PICKWICK PAPERS, The above are without question the most famous novels that were ever written. For a quarier of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.
