The postmaster-general says that he does not believe it possible to argue was closed and bandaged.

In just one week after the operation she came into our office and was able to read our paper. She also wrote a letter home, saying; "Dear parents, I can see and am happy."

Mr. Jerome W. Campbell, General Superintendent of the Willamette Bridge Railway Co., saw this operation. does not believe it possible to argue the question down, and that he is confident that before long a measure establishing a postal telegraph system

who has adopted trade marks, may require his name and residence and a view, as novel and beautiful as "Eden's description of his trade to be recorded rosy bowers" appeared to our first parin books kept for that purpose in the treasury, and they furnish to the department fac-similes of such trade marks.

CALCULATIONS made by the census bureau as to the population of the United States indicate a total of 63, and women. A permanent cure 231,428. The count has been completed in the case of twenty-eight pleted in the case of twenty-eight states and territories. The returns from the other states are in, and most | IUDD of them have been counted, but one or more districts in each of the states One Week - - - Saturday Matinee, remain to be added up. The total arrived at by the census officials is below what was generally expected. It represents an increase of only a little over 26 per cent. for the decade 1880-90, as compared with an increase of 30.08 per cent. for the decade 1870-80. The percentage of increase is, in fact, the smallest for any decade since the first census was taken, with the single exception of the decade of 1860-70, which included the period of the civil war. The percentages of increase for the decennial periods during the century which has elapsed since the taking of the first census are as follows: 1790-1800, 35.10 per cent.; 1800-10, 36.38 per cent.; 1810-20, 33.06 per cent.; 1820-30, 32.51 per cent.; 1820-30, 33.52 per cent.; 1840-50, 35.83 per cent.; 1850-60, 35.11 per cent.; 1860- Grand Family Matinee Saturday at 70, 22.65 per cent.; 1870-80, 30.08 per cent.; 1880-90, 26.07 per cent. The population total above given, remarks Bradstreet's, is of course subject to revision. The enumeration made by the police department in New York seems to demonstrate the fact that the census enumerators in that city did not get the full population on their schedules. A recount under federal authority may be necessary there as 2-Fine Gold Watches Will Be Given Away-2 well as in Brooklyn should a recount by the local police, which is talked about there, show the necessity there-for. "I was chopping a stamp four wocks ago, when a flying chip struck me in the eye; for a short time I was entirely blind. Then partial sight returned again. I nurtured hope and continued to treat it at home, until ten days ago, when I began to abandon hope of ever seeing perfectly again, unless something more than ordinary was done. I then counciled two of the leading Oculists of Portland, who told me one eye would have to be cut out to save the other. It did not exactly sult me to have my cye cut out, and so I sought other council. I went to Dr. Prentice, the Oculist, then at Portland, and he laugh, for it was on my side. I have been free from pain since the first day's visit to Dr. Prentice, and improved steadily, and am now entirely well again. I feel safe in saying that if Dr. Prentice cannot cure a case he will always say so.
