A LETTER FROM BEAR CREEK.

Some Interesting Items About a Valuable Section.

BEAR CREEK, Sept. 6, 1890.

EDITOR ASTORIAN:—I would like through the columns of your valuable paper to let other parts of the county know that there is such a place as Bear creek. Bear creek was a howling wilderness when the writer located here some seven or eight years ago. At that time there were six or seven settlers here, with no roads, no means of communication with Astoria except by skiff, or walk seven miles to Knappa to get a steamer.

When people began to see our location, our natural resources and advantages, they began to locate with us. Dame fortune favored us with actual settlers, not speculators. We now have a good wharf and warehouse at Svensen's landing, which belongs to the people. We are not tied to any system of wharfage, storage, primage nor shrinkage. We have a good wagon road about four miles south and west through the main settlement. The steamer *Eclipse* makes regular trips to our landing. We have a school house, the school district enumerating thirty-eight scholars; a voting precinct with about sixty-five voters, hence politicians begin to notice us.

Levi Knapp has erected a large store building, and is stocking it with everything usually kept in a country store. The old original log cabins are being rapidly replaced with nice substantial dwellings, which speak well for the productiveness of the soil and energy of the people. There is still room for a few more, and all who settle among us will receive a hearty welcome. We have the best soil, the best location, the most peaceable class of settlers, the healthiest children and prettiest girls to be found on the lower Columbia river, and all within nine miles of the sea port of Oregon.

BEAR CREEK.

Passengers from California.

The steamship *State of California*, Captain H. S. Ackley, sailed from San Francisco on Friday, and is due here this morning with the following passengers:

H. E. Smith, G. K. Smith, M. C. Wire, L. Armburst, R. S. Adams, D. E. Borthee, Mrs. T. H. Miller, Mrs. C. B. Clark, N. Berg and wife, C. Walborn and wife, W. Overbeer, J. N. Hastings, A. E. Gibbs, Mrs. Dr. Fletcher, J. L. Winner, W. C. Wise, Lee Shaner and wife, T. G. Dortee, Jos. Holmes, Harry Holmes, Fred Mannel, F. J. Miller, B. M. Burnett, Mrs. Bull, Jos. Mackey, M. Okey and wife, G. Greenberg, Frank Adams, Mrs. Cohen, Mrs. H. N. Rockwood, W. L. Laving, Mrs. A. R. Huntley, Nora Huntley, Miss M. E. Spencer, A. R. Ardola, M. J. Lyons, M. Reen, A. M. Jeffery, F. F. Alexander and wife.

LOCAL NOTES.

Hans P. Olsen, a native of Germany, was admitted to citizenship by the county court yesterday.

I. L. Osgood returned yesterday from a trip to his ranch on the Nehalem. He had a fine time hunting and fishing at his ranch as well as while on the road. He reports that the settlers of the upper Young's river section have been working the roads between the foot of Saddle mountain and Green mountain, and when he came away they were working on this side of Green mountain. They would probably finish the road to the top of the mountain last night. The people on the Klaskanine are going to work on the road in their district and altogether great progress has been made the last year in rendering the Young's river and Nehalem county accessible. One can start from Olney and drive in a cart to Young's river at the foot of Saddle mountain.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated a month by her family physician, but grew worse. He told her she was a *hopeless victim of consumption* and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use, and after taking ten bottles found herself sound and well, now does her housework and is as well as she ever was. Free trial bottles of this great Discovery at J. W. Conn's Drug Store, large bottles, 50c. and $1.

Experiments with steam life-boats have recently been made at Liverpool and Havre.

Englishmen rejoice that the proposed restoration of Westminister has been postponed.

Rheumatism Can Be Cured.

Rheumatism has baffled the skill of our best physicians, and to-day more men, women and children are suffering from this terrible disease than ever before. The opinion seems universal that it is incurable, but this a mistaken idea. Rheumatism can be permanently cured by the use of Hibbard's Rheumatic Syrup and Plasters.

MARINE NEWS AND NOTES.

The steam schooner *Lakme*, S. F. Graves, master, sailed for the Sound yesterday.

The American ship *Patrician* is lightering cargo at the Union Pacific wharf.

The steamer *Greyhound*, Captain Claude Troup, which left here Wednesday morning, arrived safely at Seattle Friday noon.

To-night will be the last trip of the *T. J. Potter* after which she will be overhauled and go to the Sound to run between Seattle and Victoria.

The *Gen. Canby* which has been undergoing a general overhauling will resume her trip to Fort Stevens and Ilwaco at 8 o'clock this morning.

The steamer *Willamette Chief* left for Portland yesterday afternoon with 4,450 cases of salmon for the east and one carload of lumber for Salt Lake.

