"A GROWL."

Mr. Epiron: Although my taxes are small, yet they are as burdensome to me as If I paid much more. And as a tax-payer, Lifeel that I have a right to criticise those extravagances that are factors in the creation of high taxes. I have in my mind the county hospital. No sooner does the impecunious citizen become broken down and debilitated, than he rushes off to the hospital. Even persistent dyspepsia and constipation are getting to be excuses for admission. Hence, allow me space to enter my feeble protest against further continuance of this know that they can save the county that expense, by the judicious use of a few bottles of Joy's Vegetable Sarsaparilla, - a remedy that within my observation is a sovereign cure for those too common disorders. If they won't take it they ought to be compelled to by some law that would meet the case

Under the circumstances a full hospital is inexcusable, - hence this growl.
