STILL ANOTHER VERSION

Barrundia's Son-in-Law Tells the Story of the Killing.

ON THE WAY TO WASHINGTON.
He Will Lay the Matter Before President Harrison and Demand Action be Taken.

Special to THE ASTORIAN.
NEW YORK, Oct. 1.—The Herald's City of Mexico special says: Dr. Benghera, a son-in-law of General Barrundia arrived here to-night, en route to the United States to present his case to President Harrison. He makes a statement that when Barrundia embarked on the *Acapulco*, Pitts guaranteed his life.

The story of the murder aboard the *Acapulco* as given by Benghera is that before Pitts read Mizner's order two officers went below, and after the order was read Barrundia, who was in his undershirt, asked permission to put on his clothes, and while in the act was shot through the chest and the bullet wounded him slightly. He then grabbed two revolvers and opened the door and Torrieto and Pitts ran. Fonseca opened fire from behind the smokestack, as did also four policemen, one of the bullets entering Barrundia's face directly under the eye, he falling to the deck dead. Torrieto then rushed from his hiding place and commenced kicking the body. All this passed within two minutes. Barrundia did not fire a single shot.

"My wife," said Benghera "intended to fire a shot at Mizner from the balcony of her house, after the killing of her father, but as he was passing with the agents of the Pacific Mail company she did not do so, but went to the legation where Mizner was setting with Agent Leverich and United States Consul-General Hosmer."

Leverich on seeing her was going to leave, but Mizner said "don't leave me alone, that is Barrundia's daughter."

To this she replied "Yes, this is the daughter of Barrundia that comes to call you to account for her father's assassination, you are an assassin, you who are here representing so great a nation as the United States are nothing but a great villain." She was ejected from the legation after these utterances.

The night following the murder Mizner visited the minister of war and the interior at the National palace. He received him with his hat on and made him wait, in fact, treated him with the greatest contempt. He is despised by everybody in Guatemala.

SIGNED BY THE PRESIDENT.
The Tariff Bill at Last Becomes a Law.

The action of the president was shared with some contentment and a feeling of relief was manifested when his decision was made public, although his views on the subject were well known.

THE IRISH PARTY.

The Meeting this Month Will be an Important One.

SPECIAL TO THE ASTORIAN.
LONDON, Oct. 1.—The meeting of the members of the Irish party has been fixed for October 16. It will probably be a very important affair and at Mr. Parnell is expected to take very decisive action. He will either resign his position or will come out strongly for a plan of campaign. The need of money overshadowed all questions, and an American trip is the most important item in the program. Parnell has ordered all members to cancel their engagements for the 16th. An immense effort will be made to conciliate the American-Irish to unite with the party here.

A report that the Vatican had determined to put a pressure on the Irish Bishops to enforce Papal respect received confirmation from a pastoral issued Monday by the Bishop of Kildare. The Parnellites are anxious to avoid any breach with the church and it is thought that no further attempt will be made to put the plan of campaign in force. Parnell is anxious that home rule should again be brought to the front.

Another Electric Death.
Special to THE ASTORIAN.
NEW YORK, Oct. 1.—Charles McElvaine was to-day again sentenced to death by Judge Moore in the Kings county court of sessions for the murder of Christian W. Lucas, a Sands street grocer, on August 23, 1889. McElvaine will be taken to Sing Sing, where, according to the sentence, he will be executed by electricity during the week commencing Monday, the 17th of November.

THE TAR BUCKET AND PILLOW
How a Band of Masked Men Treated an Alleged Perjurer.

TAKEN FROM JAIL BY FORCE
Special to THE ASTORIAN.
BIRMINGHAM, Oct. 1.—James Harrington was taken from the jail at an early hour this morning by a band of masked men and given a coat of tar and feathers. Harrington was brought here on a warrant and placed in jail charged with perjury in connection with his testimony in a recent land suit.

Deputy Sheriff Grainger was overpowered and the keys of the jail taken from him.

Harrington fought vigorously, and in the struggle a pistol was discharged and he received a wound in the back. He was taken a short distance from the jail and the tar and feathers applied.