The steamer *Danube*, Captain John R. Hill, sailed for Victoria yesterday afternoon, loaded with flour to be shipped to China by the Canadian steamship line.

Among the freight arriving on the steamship *Columbia* was a case of large mirrors consigned to Charles Heilborn. When opened one of the mirrors was shattered, and it is now a question of who stands the loss. Mr. Heilborn has put in a claim against the steamship company.

Captain Whitelaw, the veteran wrecker, is at San Francisco, looking after a new wrecking steamer which he is having built there. The new vessel is to be more than twice the size of the present *Whitelaw*, and will be fitted up with all the latest appliances for dealing with wrecked and disabled vessels. Captain Whitelaw believes there is a good field on the eastern coast, and also in Australia, for a properly fitted up wrecker, but as his interests are all centered in San Francisco, he does not care to embark in enterprises in those quarters. The *Alexander*, which is being fitted as a whaler, will carry pumping and hoisting gear, and can be used to advantage on wrecks of small vessels.

The Pacific Coast Steamship company is said to be contemplating a line between Portland and Sound ports. Upon return of the steamship *Geo. W. Elder* from Alaska she will go to Portland, and the fine, staunch steamship *Mexico* will take her place on the Alaska run. Major McLellan, Puget Sound superintendent of the company, stated that he had no idea of what they were about to do, or received no information in regard to their plans. All the news he received was about the *Elder* going to Portland and the *Mexico* was to take her place on the Alaska route. Since the strike on the Union Pacific steamers there has been but one vessel running between the Sound and Portland, and the charter of this will expire next month, and it is very doubtful whether the Union Pacific company will recharter her. It is thought that owing to this the Pacific Coast Steamship company are about to establish a line with one boat at present, and as the trade grows they will enlarge their line by placing on some of their other packets. Local Agent James McCabe could not give any information on the subject.—*Port Townsend Leader.*

A Curiosity.

The *Western Watchman*, published at Tillamook, is a singular looking paper. A good portion is "boiler plate," and the balance is put together in a heterogeneous manner, all kinds of type being used, and the "ads" are set up without any regard for style or beauty. The wording of the articles is about as bad as the arrangement of type in the "ads." Here are three locals:

Heins the photographer will soon increase his room to be able to meet his increased patronage. He contemplates removing his entire plant and do the business of copying and increased photograph, at this city.

Isn't our street improvements looming up magnificently? If this work now so fairly begun is carried out, it will indeed lift our streets out of the slough and make them safe and comfortable ways of travel.

Special to THE ASTORIAN.]

OAKLAND, Cal., Sept. 6.—About 10 o'clock last night W. Snyder, a storekeeper at Neils, in this county, was counting his money and putting it in a sack to take to a safe in his house near by, when a masked burglar put a pistol in his face.

Snyder knocked the pistol out of the robber's hand, but another man came in at once and presented a pistol. In the scuffle that ensued Snyder was beaten over the head and face. The robbers took the sack, containing $300, and went out, locking the front door.

Snyder, on recovering, went out a rear door and entered his house. The blood was streaming from his face and head. One shot had been fired, grazing Snyder's face, and two other shots missed the mark. The burglars made their escape.

LUCKY YOUNGSTERS.

A Steamboat Built for the Children of Millionaire W. K. Vanderbilt.

The children of Millionaire W. K. Vanderbilt, with the son of President Carnot, of France, are probably the only ones in the world who have a steamboat for a plaything. Not one of those little tin or wooden concerns that float around in the bathtub, or make perilous trips across mud puddles at the end of a string, but a real little steamboat, big enough to carry ten people. The little Vanderbilts, true to family traditions, are very fond of water. This fondness for water gave birth in the commodore's descendents to the wish for a steamboat, and with them a wish has only to exist to be gratified. Their father at once had the plans prepared for a vessel of the proper size to navigate the waters in and about a little stream which runs from Great South Bay to Oakdale, L. I., and intrusted the building of it to Henry Plepgrass, the City Island boat-builder. That was three or four months ago, and the boat is now ready for use. The boat is made with an iron frame and steel plating. It is sixty-five feet long on the water line and draws the exceedingly small amount for a boat so large as two feet of water. It was necessary to have the draught very light, as the creek where it is to be used is not deep. The boat is to be owned and controlled exclusively by the children of the millionaire, assisted by a picked crew of four. The little craft is a side-wheeler. The engines eat up two tons of coal a day and will propel the boat about eight miles an hour. Everything is designed for comfort on board, and nothing that can add to the pleasure of the owners has been left undone.—*St. Louis Post-Dispatch.*
