That portion of the city of Astoria known as Shively's Astoria was acquired by Shively from the Umted States under the donation law of 1850. The land was surveyed and laid off in lots and blocks and the plat thereof, filed in the clerk's office in 1850.

In 1864, Shively had the land re-surveyed by A. B. Hallock, and on June 24, 1864, the board of trustees of the town of Astoria, declared by ordi-nance No. 3, that the survey made by Hallock to be the true and legal survey, and accordingly a plat of the same was duly recorded in the clerk's office of Clatsop county.

It was discovered in making the

plat that it covered more ground than Shively owned, and an attempt was made in 1875 to correct it. It was prior to this date that Shively had sold a portion of the claim to James Welch. It was agreed between the owners that the excess should be taken from that portion of the land east of

SOME ROAD TALK.

EDITOR ASTORIAN:

SOME time ago when the people of Chadwell met to discuss the opening of the road from Lewis and Clarke river to Clatsop plains inviting those people to the meeting with them but only one man went, viz: Mr. Ober. So the Lewis and Clarke people proposed meeting them in their own school house and went, a number of them Dec. 7th, for that purpose. No one excepting Mr. West expressed any interest in the road whatever, and he said that he never expected to go over the road if made, except it would be as a matter of curiosity.

It is more than probable that the part lying in that district will be abandoned, as the business of the people is towards Astoria, and not towards Clatsop City, and if those people is towards Astoria, and not towards Clatsop City, and if those people don't want the road it won't be made.

It will be a misfortune to the county to lead the part want has a massing the county to the county to head this read as it is the made.