No trace of Harrington can be found to-day. Great excitement prevails.

Canadian Talk.
At a meeting of the Canadian Commercial Union club at Toronto lately, Professor Goldwin Smith said that the fisheries question will be easily settled under Canadian rule if elect his own governor general. That of course, alludes to Canadian independence. The remark must be taken in connection with the audience to determine its significance. It was made to a club of men eager for nationality, or absolute commercial union with the United States. Could they overcome Canadian conservative sentiment and American objections, and elect a governor general, or a president, if, in the latter case, they were to suit themselves, there would be no trouble whatever about settling pending questions between the two countries. This club, however, represents only a portion, presumably a minority, of the people of the Dominion. As a matter of fact, throughout this continent Canada has been the aggressor and Great Britain the pacific factor. The mother country has no interest in the quarrel except as the reluctant backer of her colonist. She would prefer not to meddle with it, and undoubtedly the governor-general she has appointed have been instructed to observe a moderate attitude. A chief magistrate elected by the Dominion would reflect the sentiment of the majority. Heretofore that has been in favor of erasing the United States at all possible points to obtain commercial concessions. Perhaps if the Dominion alone she would be less obstreperous. She is like a saucy little boy who makes up faces and throws stones from behind his big brother. In that view of the matter Goldwin Smith's remark may have been measurably correct. It cannot be remembered, however, that the United States has not been influenced by any fear of Great Britain in considering Canadian complications.

GOD'S BLESSING TO HUMANITY
—So Says an Oregon Pioneer Ninety Years Old.

FOREST GROVE, Or., March 19.—I have used the OREGON KIDNEY TEA and obtained immediate relief. It is God's blessing to humanity. I take pleasure in recommending it to the afflicted. I am now nearly ninety years old, came to Oregon in 1842 in the employ of the Hudson's Bay Company.

My wife, five years ago, was confined with the OREGON KIDNEY TEA. I was then suffering from the OREGON KIDNEY TEA. I enjoy good health.

A FREE FOR ALL FIGHT.

Galle Sports in Limerick Terminate in a Riot.

SKULLS CRACKED WITH OLIVES.
A Number of Persons Fatally Injured by the Mob—Railway Carriages Wrecked.

SPECIAL TO THE ASTORIAN.
LONDON, Oct. 1.—At Limerick on Monday a series of Gallic sports was wound up in a disgraceful riot. There were several games going on in different parts of the city and under different managers, who soon developed into rivals, and rioting was the result.

At the railway station, which was boisterous, toughs began fighting over the claims of the respective factions. The tumult was almost unparalleled for the viciousness which followed. Sticks were used indiscriminately, rocks thrown, windows smashed, carriages wrecked and a number of persons seriously injured.

The station master and other railway employees were dangerously wounded. There were no police present, so matters were left entirely in the hands of the combatants and skulls were cracked with the utmost fury.

At Lerpals station, bottles were flung at a moving train severely injuring two men. The railway company has announced it will run no more suburban trains.

The steam schooner *Wichigan* arrived from Portland last evening and will sail for the Sound ports to-day.

The British ship *Mount Carmel*, 1,500 tons register, Capt. Alexander Livingston, 32 days from Manila in ballast arrived last evening.

The *Strathmore* is fully loaded and has on board 14,750 sacks flour for Europe. She was flung out into the river and anchored yesterday.

The steamship *California* arrived from San Francisco yesterday with thirty tons freight for this port. She also brought eighty cabin and 130 steerage passengers.

The steamship *Columbia* sailed for San Francisco yesterday taking the following freight from here: One thousand nine hundred and twenty-two bbls. shooks, 1,200 feet long lumber, 500 cans salmon, 250 bbls. lard, 100 cases oysters, 45 bbls. and 20 bbls. cranberries, 164 bbls. wool shaks and 3 tons general household goods.

The British ship *Lonsdale*, 1,685 tons register, Capt. G. Buckingham, 50 days from Tomala, Mexico, arrived last night in ballast. Capt. Buckingham is a native of this city.

The steamship *Leahy* will be employed for some time in the waters of the water bay engaged in surveying. For close to the shore they use a small steam launch, which is carried on the vessel when not in use.

