It replaces constipation almost immediately with a natural easy habit, and is so mild that, unlike drastic purgatives, it can be taken indefinitely with perfect safety.

GRIMES' HOTEL, SEASIDE, On., Aug. 21.

EDITOR ASTORIAN:-Believing that you full well realize the fact that there is always two sides to every question. I humbly nak of you the privilege of replying to some of the very serious reflections that were cast on me in an article published in your paper of the 17th.

I cannot believe that a person fully understanding my situation would so wilfully misrepresent me and can only account for your correspondent's action on the grounds that he was misinformed as to the correct status of the case.

Over nineteen years ago I located on this place. It was a dismal and dreary locality and its almost utter isclation from the outside world rendered it anything but a pleasant place to spend an existence, but firm in the a popular summer resort, I with my son worked and waited. In regard to the bridge across the Necanicum we built it for our own the gun shown me as one I sold to a went to Portland on the Telephone party last Friday. The party I sold the gun to had two fingers bandaged Louis H. Peterson and wife of the privileges of our grounds and of our guests and those who pay for the privileges of our grounds and beach. The privilege of using our property and premises is either worth something or nothing. If there is n value attached to it, we think we are C. E. Every day in the week the railroad brings scores of visitors, and on Sunday hundreds, who stroll through our pri-vate grounds, bathe on the beach, bought and paid for by us and taxed to us. I do not claim to be a public benefactor. I gave \$15,000 to bring the railroad down here to enable peo ple to reach the beach, but I gave the money merely as an investment, think ing it would be more convenient for
