUGUST 17, 1890.

PRICE FIVE CENTS

TELEGRAPHIC SUMMARY.

A Synopsis of the Latest and Important Happenings.

ELECTRIC FLASHES CONDENSED.

An Account of Various Interesting Occurrences at Home and in Foreign Climes.

Raw sugar is advancing.
J. B. French, of Portland, arrested for theft.

The Alaska salmon pack is 35 per cent. short.

Five Italians were dynamited in San Andrea.

Mormons of Albuquerque have decided to buffalo in Arizona.

East Buffalo freight conductors and switchmen have struck.

The anti-lottery bill is ordered up for immediate consideration.

The charge of cruelty against Captain Oliver has been dismissed.

The Wellington miners, charged with intimidation, have been committed.

There is a \$100,000 suit against the P. C. and O. and S. Steamship companies.

Emperor William's visit to Russia is watched with interest in political circles.

Eastern molders refuse to work for the San Francisco Foundrymen's association.

It is believed that the Great Northern will build to San Francisco from Butte, Mont.

Hawley's amendment to the river and harbor bill was rejected and Frye's amendment was laid on the table.

President Ezeta is confident, and his people will resist foreign interference.

Grand master Powderly says there will be decided action taken by the executive board in regard to the N. W. York Central strike.

Judge Beach has issued an order to show cause why an injunction should not be issued. An injunction is wanted against the Central Trust Co., C. P. Huntington and others to restrain the issue of \$10,000,000 of stock.

AN ORDER ISSUED

To Restrain the Issue of \$10,000,000 Worth of Stock.

Special to THE ASTORIAN.

NEW YORK, Aug. 16.—Judge Beach of the supreme court, on the application of M. Gersheim & Co., has issued an order to show cause why an injunction should not be issued against the Central Trust Co., C. P. Huntington, the Southern Pacific Co., and others to restrain the issue of \$10,000,000 of stock of the re-organized Houston & Texas Central railroad company for the reason that an assessment of \$71.40 per share made by the Central Trust Co. was unauthorized and excessive. It is charged in the complaint that the assessment was unnecessarily exorbitant and was made prohibitory to compel the stock of the new company to be turned over to the Southern Pacific, controlled by Huntington, and that in the assessment is improperly included alleged claims of Huntington, and that the assessment is in amount \$5,000,000. The assessment was made after Gersheim & Co. succeeded in the suit against the Central Trust Co., in vacating an assessment of 75 per cent. made last August. The order is returnable on the 22nd of this month.

THE STRIKE IS GROWING.

Likely to Extend All Over the Vanderbilt Lines.

Special to THE ASTORIAN.

BUFFALO, N. Y., Aug. 16.—The action of the switchmen gives a new phase to the Central strike. It has now spread beyond the Knights of Labor. The men who went out this morning are members of the Switchmen's Mutual Aid association, a national organization extending all over the country. It has a membership of about 800 in this city. Comparatively few switchmen are in the Knights of Labor here. It was grand master Sweeney, of the switchmen's organization, who ordered this morning's strike. He arrived here last night. He said that the strike is likely to extend all over the Vanderbilt system if the trouble here is not speedily settled, and it certainly will spread to other lines if the men do not unite with the switchmen handle Central or West Shore roads.

Grand Master Powderly Speaks.

Special to THE ASTORIAN.

NEW YORK, Aug. 16.—Powderly, to a United Press reporter to-day, said: "I do not know whether we shall call on vice-president Webb, of the New York Central, this afternoon or not. The executive board of Knights of Labor and local strike leaders has been in session all the morning, but no definite action has been decided on the conference will be continued this afternoon and some decided action will be taken." The reporter asked if E. J. Lee had been deposed as master workman of District assembly No. 246, and was told he had not.

Suit for Divorce.

Special to THE ASTORIAN.