They have a number of boats, and while all are good, the captain's gig, in particular, is a little beauty. It will carry five men, but is so light it can be lifted from the water and carried on the shoulders of two men. The officers are all of the United States navy, and are under the direction of the Secretary of the Treasury. Lieut. J. M. Helm is in command, and the others are Lieut. A. G. Rogers, Ensign J. H. Gibbons, Ensign A. N. Mayer, Ensign G. W. Brown, Asst. Surgeon P. H. Bryant and Mr. W. M. Jaynes. They have a crew of thirty-three men. The officers are very courteous gentlemen, as naval men nearly always are, and the Astorian representative was cordially entertained by Ensign Mayer, who was the only officer on board at the time, though the others were met afterwards.

The capital stock of the Illinois Central railroad company, amounting to \$40,000,000, is held by 3,846 stockholders, of whom only 1,577 live in America and but ninety-eight in Illinois. Two-thirds of the stock is owned in Holland.

Pecan nut farming is one of the growing industries of the Gulf states. After the trees have once begun to bear, they involve no labor or expense, and yield, it is said, an income of from \$500 to \$1,000 an acre, according to the quality of the nuts.

Mexico is a medley—the most ancient and most modern arrangements mingle. The women grind corn and the men carry water as in the days of Abraham, yet the government has telephone, telegraph, electric lights, and has contracted for the phonograph in the postoffice department.

The "Ripper" Announces He Will Kill Another Woman.

SPECIAL TO THE ASTORIAN.
LONDON, Oct. 1.—"Jack the Ripper" has sent a warning to the Whitechapel police that he is about to butcher another woman. The penmanship of the communication is precisely similar to that of the letters which it has been the custom of the officials to receive from the murderer just prior to his killing some poor abandoned wretch of Whitechapel.

A Destructive Fire Caused by a Dynamite.

SPECIAL TO THE ASTORIAN.
CINCINNATI, Oct. 1.—At an early hour this morning a fire started in the refrigerating department of the Seiler brewery at Twissburg, just back of Covington, Ky.

A prompt response and good work of the fire department saved the main portion of the brewery, but as it is the loss will reach \$50,000, fully covered by insurance. The fire is thought to have originated in the engine room from one of the dynamites.

The Northern Red Men.

V. C. Bogue Talks About the Union Pacific Extension.

WILL NOT BUILD INTO 'FRISCO.
SPECIAL TO THE ASTORIAN.
SAN FRANCISCO, Oct. 1.—V. C. Bogue, chief engineer of the Union Pacific system, is in this city attending to some important business in which his company is interested. It is rumored in railroad circles that his mission is in connection with the extension of the lines of the Union Pacific to this city.

When seen to-day Mr. Bogue denied that his visit was on such important business. He said: "There is no immediate prospect, so far as I know, of an extension of the lines of the Union Pacific system to San Francisco. There is without doubt, plenty of business to warrant the extension, but the company have never seriously considered such a move. It is possible that some of the other companies contemplate running out here, but I am not informed in the matter, as I have been, during the greater part of the year, in the state of Washington, superintending the extension of our lines from Portland to Tacoma, Olympia and Seattle."

"We have constructed 184 miles of road and intend to continue work in other directions. The prospect for the northwest is most flattering."

FOREIGN NEWS AND GOSSIP.
Michael Davitt's new paper will make some startling disclosures, and we shall see the origin of the dynamite plots will be given and conspirators shown up.

It is expected that the number of bodies cremated in Milan will soon average one a day, as nearly two thousand bodies have been cremated during the last thirteen years.

SPECIAL TO THE UNITED PRESS.
PORTLAND, Oct. 1.—It has just leaked out that Nat S. Baker, publisher of the *Oregon Times*, published in this city, skipped the country September 17th with Frankie Anderson, a pretty typesetter employed in the *Times* office.

Baker drew \$2,700 from the bank, collected \$300, packed up a quantity of new type recently purchased, and with Frankie left the state.

This morning Mrs. Baker received a telegram from him from El Paso, Texas, asking forgiveness and permission to return. She declined the proposition.
