THE RICHARDSON BRUG CO., AGE T

TO CHARTER A STEAMSHIP.

Story of Mr. Gould's Future Intentions.

If pending negotiations can be com-pleted, says a New York letter to a Western newpaper, to Jay Gould will belong the proud distinction of being the first person to charter a first-class ocean steamship for his own private use during a term of years. When the yacht Atalanta was first advertised for sale nine months ago the score of new railroad schemes under consideration.

A dispatch from Portland was shown to him in which it was stated on reliable authority that he and the Rock Island Company had joined hands to build from Winnemucca through Pengra pass, east of Springfield, Oregon, and via the Cascades to Huntington's Oregonian railroad. The aid of the Rock Island was said to be given in return for a iraffic arrangement which will be that road into Portland on even terms with the Urion Pacific as the North Western. The light read the dispatch, Huntingon said that there was not a word of truth in it. I have built one road through the sage brush and the great basin and that's enough for me. I have no ambition to build another."

Mr. Gould enjoys at his country place at Irvington. Among the most salient features will be appliances for the cultivation of flowering plants and large store rooms for the preservation of exposition of the preservation of expositions. The preservation of expositions of the preservation of expositions of the preservation of expositions. The preservation of expositions of the preservation of the preservation of expositions of the preservation of th rooms. Mr. Gould will be accompan-ied by twenty invited guests in addi-tion to his immediate family, and the full complement of crew and officers will be retained.