NEW YORK, Aug. 16.—Mrs. Ida J. Dixie has instituted suit for a limited divorce from Henry D. Dixie, comedian, on the ground of neglect and non-support. The couple were married June 2, 1878, and have two children. The complaint asks for separation and a suitable allowance for herself and children.

ADVICE TO SUFFERERS.

Mrs. Winslow's Sore Throat Syrup should always be used for children's coughing. It soothes the throat, softens the mucus, and relieves the pain. It is the best remedy for croup, whooping cough, and all other throat troubles. It is sold in bottles of 25 cents and 50 cents.

MORMONS IN CONFERENCE.

They Will Buy Land and Colonize in Arizona.

Special to THE ASTORIAN.

ALBUQUERQUE, N. M., Aug. 16.—A delegation of prominent Mormons, headed by George Q. Cannon, has been here for the past twenty-four hours from Salt Lake in conference with several Mormon elders from Arizona. While the conference here was held with closed doors, it is understood that they agreed to purchase tracts of land in Arizona and to establish colonies. Arizona now has a Mormon population of 10,000, and they control the politics in several counties. There is no question but that polygamy is practiced openly in the territory. The Salt Lake delegation left this afternoon for San Luis valley, Colorado, where a conference of Mormons on a big scale will be held to-morrow and Monday.

Sugar Advancing.

Special to THE ASTORIAN.

NEW YORK, Aug. 16.—Different grades of raw sugar advanced one-eighth of a cent; raws, one-sixteenth higher. Buyers of raws find it necessary to pay the advance because holders are encouraged to hold for better prices.

PRESIDENT HARRISON SNUBBED.

Admiral Gherardi of the "Baltimore" Performs the Act.

HARRISON UPHOLDS THE PRESS.

Special to THE UNITED PRESS.

NEW YORK, Aug. 16.—A Boston special says: President Harrison got a clear and unmistakable snub Tuesday from Admiral Gherardi, although the facts did not come to light until to-day. Governor Brackett went down to the harbor on the revenue cutter *Gallatin* to meet the presidential party on the *Baltimore*. With the governor were Mrs. McKee, collector Beard, Adjutant General Dalton, Mayor Hart, Arthur Lovell and Albert E. Leon. The two last named are political editors on the *Boston Journal* (Republican) and *Boston Globe* (Democratic), respectively, but were present on this occasion as special guests of the government.

They met the cruiser off Boston light and signalled them. The *Gallatin* had on board the governor and friends. The *Baltimore* stopped and a gig pulled up to the *Gallatin* with the governor and party. As the boat was made fast, Admiral Gherardi appeared, and in accordance with naval usage, inquired the names of guests. Collector Beard announced the list, adding to the names of the last two the papers with which they were personal guests of the governor.

"All can come aboard except the last two," shouted down the admiral. The governor reddened at the remark, and was about to reply when President Harrison, who was standing behind the admiral, said, "His all right boys, come up."

"Reassured, the party were about to disembark, when Admiral Gherardi, stepping out on the gangway said emphatically: "No, those men shall not come on board."

The president looked at Admiral Gherardi, but said nothing. Lovell and Leon insisted on withdrawing, and the rest of the party went up the gangway, and so the matter ended for the weekly meeting.

Admiral Walker was shifted to-day and Gherardi may hear something drop soon.

Further Strikes Reported.

Special to THE ASTORIAN.

NEW YORK, Aug. 16.—Vice president Webb, of the New York Central, received a dispatch from East Boston this morning which stated that the freight conductors and switchmen at that point struck this morning.

Paper Mill Burned.

Special to THE ASTORIAN.

APPLETON, WIS., Aug. 16.—The machine paper mill of the Patton Paper Co. was destroyed by fire this afternoon. Loss, \$150,000; insurance, \$75,000. Several men are thrown out of employment.

Rescue Club.

Special to THE ASTORIAN.

