## THE VETERAN FIREMEN

### The Portland Delegation Received With Rousing Cheers.

### A RED LETTER DAY IN 'FRISCO.

### The Guests Saluted With the Airs "Hail to the Zion" and the "Star Spangled Banner."

Special to THE UNITED PRESS.  
SAN FRANCISCO, Sept. 5.—The veteran firemen had the honor of opening the Grand Native Sons' celebration this morning. Shortly after 10 o'clock they assembled in front of the Pioneer hall, and headed by the Second artillery of the Native Golden West band, marched down Market street to the Oregon dock to receive the veteran firemen from Portland, who arrived on the steamer Oregon. The "Vets" turned out sixty strong, with red shirts, white fire hats and white belts, and presented a very handsome appearance. As the Oregon neared the dock the veterans formed a company in front, and greeted their guests with rousing cheers, while the band saluted them with the airs, "Hail to the Zion," and "Star Spangled Banner." The Portland veterans responded in a similar manner, and were soon on the dock enjoying good old hand-shaking with their San Francisco friends.  
The visitors number sixty, and were dressed like the San Francisco association, with the exception of the fire caps and belts, which were black. They brought with them their old hand engine "Veteran," which was taken in charge by the San Francisco veterans, who gave the right of line in the procession to the visitors. The bodies, as they paraded through the lower portion of the city, made a fine show.  
The Portland veterans are commanded by President Robert Holman, chief; ex-Chief T. G. Young, of the Portland department; ex-Chief Joseph Welber, of Albany; ex-Chief John Holman, of Salem, and ex-Assistant Engineer M. M. Lucas, of Portland. The San Francisco veterans are making great preparations for a banquet to be given to them Saturday night.  
**The Weather Prophet.**  
Special to THE ASTORIAN.  
SAN FRANCISCO, Sept. 5.—For Oregon and Washington, fair weather in the western portion; local rains in the eastern portion; stationary temperature in the western portion; slightly cooler in the eastern portion; winds generally northerly.  
**Motion for Nonsuit.**  
Special to THE ASTORIAN.  
OAKLAND, Cal., Sept. 5.—Judge Elsworth this afternoon granted a motion for nonsuit in the \$50,000 damage suit of Frank Reme, for false imprisonment on account Reme's arrest for alleged attempt to abduct Florence Blythe.

## A HEAVY FAILURE.

### Over a Half Million Dollars Said to be Involved.

### Special to THE ASTORIAN.

CHICAGO, Sept. 5.—The failure of Sawyer, Wallace & Co., of New York, is a topic of much interest here. B. P. Hutchinson, a well-known commission merchant, says he knew for two weeks that the crash was coming. The principal interest of the failed firm in this market was pork. They have been carrying cost pork for about a year. They undertook first to run a deal in October pork, but that wound up disastrously, and they transferred it into January, and it is reported that their loss on the deal is not less than half a million.  
LONDON, Sept. 5.—Lucien Sawyer, who had charge of the business here of Sawyer, Wallace & Co., of New York, says: "The failure surprises me as much as it does others. It is true large losses have been sustained in both the home and foreign business conducted through the London house, but it is not true that my private speculations caused the disaster." The failure caused much excitement in commercial circles in London.

## ARRANGING FOR COMBAT.

### Marquis De Leville and a Reporter to the Parties.

### Special to THE ASTORIAN.

NEW YORK, Sept. 5.—A report cabled from London that Marquis De Leville and a reporter had arranged for a deadly combat, which was to take place at daybreak on Thursday morning, is the latest chapter in romance which has been furnished in installments to the public during the last decade. Mrs. Frank Leslie, on whose account the duel was to have taken place, was seen to-day in reference to the affair. She said: "I do not doubt a duel will be fought, and there is really no reason for apprehension on account of the marquis. He is one of the best shots in Europe, but I should feel dreadfully if anything befell the other man."  
**Important if True.**  
Special to THE ASTORIAN.  
NEW YORK, Sept. 5.—An evening paper publishes a secret petition which it states is being circulated among the stockholders of the Illinois Central railroad, urging them to rise in rebellion against the present management. The petition states that the company is practically on the verge of ruin through mismanagement.

