THE TARIFF BILL

Its Amendments Being Handled In Short Order.

Special to THE ASTORIAN. Washington, Sept. 15 .- The remainder of the senate amendments to the tariff bill were put through the Ways and Means committee in short order this morning, non-concurrence being recommended in each case. When the amendment fixing November 1st as the date upon which goods in bond imported should be withdrawn, was reached, the Democratic members showed a disposition to amend the senate amendment, so as to extend the time. But notwithstanding the apparent unanimity of the committee in the opinion that there should be an extension, it was decided the result desired could be more speedily reached by leaving the matter to conferres than by undertaking to adjust it in committee and the House. So, as in the case of the other amend ments, non-concurrence was voted and the chairman authorized to report the

bill to the House. Choice Staple and Fancy The committee on rules following up this action, adopted McKinley's special rule for the consideration of the bill and amendments.

Give Us a Call and Be Convinced. In deference to the wishes of many Republican members who returned to Washington this morning in answer to telegraphic calls, it was decided that efforts should be made to take up the tariff bill immediately in the City Express Transfer Company.

Tariff Bill Reported Back. Special to THE ASTORIAN.]

Washington, Sept. 15.-McKinley, Means, reported back in the house this morning the tariff bill with the Senate amendment, with the recom-mendation that the amendments be non-concurred in. The bill was at once considered in a committee of the whole.

SACRAMENTO, Sept. 15.—A serious shooting affray occurred half a mile east of Perkins station this afternoon about 5 o'clock resulting in the death of A. Menke, Jr., by J. J. Glacken, his brotherinlaw. Both were engaged in hop raising at Perkins, three miles from here. Trouble has been existsome time over a deal made in hops. This morning the trouble arose again and hot words were used. This afternoon they met on a road in front of their homes, both in buggies, near Perkins station. As they met A. Menke, Jr., was shot in the bowels. The hired man who accompanied Glacken tried to separate them. Then the men also shot Glacken in the bowand shot and instantly killed Menke, Jr. Both Glacken and the hired man

received dangerous wounds. Menke was aged 35 years, and leaves a wife and three children. Glacken is aged 45 years, and has a wife and four chil-WHERE IS THE "LILLY?"

in the Northern Waters. Special to THE ASTORIAN. San Francisco, Sept. 15.—Considerable anxiety is felt for the sealing schooner Lilly. None of the sealers that have arrived in this city know anything about her, and did not see her in the northern waters during the entire season. The Lilly is an American schooner, and was built in the East in 1881. Though old, she was considered a staunch vessel. She took on supplies for her cruise in this city and went north in May last. Her crew numbered about twelve men. Since she sailed nothing has been heard from her. She is thought to have been wrecked, or else to have been seized in Russian waters.

The Niagara River Canal.

The Niagara river canal is expected to cost \$3,500,000 and furnish 119,000-horse hower. With coal at \$4 or \$5 a ton, the cost of one-horse power is placed at from \$39 to \$46 a power is placed at from \$39 to \$46 a year, or, roughly, ten tons of coal per horse power. This canal, if it gives the estimated horse power, will furnish a power about equal to 1,200. 000 tons a year. This will cost, taking a capitalized value of four per cent. on the investment, \$140,000 as the first outlay, and at least as much more for maintenance and repairs. The horse power will, therefore, be about as cheap as coal at twenty cents a ton, and it appears capable of almost indefinite expansion unless the falls are considered of more value than horse power.

Testimony of a Painter.

The result was, that in eight hours after applying them I could get up and walk about with very little pain or ache, when the night previous I neither get up or down without help, nor neither get up or down without help, nor pain or scie, when the highs previous I neither get up or down without help, nor stoop to remove my shoes. I have since used them in my family for various ailments, and have never known them to fail to give almost immediate relief."

A new "cure" has been invented in Germany, which may be adopted as a greater novelty than the mind cure or greater novelty than the mind cure or the faith cure. Its basis is the hard-ening of the human organism, which has been disastrously enfeebled by civilization. The patients imitate the noble savage and the gypsy, and the system includes going barefoot as one part of the cure. One German parish contains 1,400 patients.

The electric light has puzzled the he electric light has puzzled the bees in Jamaica. A beekeeper living near a large hotel being built at Kingston recently found his hives in the utmost confusion, with many bees lying about exhausted or dead. The electric light was used at the hotel in order that the building operations should continue all night, so the bees mistook the light for daylight and should continue all night, so the bees mistook the light for daylight and would go out to hunt pollen around the neighborhood thus illuminated. When they came home they found that the real day was dawning, and they fiew off again without any rest till they literally worked themselves to death.
