memories that cling to the old Eastern homestead with its long history of annual Thanksgiving reunions.

Looking retrospectively over the year which has elapsed since the last recurrence of this anniversary, we can, as a nation, feel grateful for the success which has crowned us with so many blessings of peace and prosperity. As a state, Oregon may well feel thankful, for every turn of the wheel of progress has been securely held, and we are on a bronder, and firmer hasis than a year ago.

As a city, Astoria has not made quite as much advancement in the year as the most sanguine had anticipated, but still we are a little ahead, and can find much to be thankful for. The population has increased, a railroad has been built to the const, the streets have been greatly improved.

A man well known in this community writes the following lateresting letter:

"I was chopping a stump four weeks ago, when a flying chip struck me in the eye; for a short time! was chopping a stump four weeks ago, when a flying chip struck me in the eye; for a short time! the buildings have been numbered, the fire department has been increased, many houses and blocks have been creeted, and a free delivery system is about to be established.

Individually, every one must decide for himself, but dark, indeed, has been the year to the person who cannot to day find some cause of rejoicing, and some reason for giving thanks for blessings received. It is well to look on the bright side, for a rosy hue can always be found to the darkest picture, and in every life it will seem a more cheerful existence if the mind is taught to dwell upon the agreeable events and forget the dark and gloomy hours.

From a Patient Who Was Cured By Dr. Prentice.

Portland, Or., Oct. 7, 1890.

To the Suffering: For five years I have suffered with sleeplessness, nervous debility, irritation at the base of the brain, and a terrible kidney disease. I had tried so many remedies that did me no good that at last I gave up all hope of ever being a well man again. I tried many prescriptions that were said to be sure cures, and all failed. There were many times during the past few years that I was obliged to lay off from work from two weeks to three months at a time. Lately I was running down in health very rapidly, and was alarmed. I contemplated leaving this part of the country and trying to see if I could not get relief elsewhere. I must say that my faith in doctors was about gone; but something lead me to visit Dr. Prentice at the Esmond hotel. I crowded in with the others and waited my turn. He examined me, told the part to the country and said he was the control of the brain. He examined me to down in health very rapidly, and was alarmed. I could not get relief elsewhere. I must say that my faith in doctors was about gone; but something lead me to visit Dr. Prentice at the Esmond hotel. I crowded in with the others and waited my turn. He examined me, told PORTLAND, Or., Oct. 7, 1890.
