**ONE STEP AT A TIME.**

The man who expects to jump from the lowest depths of poverty to the heights of affluence, or to go at one bound from the veil of obscurity to the very summit of renown, may as well hope to make one leap from earth to heaven whenever he wills to do so. Step by step, round by round must we slowly climb the hill of riches, the peak of fame, or reach the highest position in life which the good can possibly attain.

Every kind word uttered, every noble deed performed, every act which shall lift up the head or cheer the heart of a worn or weary brother is a round in the ladder we are building, by which we may rise above the lowly earth, and its groveling, debasing ideas, to the topmost round which reaches the stars.

Brick upon brick, one at a time, the mason rears the lofty walls of the immense building, which when completed, towers far up towards the ethereal blue of heaven's own limitless canopy. So in life, one step at a time, we rise higher and higher, by the things that are under our feet, by all the grand victories where we have conquered over avarice and greed, by the pride we have broken down, by all the degrading passions we have overcome, and all the vanquished ills which are sure to be met with in the journey of life.

Remember this, young man or young woman, and seek not for success at a single bound, but be sure that every day you make some advance up the hill, and realize that as the slant of night lower around you and obscure a view of the lofty, etched, towards which you are journeying, that you are nearer to it than when the morning light of the new closing day just dawned upon you. Be brave, be honest, be vigilant, be faithful in every position you fill, and then you will go onward and upward, one step at a time.

AGREEMENT to the earnest request of the Chamber of Commerce and Board of Trade of Los Angeles, California, the order of the war department removing the headquarters of the department from that city to Santa Fe has been countermanded. This shows what can be accomplished by earnest effort and prompt action on the part of such organizations. Let the Astoria Chamber of Commerce show a similar activity, and some of their desired plans may be consummated.

MELANCHOLY and significant is the fact that the Union soldiers are dying now about as fast as they died during the war. The death-roll of the Grand Army of the Republic last year was 5,476, out of a membership of 454,562. This rate will grow larger in each succeeding year, of course, and the time is not far distant when the great majority of the veterans will be in their graves.

The dispatches now report that the Supreme Council of the Knights of Labor has refused to endorse the New York Central strike. One day the striking employes have won, the next the railway company is reported as having obtained the whip hand. For the sake of the traveling public, the employes and the railroad company it is to be hoped that the trouble will be settled soon.

LORENZO SAWYER, judge of the United States circuit court in San Francisco, has declared the ordinance, recently passed, which provided for the removal of the Chinese quarter outside of the city, to be invalid. The decision is no surprise, and is in keeping with a number of rulings made by the circuit judge, wherein the rights of the Mongolian are at stake.

THE women in Oakland, Cal., yesterday demanded to be registered as voters, because they desired to vote for Gen. John Bidwell, the Prohibition nominee for governor, but the stern, unrelenting deputy county clerk failed to acquiesce in the request of the ladies, and the fair ones will not have the pleasure of exercising the elective franchise this year.

The steel cruiser *Santa Barbara* has gone to Santa Barbara channel to make a trial trip. From reports of the vessel's work during runs made in San Francisco bay, there is little doubt but she will exceed the government requirement of nineteen knots an hour and for the glory of Pacific coast ship builders it is to be hoped she will.

**Lemons for Soap.**

Lemons are now used for soap in many countries where they grow. When, for instance, the men and women of the West Indies want to wash their hands, they squeeze the juice of a lemon briskly in water until they are clean. There is an acid in the lemon similar to that used in soap. And in countries where oranges grow in great plenty country gentlemen use the cheapest kind for blacking their boots. The orange is cut in two and the juicy side of one-half is rubbed on the soot of an iron pot and then on the boot. Then the boot is rubbed with a soft brush and a bright polish at once appears.

In the government of Podol, Russia, the peasants have no scruples about selling their children. Instances of a very revolting nature are reported in a Moscow daily.

**Dyspepsia**

Makes many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently yet efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and, by thus Sick Headache, cures the symptoms, cures the Headache, and refreshes the tired mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, painting, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla, and it did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.
