The Acidity of the Stomach.

This condition is due to germs, and the cure lies in getting rid of the germs. Germs of fermentation in the stomach produce first alcohol, then what it means? You are nerve carbonic acid, then acetic acid. A perous-Why? You cough in the son troubled with this form of dyspermorning-Do you realize the cause? Your appetite is poor—
What makes it so? You seem articles of food as do not favor the development of germs, and thus starve What makes it so? You seem them out. Another thing to do is to OF THE BEST WOMEN

like a changed person to your wash the germs out of the stomach by friends-Do you know what is drinking freely of hot water before the matter, or has the change meeds. If food is put into a stomach the matter, or has the change already sour, of course fermentation been so gradual it has escaped will be set up immediately. Some persons notice that as soon as they eat, their stomachs become sour. third important thing to do is to stimulate the stomach to make more gastric juce, which is a natural antisentic and prevents fermentation and also hastens absorption. The glands may be stimulated by applying hot fomen-tations to the stomach for half an hour immediately after the close of a meal, or, easier still, by wearing a rubber bag filled with hot water directly over the stomach for half an bour or an hour. A Proposed Tunnel.

Sir Benj. Baker, who was instructed by the London county council to ad-vise upon the practicability of carrying out the Blackwall tunnel scheme, has at length completed his labors, and his report has been issued to the members of the county council.

It is chiefly based on observations of tunnels of a similar character in Amer-

Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching me cinery, the extremely law price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to juy. Every home in the land may now be supplied with a set of the great author's works.