NEW YORK, Aug. 16.—The program of the rescue club was held at Rescuer hall on next Saturday and Sunday evenings, and a motion was duly passed that Col. Woodford be invited to come and speak at the opera house on Saturday night and at Rescuer hall on Sunday afternoon. Rev. F. O. Weeks, Mrs. W. W. Fisher and Mrs. Leinenweber, were appointed a committee to make arrangements to receive Col. Woodford. Mrs. K. Osborne, Mrs. Erwin and Dr. O. B. Estes were appointed a committee on program for next Saturday night. After the signing of the p/e the meeting dispersed.

Happy Hooligans.

Wm. Timmons, postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine; made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c a bottle, at J. W. Conn's Drug Store."

Bucklen's Arnica Salve.

THE BEST SALVE IN THE WORLD FOR Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. W. Conn.

THE NATIONAL CAPITOL.

A Scheme to Connect North and South America By Rail.

OBROSS THE ANDES INTO OHLLI.

A Large Proportion of Stock Has Already Been Subscribed by a Wealthy Corporation.

Special to THE UNITED PRESS.

WASHINGTON, Aug. 16.—One of the continental projects which has taken possession of Secretary Blaine's brilliant imagination is that of a continuous line of railway connecting North and South America. Readers will recollect an interview published last winter with a gentleman who had such a plan under consideration. He broadly stated that the plan to connect Buenos Ayres and New York by rail proposed to utilize lines already constructed wherever possible, whether owned by any of the various governments on which they ran, or by private corporations.

Starting from Buenos Ayres on a road already built far into the northwestern part of the Argentine Republic, it is proposed to cross the Andes through a pass into Chile; thence proceed northward to Peru, Ecuador and Colombia to the Isthmus, cross Central America from there to the City of Mexico. Connecting lines from thence to New York being already in existence, he anticipated no further trouble when the capital of the Montezuma road was reached.

Colonel Ropes, of New York, will soon leave for the City of Mexico, where he will present letters to president Diaz from secretary Blaine looking toward beginning this vast railway project at once. Ropes represents a New York syndicate which has been formed for the purpose of building the line. A large proportion of the stock, it is said, has already been subscribed by the Holland Trust company. Amsterdam, a wealthy and powerful corporation of the Netherlands. Colonel Ropes is a native of Salem, Mass., and a multi-millionaire.

SUPERINTENDENT PORTER TELLS WHY CENSUS FIGURES ARE NOT MADE PUBLIC.

Special to THE ASTORIAN.

WASHINGTON, Aug. 16.—"People seem wonderfully interested to know the population of this or that state," said superintendent Porter to-day. "We cannot of course give anything for the reason that as soon as a town reports its population the claim is at once made that the enumerators have been inefficient and the figures should be much larger; consequently we desire to keep everything back till a revised count can be made. It is not our policy to give piecemeal information which might never be thorough with the work because of the number of recants that would be demanded everywhere." Superintendent Porter, who had just returned from a tour of inspection of the census takers, said that he had received anything from the Pacific coast that could be deemed reliable as to the population of cities and towns there.

IN THE SENATE.

Amendment to the River and Harbor Bill Rejected.

Special to THE ASTORIAN.

WASHINGTON, Aug. 16.—In the senate the consideration of the river and harbor bill was resumed this morning, the pending question being the amendment proposed by Hawley. After a long debate the amendment was rejected, and the amendment offered yesterday by Frye regarding bridges was laid on the table with the understanding that the whole question would be determined by a conference committee. Query asked the unanimous consent to refer a resolution to the committee on the Pacific coast to a vote on the tariff bill outside 30th of August, and limit other legislation to the appropriation bill, public buildings, conference reports, etc., but Edmunds objected, and the resolution was not received.

Anti-Lottery Bill Taken Up.

Special to THE ASTORIAN.

WASHINGTON, Aug. 16.—In the house to-day the committee on rules reported a resolution for the immediate consideration of the anti-lottery bill, previously ordered to be considered at 4 o'clock yesterday. The resolution was adopted, and the anti-lottery bill was taken up. The committee on postoffice and post roads this morning reported a resolution calling for an application for a bank.

