Malvolio says in Shakespeare's Comedy of Twelfth Night, "Some are born great, some achieve greatness and others have greatness thrust upon them." co it is with nervousness. Some are born nervous, some achieve nervousness by their own imprudence and neglect, and some have nervousness thrust upon them by disease. The basic starting point of this allment, which grows rapidly and assumes alarming proportions when it reaches the stage of hypochondria and chronic sleeplessness, is weakness, the child of indigestion, parent of many evils. For the incapacity of the stomach to digest food, and of the system to assimilate it after digestion, Hostetter's Stomach Bitters has ever proved a sovereign remedy. Sleep becomes tranquil, appetite improves, abnormal sensitiveness of the nerves is succeeded by steadiness and vigor in those delicate itssues, bodily substance increases when that signal restorative of digestion is 31s'ematically used.
