A careless guest in the Parker house laid a lighted cigarette down on an upholstered chair in one of the rooms yesterday noon and went out.

There is every reason to believe that all who attend the M. E. church this evening and listen to the lecture by Rev. Dr. Kummer, will have a literary treat, as the subject is of undoubted ability, and the subject is one of unusual interest to every person who ever expects to be one in the near future.

Another railroad is to be built in Pacific county. At least it is the avowed intention of a number of prominent residents of Seaside and Oysterville to do so.

AN UNFORESEEN DISASTER.

Masonry Around the Court Street School Going to Pieces.

WHAT THE OFFICIALS SAY OF IT. The fine stone wall on the north and east sides of the Court street school lot, which was in course of construction during the last summer and fall, has been viewed with pride by residents of the district and has been the subject of much complimentary mention since its completion a few weeks ago.

The wall was built as a bulkhead for the block on which is situated the fine Court street school house which occupies such a slightly location and was intended to hold in place the earth to form ample and gently sloping grounds around the building.

The rains of the last two or three weeks have developed the fact that there are unforeseen forces operating against the wall which it has proved unable to withstand. The pressure on the inside of the wall on Benton street has moved it into the street about two inches at the north end as shown by a crack there, and this lateral movement is more or less apparent for about seventy-five feet along the street to the south.

It is believed that it will be useless to attempt to repair the injury before next summer as a portion of the wall will have to be entirely rebuilt.

Just who is to blame in the matter, if it be the fault if anyone, is not apparent although several citizens charged it to the contractor, the board of directors and the engineer, severally.

The wall cost in the neighborhood of \$3,000, and it was remarked by some during the construction that it was being built on a very uncertain foundation.

It seems to be one of those cases in which the best and most careful engineers are unable to provide against accident without expensive experiment which would cost as much or more than the repairs that may be necessary in this case.

A ST. LOUIS PHYSICIAN. He Tests a California Production.—His Report. A St. Louis gentleman whose affliction was sick headaches was so surprised at their cure by Joy's Vegetable Sarsaparilla, that he called it to the attention of a relative, who happened to be Dr. F. A. Barrett, the well-known St. Louis physician of 202 St. James street. The doctor saw at once that it differed from the potato preparations in that it was purely vegetable, and becoming interested, began a series of investigations, and in a subsequent letter candidly admitted its curative properties, and said:—

Wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulator. As a result, I can say it is an almost absolute cure for constipation, biliousness, dyspepsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach and bowels, and Joy's Vegetable Sarsaparilla is the best laxative and stomach regulator I have ever seen, and as a general system corrective is almost perfection.
