LONDON, Oct. 27.—Accounts of the atrocious treatment of the Russian prisoners are fully corroborated by Felix Volkovskoy, a Russian journalist. After eleven years exile he escaped recently and has just arrived in London. His escape is the more remarkable as he is the first exile who has accomplished the long and extremely difficult journey to the Pacific ocean, eluding the vigilance of the police, and embarked for England via Japan. He was a prisoner three times and exclusive of his exile, has spent a total of nearly nine years in solitary confinement.
TELEGRAPHERS ON A STRIKE
The operators at St. Paul walk out in a body.
Special to THE ASTORIAN.
ST. PAUL, Minn., Oct. 27.—At 8 o'clock this evening the entire force in the Western Union telegraph office, consisting of thirty-three operators, walked out in a body, leaving only the two chiefs to do the work. The men are all members of the local lodge of the Brotherhood of Telegraphers, recently organized here.
The walk-out was caused by the discharge of ten of their number to-day, no reason being given for their dismissal. This will badly cripple the Western Union for several days, as they have been very short of operators for some time.

FROM SOUTHERN SEAS

Native Villages in the Solomon Islands Shelled.
FIVE MEN LOST IN A GALE.
Striking Miners Coal an American Man-of-War—Affairs in Samoa Very Unsettled.
Special to THE ASTORIAN.
SAN FRANCISCO, Oct. 27.—Advices from the Solomon islands by the steamer *Zelandia* state that her majesty's steamship *Cordelia* had shelled a number of villages in consequence of recent massacres committed by natives upon white settlers and traders.
The United States ship *Mohican* was at Auckland on September 29th last. She had called there on her way to Honolulu, via Samoa for coal, but Captain Shephard was in a quandary for quite a while as the miners were out on a strike and so no coal could be obtained. The New Zealand government, however, sent a request to the men to coal the warship and they agreed to do so. They went into the mines and turned out sufficient coal for the *Mohican* and then walked out again.
The storm encountered by the ships *Victoria* and *Queen Victoria* seems to have been more general than was at first supposed. The captain of the British bark *Scottish Wizard*, which arrived at Adelaide, South Australia, on the 22nd inst., reports that during a heavy revolving gale a great sea broke on the deck and washed overboard the second mate and four of the crew, all of whom were drowned.
A correspondent writing from Apia, Samoa, under date of October 7th says:
Although nearly half of the term of three years, for which the treaty was arranged between the United States, Germany and England, has expired, the treaty has not yet been ratified. A heavy revolving gale a great sea broke on the deck and washed overboard the second mate and four of the crew, all of whom were drowned.
A correspondent writing from Apia, Samoa, under date of October 7th says:

A heavy revolving gale a great sea broke on the deck and washed overboard the second mate and four of the crew, all of whom were drowned.
America's interest in Samoa is supposed to be waning and it is thought that Germany will have affairs all her own way.
PORTLAND PARAGRAPHS.
A Boy Killed by a Fall—Found Drowned in the River.
Special to THE ASTORIAN.
PORTLAND, Oct. 27.—Burt Lund, aged 17 years, fell down a shaft at the Oswego Iron Works yesterday and was killed. The coroner's jury returned a verdict that he met his death by his own carelessness.
Chris C. Miller, aged 63 years, a farmer, was found drowned in the Willamette river. He had been missing for several days. He leaves a family of seven young children. His wife died last January. Two demijohns of whisky were found in a boat near the body.
RAILROAD NEWS AND NOTES.
The steamer *General Miles* sailed yesterday morning for Shoalwater bay.
The *Wallace* returned from Portland yesterday where she went to have repairs made to her rudder.
The British ship *Alcornoque* went in alongside the Union Pacific wharf yesterday and will lighter about 900 tons of coal.
The little ship *City of Carlisle* entered at the custom house yesterday, and will discharge 250 of the 600 tons of coal she has on board before proceeding up the river.
The British ship *Lonsdale* arrived down yesterday morning and will complete cargo at this point. She brings from Portland 75,192 bushels of wheat, valued at \$56,400.
The little steamer *Louise Vaughn*, tender to the dredger at St. Helens, came down yesterday, her propeller having dropped off while at work. She was beached last night and will have the propeller replaced.
The government steamer *Cascades*, Capt. W. H. Whitcomb, arrived last evening at 9:30, having in tow three barges of rock for the jetty, brought from Hinkle's quarry on the Columbia river above the mouth of the Willamette.
The little steamer *Augusta* arrived from Tillamook yesterday with a cargo of farm and dairy produce. She docked at the Union Pacific wharf, but in doing so she jammed into the wharf, tearing loose a fender pile and scraping off two or three sections of the corrugated iron roof of the depot shed.
Complaint is made that some of the tug boats or steamers bringing vessels down the river drop them directly in the channel, in the way of passing steamers, and seriously obstruct navigation. Capt. Whitcomb is frequently inconvenienced, for when he comes down on a dark night, towing three or four barges of rock, he cannot turn on very easily, and sometimes narrowly escapes a collision. It is hoped that more care will be taken by those who leave vessels directly in the channel in the way of passing steamers.
Important Notice.
Now is the time to test the best Catholic Cure in the City of Astoria. Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. J. W. Conn, Druggist.

EXECUTIONS BY ELECTRICITY.
Millions for Coast Defense—Report on The Department of the Columbia—Notes.
Special by THE UNITED PRESS.
WASHINGTON, Oct. 27.—The state department has forwarded to the governor of Louisiana the protest of the Italian colony in New Orleans against the contemplated harsh measures by the authorities of New Orleans against the Italian colony of that city indiscriminately, because of the assassination of Chief of Police Hennessy. The matter was brought to the attention of the state department by George Levi, an attaché, in the absence of Baron De Fava, the Italian minister.
Mr. Levi handed in the protest of the Italian colony which was telegraphed to him by the Italian consul at New Orleans. The Italian minister explained the situation to him. The protest states that they view with horror the assassination of Chief Hennessy, but fear that justice will be heaped upon the innocent in the clamor which has been raised to punish the guilty parties.

CHAMPION HURDLER.

A. A. Jordan, champion hurdler of America, and holder of the American record for running 120 yards over 3 feet 6 inch hurdles, says:
"I have for a great many years used ALCOCK'S POBOSUS PLASTER, particularly during the training season. I find that if I am affected in back or joints with any kind of a pain or strain, that ALCOCK'S POBOSUS PLASTER instantly affords relief. For pains in the body, the result of a severe cold, nothing can beat ALCOCK'S PLASTER. I would certainly recommend the plaster to any athlete who is suffering with soreness or stiffness while in training."