On the Retired List.

Special to THE ASTORIAN.

WASHINGTON, Aug. 16.—Brigadier-General John Moore-Sargeon-General, was placed on the retired list to-day.

The Best External Remedy.

S. J. Eddell, Haley's Marion County, Alabama, writes: "ALCOCK'S PODOBASTERS are a most invaluable household remedy. They do all that is claimed for them. I have used them every year, and every day I hear of their curing coughs and colds, diseases of the spine, liver and gall bladder, and all other ailments that can be reached by an external application that they do not cure." Beware of imitations, and do not be deceived by misrepresentation. Ask for ALCOCK'S Ointment and BUNION SURELIEF effect quick and certain relief.

Deadly Retaliation.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—Chas. Beale, a non-union molder, was attacked by strikers to-night and badly cut about the head. He fired two shots at his assailants and wounded one of them in the leg. Before the police arrived the injured man was taken away by his friends.

The Manzanita's Repairs.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—The light-house tender *Manzanita* has been undergoing extensive repairs, and will shortly sail for the north to carry supplies to lighthouse stations in the Thirteenth district.

Indignant Chinaman.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—The Chinese whose telephones have been confiscated are indignant and some of the wealthier among them threaten to contest the legality of the confiscation in the courts.

All the patent medicines advertised in this paper, together with the choicest perfumery, and toilet articles etc., can be bought at the lowest prices at W. Conn's drug store, opposite Occident hotel, Astoria.

THE SALMON PACK.

A Marked Decrease in the Alaska Canneries.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—A prominent shipping man and salmon packer said yesterday that despite rumors and statements to the contrary, the salmon pack in Alaska and elsewhere was going to be far lighter than last season. The pack, he said, at Prince William's sound and Cook's inlet, which usually average well, are far behind. At Cook's inlet, where the pack is usually from 25,000 to 30,000 cases, the returns this year will not be less than 15,000. At Karluk the pack of all the canneries will be about 35 per cent. less than last season. The main cause of the shortage is the bitterness of the winter.

He Stole a Watch.

Special to THE ASTORIAN.

PORTLAND, Aug. 16.—J. B. French, alias Frank Blenden, alias "Frenchy," a horse-breaker, was arrested yesterday on a charge of having robbed Dr. W. M. Marshall, a doctor, of a gold watch, valued at \$80 in money the preceding night. He was bound over in the sum of \$500.

GREAT NORTHERN RUMOR.

To Build a Line Into San Francisco From Montana.

IRON MOLDERS REFUSE WORK.

Special to THE UNITED PRESS.

SAN FRANCISCO, Aug. 16.—The election of new officers for the Minnesota railway at St. Paul yesterday, together with the fact that H. D. Minot, retiring president of the road, and F. C. Cragg, the road's former treasurer, and C. C. Gray, chief of the iron molders, have given rise to a rumor that the Great Northern railway company intends building to San Francisco and Great Canyon, via Boise City, Idaho, and Denver, and that they have asked several times as to whether or not their presence in this city had any connection with the proposed extension of the Great Northern into California, and they denied such is the case. Both insist that their visit is solely one of pleasure and rest. At the present time the Great Northern has a traffic arrangement with the Union and Southern Pacific people by which it has an agency here to look after its interests. By its traffic agreement it enjoys the privilege of through rates on all business it handles to and from this city, dividing the earnings therefrom with its connecting lines into this city. It has been making efforts right along to increase its California business and it is supposed Minot and Cragg came out here purposely for this reason and that they have been commissioned to make a report on the resources of the state, and the present and prospective volume of railway tonnage.

Refused Work Sent Them From San Francisco.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—President Valentine, of the Iron Molders' union, has received a private telegram from the International Brotherhood of Iron Molders in all parts of the east are now on the alert and will positively refuse to do work sent them by the foundrymen's association of San Francisco.

