The Daily Astorian.

ASTORIA, OREGON:

SATURDAY ..... AUGUST 29, 1890

ANOTHER strike is ended, and peace and order are restored in the Chicago stock yards where the switchmen had been out for several days. The fewer strikes there are, the better it is for all concerned.

With the establishment of the free postal delivery, which is now assured, another milestone in the progress of this city is marked. By and by the railroad will be built and then Astoria will get in the front row of cities of the Northwest, and hurrah.

IT is highly complimentary to the postal system to have a representative of the British government sent to New York to endeavor to gain useful hints whereby their own postal system may be improved. But England is constantly improving from observations made in this country.

THE telegrams announce that Chinese are again using the underground railroad from British Columbia into the United States, and boast of the fact. Some time ago it was reported travel on this line had been stopped, but nobody believed it, and news from the front confirms the disbelief.

SOME people entertain queer ideas of love. A lieutenant in the Austrian army was troubled because his young ladylove was taken away by her parents. It affected his mind to such an extent, that as he could not marry her, life had no more charms for him, so he shot her through the head, then shot himself, and the lovers who could not be united in life were wedded in death.

WHITE-WINGED pence is reported to have spread her wings over San Salvador and Guatemala. This much desired state of affairs was brought about by United States Minister Mizner and he is to be congratulated, but the chances are that the treaty will be riddled by the bullets of revolutionists within a short time, as it is not in the nature of the inhabitants of those countries to be at peace for more than a week or two.

RAILWAY NOTES.

Railway building began in Japan twenty years ago. There are now 579 miles of line in operation.

A marine railway twenty-five miles in length, connecting the Gulf of St. Lawrence with the Bay of Fundy across the Isthmus of Chignecto, is in process of construction.

All the grades of the New York, Pennsylvania & Ohio, western division, are to be reduced to twenty-six feet to the mile. Some of the grades in this division are now forty-seven feet grade.

Siam, it is said, is feeling the impulse of the railway spirit, and is taking the preliminary steps for building several hundred miles of lines. Siam has a population of nearly 6,000,000 people and an area of about 280,500 square miles.

A railroad is to be built from Archangel to Vologda to unite the extreme habitable north of the Russian empire with the interior. The contractors are merchants of Vologda, who carry on a large business with the natives of Archangel.

The *Railway Age* says: The Atchison system is not only by 1,500 miles or more the greatest railway system in point of mileage in the world, but its lines lie in a greater number of geographical divisions of America than any other country—namely, in thirteen of the states and territories.

Chimneys, to be safe from fire and draw well, should not be less than sixteen inches square inside and built up from the cellar. Use good brick with clay, instead of mortar, up to the comb. Plaster it inside with clay mixed with salt. Top with the best brick, well wet and laid in cement. Do not let wood come too close to the brick, and don't let the stovepipe come nearer than eighteen inches to the ceiling.

"It is a fact," that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood, overcomes the tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.