## DESTRUCTIVE PRAIRIE FIRE.

### Horses Carcasses Used to Extinguish the Flames.

### Special to THE ASTORIAN.

DICKINSON, N. D., Sept. 5.—A wide spread prairie fire raged over hundreds of thousands of acres of land along the Little Missouri river ten days ago, about forty miles from the main line of the Northern Pacific railroad. The great cattle range was swept clear. The fire was put out by means of horses, which were killed and used as drags to extinguish the flames. The horses were split up the back and their carcasses dragged over the country by long ropes. Twelve hundred head of horses were stamped to the four winds.  
**In Town and Hamlet.**  
The seeds of intermittent and bilious remittent fever germinate and bear evil fruit. In populous wards of large cities, bad sewerage causes it, and in their suburbs stagnant pools to sinken jets breed it. There is at once a remedy and a means of prevention. Its name is Hostett's Stomach Bitters, which is without precedent, the most perfect antidote in existence to the malarial virus, fortified with this incomparable, saving specific, malarial fever may be encountered with absolute impunity. Disorders of the stomach, liver and bowels, begotten by malarial fever, or any other cause, succumb to the beneficent corrective name of, and rheumatic, kidney and bladder troubles, and surely removable by its use when it is given a persistent trial.

## A NAVY FOR HONOLULU

### A Loan of \$15,000,000 to be Made for the Purpose.

### THE ISLAND TO BE GUARDED

### A Prominent Merchant of Sydney Said to be Engineering the Scheme.

### Special to THE ASTORIAN.

SAN FRANCISCO, Sept. 5.—A. Hoffman, a prominent merchant of Sydney, and who has also large interests in Honolulu, was a passenger on the Australia to-day. He is one of Kalkanna's advisors, and is a very close friend of the present government. He, it is said, is bound for a tour around the world. He is accompanied by his wife and daughter, and his trip is ostensibly one of pleasure. The real object of his jaunt to Europe, however, is said to be for the purpose of obtaining a loan of \$15,000,000 for the King, who proposes, it is stated, to have two war vessels built to guard his interests on the islands, and to make some showing in the commercial world. This story is doubted by many, Spreckles being among the number, but at the same time, two days before sailing for Australia Kalkanna had Hoffman out on his yacht, and gave him a grand ball that night, at which the nobility and tone of the island were present. It is stated that the business was consummated on the yacht.

## ILLEGALLY ARRESTED.

### Special to THE ASTORIAN.

CHICAGO, Sept. 5.—C. C. Rodney, who was arrested here Monday on a telegram from Portland, Oregon, saying that he was an embezzler, swore out a warrant this morning for the arrest of Chief Detective Kipley and Detective Collins on a charge of false imprisonment. Rodney was brought before Judge Altgeld yesterday, who released him after seeing the police for arresting the man without a warrant. As soon as Rodney was released he was immediately arrested on a warrant sworn out by Detective Collins, charging him with being a fugitive from justice. He was brought before Judge Altgeld again this morning and released, the judge declaring that the police had no right to arrest Rodney on insufficient evidence. Rodney then swore out the warrant alluded to.

### Six Coaches Wrecked Without Loss of Life.

### Special to THE ASTORIAN.

ALBANY, N. Y., Sept. 5.—The second section of train No. 13, on the Central Hudson railroad was wrecked about three miles below Greenbush, between midnight and 1 A. M. Six sleepers were wrecked, but miraculous as it may seem, no one was killed. The injured list will foot up about seven, the most seriously injured being Mrs. Atkinson, of Trenton, who was badly injured on the back; Miss Garakan, of Brooklyn, had her head badly cut; Trainman Snespaugh had his back wrenched; others had their backs and limbs wrenched, but none of the cases are fatal. A single rail placed crosswise on the track; in front of the train, resulted in the disaster. Six coaches were turned bottom side up on the bottom of a fifteen-foot embankment, and three were twisted and wrenched beyond repair. The engine remained on the track.  
The executive board of the Knights of Labor is in consultation on the question of offering \$1,000 reward for the arrest of the perpetrators.

## THE BREWERS' TRUST.

### Probability That the Concern Will Come to Grief.

### Special to THE ASTORIAN.

SAN FRANCISCO, Sept. 5.—It is stated this evening that there is a probability that the Brewers' Trust will come to grief. Deposits were paid by the syndicate on all concerns purchased, but in most of the cases the remainder of the contract has not been fulfilled. This is particularly the case in regard to the Philadelphia brewery. A deposit of \$150,000 was paid to it, to bind the contract. Then \$500,000 was to have been paid on the 1st of July. Only \$500,000 on the 1st of August, and the balance on the 1st of September. These payments have not been made, and the whole contract is within an ace of being declared off. The syndicate, however, has been given until the 15th inst. in which to pay the whole of the purchase money. Should it fail the brewery will revert to Mrs. Wieland, and the \$150,000 deposit will be forfeited.

He thereupon left the meeting. Soudet, an anarchist who was waiting in the neighboring boulevard, followed Mermexil, heaping abuse upon him, and ended his trade by spitting in Mermexil's face. Several duels are expected as a result of the meeting.