Big Damage Suit.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—A suit was brought yesterday by Anna M. and Adison F. Allen, of the Pacific Coast Steamship company and the Occidental and Oriental Steamship company et al to recover \$100,000 damages for the death of Alvin M. Pratt, son of Dr. Allen, who was drowned in the bay where the collision occurred between the steamers *City of Chester* and *Oceanic*, August 22, 1888.

Short in His Accounts.

Special to THE ASTORIAN.

OAKLAND, Aug. 16.—A report is in circulation this evening to the effect that a defalcation has been discovered in the accounts of the Oakland and Berkeley Rapid Transit Co. The directors have met and will examine the books of secretary Leland Gamble.

The Charge Was Dismissed.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—There was a plentiful lack of evidence against Charles Oberlin, of the *Louisiana*, charged with cruelty at sea, when his examination was held by the United States commissioner to-day, and the charge was dismissed. The case against mate Davis will be heard Monday.

On the Retired List.

Special to THE ASTORIAN.

SAN FRANCISCO, Aug. 16.—Chas. Beale, a non-union molder, was attacked by strikers to-night and badly cut about the head. He fired two shots at his assailants and wounded one of them in the leg. Before the police arrived the injured man was taken away by his friends.

REVIEW OF FASHIONS.

A Variety of Modes and Styles From Which to Select.

TO SUIT YOUR PURSE OR FANCY.

The Latest "Make-Ups" in Dresses, Gowns, Hats and Collars Are Briefly Described.

It would seem as if the subject would call forth a little more poetry and sentiment, that of naming the new colors for the present season, and they at least might be named for flowers, but not so. The new colors are aubergine or egg plant, a deep purple with black shades in it, mushroom color, a pinkish drab, prime, green squash, which is a pale and pretty green, which harmonizes well with sand color.

Yellowish green is called ripe cucumber, and so on through half the vegetable kingdom. Fris is seldom mentioned as giving name to a new color, and flower names are out of fashion. Even the heliotrope shades are called after egg plant, browns are "truffle" and yellow caros, and so on. It rather destroys the poetry, but as the French say, "the color is what we must admit that the colors are handsome."

The fancy for entirely plain clinging draperies has evidently not taken a very deep root, as the style was not unbecomingly to the majority to become general, and a happy medium has been discovered which permits each lady to adapt the new modes to her own physical requirements. Drapery is made and usually in flowing lines, and very graceful.

Princess dresses are taking a new lease of life, and very many home gowns are being made in this elegant and conservative requirements. Slight-trains are made which lie about a hand's breadth on the floor at the back. Nearly all home dresses are made so that the back of the skirt trains four or five inches. This adds dignity to the figure. Many ten gowns, and nearly all reception and evening dress have trains more or less long.

There is really nothing that one can call absolutely new this season, for there are standard materials, styles, and colors. French is becoming, light weight camel's hair and other woolen goods, and there is the usual variety of cotton and sheer dresses, as well as silks, the most of the difference being in the design of the patterns, and coloring.

Among the most serviceable of the dress goods for ordinary summer wear are the mohairs which are to be found in every quality and color. They are durable, do not wrinkle, do not fade and the dust finds no lodgment on their smooth surface, and this material has the quality of always looking handsome when properly made. It is well adapted for railroading, for mountain climbing and is excellent for teachers and others in like positions, besides all other women. It looks well trimmed with velvet.

There is a revival of bonnets, both English and French in white, black and colors. One gown recently shown imported for a pattern, had a plain skirt zoned in front and with straight back breasted, shirred closely at the top. These bonnets were bonnets at the bottom about eight inches deep. Across the foot of the front breadth was a pinked out rose fringing made of the hunting. The sleeves were made full shape with a narrow ruche, and the collar was made of ruche, and the left shoulder and met at the right side of the waist under a rosette of the same. This was made of English hunting which is stiff and does not vary, like cashmere, chevise, light weight camel's hair and other woolen goods, and there is the usual variety of cotton and sheer dresses, as well as silks, the most of the difference being in the design of the patterns, and coloring.
