

The Daily Astorian.

ASTORIA, OREGON: TUESDAY, DECEMBER 2, 1890

WHENEVER the president's message arrives, it occupies so much room that it crowds out very much other news and its presence in our columns this morning will account for the scarcity of other items, which are necessarily excluded.

COMPLIMENTS of this office are due and are hereby tendered to Manager Henderson and Operator McKee, for the prompt and efficient manner in which they received and furnished the president's message, commencing to receive it as early as 5 o'clock yesterday morning. The quadruplex instrument was used so that the regular telegraphic business of the day was not interrupted in any manner.

ABUNDANT food for reflection is afforded by a careful perusal of President Harrison's message, a synopsis of which is given this morning in our telegraphic columns. There is scarcely a topic of national affairs but what is alluded to, and discussed in a clear and concise manner. It is a message which will compare favorably with those of his predecessors, and covers a broad field, reflecting creditably upon its author. It is well worth reading.

UNCLE SAM will feel proud of his rapidly increasing navy, and if the building of war ships is continued as rapidly in the next two years as it has been conducted in the last two years, we shall soon have a navy which will be fit to represent the country on the high seas. Since March 4, 1889, nine new war vessels have been placed in commission, and during the coming winter four more, including one monitor, will be added to the naval fleet.

MARRIED.

WAGNER-ATKINSON. - On Young's river, Clatsop county, Oregon, Sunday, November 29, 1890, at the residence of John Wagner, by C. Peterson, justice of the peace, Charlie W. Wagner and Mrs. Alice S. Atkinson, both of Clatsop county.

DR. PRENTICE

ARRIVED SUNDAY MORNING NOVEMBER 23.

Eye, Head and Nervous Diseases, At Occident Hotel, Astoria, For a Few Days.

FREE.

Dr. Prentice Will Cure the First Case of Cross-Eyes and Epileptic Fits Free On the Day of His Arrival in Astoria.

Those Who Wish to Have the Doctor Treat Them Should Call Early, or They May Lose the Opportunity.

A man well known in this community writes the following interesting letter: "I was chopping a stump four weeks ago, when a flying chip struck me in the eye; for a short time I was entirely blind. Then partial sight returned again. I returned home and continued to treat it at home, until ten days ago, when I began to abandon hope of ever seeing perfectly again, unless something more than ordinary was done. I then consulted two of the leading Oculists of Portland, who told me one eye would have to be cut out to save the other. It did not exactly suit me to have my eye cut out, and so I sought other counsel. I went to Dr. Prentice, the oculist, then at Portland, and he laughed at the idea of its being necessary to cut my eye out; I joined in the laugh, for it was on my side. I have been free from pain since the first day's visit to Dr. Prentice, and improved steadily, and am now entirely well again. I feel safe in saying that if Dr. Prentice cannot cure a case he will always say so." Thos. H. Foss, Gray's River, Wash.

A Touching Scene Witnessed By a Portland Gentleman.

One week ago we received an invitation to witness a delicate surgical operation on an eye. The patient was the 17-year-old daughter of Harrison Hay. For three years she had been blind in both eyes with a cataract, and was obliged to grope her way about in total darkness. The patient, without taking chloroform, submitted to the following operation: She was now ready for the surgical part of the work, and we stood in breathless anxiety as Dr. Prentice placed the point of his knife at the side of the eyelid, carefully touched the point of the corner, then the blade entered the eye; we saw it pass through the eye in front of the pupil and then come out at the opposite side. It was then drawn upward, and a cut made of about one-third of the circumference of the ball. A suture was then passed in back of the pupil, and almost on the instant the girl said: "Oh, Dr. Prentice, I can see you." This was spoken in tones well calculated to bring tears to one's eyes. From the time the knife touched the eye until the patient could see, it was just one minute. She was allowed to see those about her for a moment, then the eye was closed and bandaged. In just one week after the operation she came into our office and was able to read our paper. She also wrote a letter home, saying: "Dear parents, I can see and am happy." Mr. Jerome W. Campbell, General Superintendent of the Willamette Bridge Railway Co., saw this operation.

A LETTER.

From a Patient Who Was Cured By Dr. Prentice.

PORTLAND, Or., Oct. 7, 1890.

To the Suffering: For five years I have suffered with sleeplessness, nervous debility, irritation at the base of the brain, and a terrible kidney disease. I had tried so many remedies that did me no good that at last I gave up all hope of ever being a well man again. I tried many prescriptions that were said to be sure cures, and all failed. There were many times during the past few years that I was obliged to lay off from work from two weeks to three months at a time. Lately I was running down in health very rapidly, and was alarmed. I contemplated leaving this part of the country, and trying to see if I could not get relief elsewhere. I must say that my faith in doctors was about gone; but something led me to visit Dr. Prentice at the Occident hotel. I crowded in with the others and waited my turn. He examined me, told me where my trouble was, and said he could cure it without medicine. I can't say that I really believed him, but something in his manner led me to trust him. He gave me no medicine at all, yet from the day of my first visit I began to improve rapidly. I now sleep as sound as a child. My memory is greatly improved. My kidney disease and brain irritation are entirely well, my appetite splendid, and I now enjoy life and perfect health. Any afflicted person wishing to learn about my case will find me at address below.
