Oh, What an Awful Sneeze!
There is nothing more healthful than onions. The trouble is that persons are afraid to eat them because they make the breath unfragrant. But there is a less fragrant breath than that of a person with a cold. Take a few slices of onion and eat them when you are in a cold. You will find that your breath will be sweet.

A FATAL BOILER EXPLOSION.
Steamer Burned and Two Hundred Lives Lost—Notes About Notable Knockers-Out.
Special to THE ASTORIAN.]
WASHINGTON, Dec. 27.—Captain James Carroll of Sitka, Alaska, who was chosen by the territorial convention held in October last to represent the territory as delegate in congress, said to-day that if congress did not think Alaska of enough importance to give it all facilities and rights it had granted every other outlying settlement of the government he was empowered to offer the sum of \$14,000,000 for the territory and would pay it over in 20 gold pieces on short-est sort of a notice. This was \$7,500,000 more than it cost not to speak of the big yearly profits the government had taken for sealing purposes.
The offer, he said, was bona-fide and he was sure if those whatever flag was raised they could secure the people the blessings of popular government unhampered by the annoying defects of the present system.
TWO HUNDRED LIVES LOST.
Further Details of the Burning of a Steamer in the China Sea.
Special to THE ASTORIAN.]
LONDON, Dec. 27.—Additional particulars from China as to the destruction by fire of the steamer *Shanghai*, near Woo Hoo, in the province of Nagano Hoi, about fifty miles from Nanking, show the loss of life much greater than at first supposed.
The improvement on the torpedo boat it is claimed is in the buoyancy of the craft, which will come to the surface as soon as the electric motor is stopped whereas the machinery of the torpedo boat must be working to bring it to the surface of the water.
Besides a screw wheel at the stern there will be two wheels on either side of the new craft and the turning of an electric switch will cause the boat to rise or plunge deeper in the water.
It is being built as a pleasure craft, but if it proves successful the government will be requested to consider its adoption as a torpedo boat.
Jack Burke Will Fight Ted Fritchard.
Special to THE ASTORIAN.]
LONDON, Dec. 27.—Jack Burke goes to-morrow to Newmarket to prepare for a fight with Ted Fritchard. Smart, who acted in the same capacity for Slavin in his contest with McAuliffe, will back Burke.
A message has been sent to America authorizing a well known boxer to match Slavin to knock Sullivan out in six rounds. Slavin being anxious to meet the American, and beat him at his own game.
SAN FRANCISCO, Dec. 27.—As yet no answer has been received from Slavin whether he intends coming to San Francisco to meet Jim Corbett for a trophy before the California Athletic club. President Fulton and his co-directors will not daily with Slavin much longer, and if an answer is not received from him by Monday arrangements will probably be made for matching Slavin and Jackson.
Corbett will leave San Francisco on the 1st of the coming month, and expresses himself as particularly anxious to be matched with some one before leaving.
NEW ORLEANS, Dec. 27.—Interest in the Dempsey-Fitzsimmons contest is increasing, and sporting men are speculating heavily on the result. Dempsey has a legion of admirers who are betting him at even money. Fitzsimmons, however, appears to be the favorite with a majority of the sporting men, many of whom believe Dempsey is overmatched.

Something for the New Year.
The world renowned success of Hostetler's Stomach Bitters, and their continued popularity for over a century as a stomachic, is scarcely more wonderful than the welcome that greets the annual appearance of Hostetler's Almanac. It is published about 10 months in the year on this work, and the issue of same for 1891 will be more than 100 million printed in the English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish languages. THAT BIG STORM.

Another Vessel That Experienced the Big Blow.
Special to THE ASTORIAN.]
SAN FRANCISCO, Dec. 27.—The bark *Seminole* arrived from Nantamoo to-day after an exceedingly long passage of twenty-three days.
Captain Weedon, master of the vessel, reports very heavy weather off the coast. A number of sails were blown away during the voyage and the bark was holed for a couple of days.
It was reported this morning that the dismantled wreck seen by Captain Reed of the ship *Erickson* was being towed into port. There was no truth in the rumor and the matter is as great a mystery as ever. Insurance men are of the opinion that the derelict is the *Pactolus*. Captain Reed said that the vessel looked like the *Washington*, and the *Pactolus* is of about the same size and a very similar ship to the *Dashing Wave*.
Both ships left Tacoma on the same tide, the *Wave* for San Francisco and the *Pactolus* for China. The *Pactolus* was built at Thomaston, Maine, in 1865, is of 1,205 tons gross burthen, 191.04 long, 38.05 breadth of beam and 23.05 depth of hold. She is an old Pacific coast trader and well known in San Francisco.
PLEASURE UNDER THE WATER.
An Approved Sub-Marine Boat Being Built at Detroit.
DESCRIPTION OF THE CRAFT.
Special to THE ASTORIAN.]
DETROIT, Dec. 27.—The Detroit Boat Company is constructing a submarine craft of which great things are expected.
The vessel is forty feet long, nine feet beam and fourteen feet depth of hold. The mechanism is somewhat similar to that of the submarine torpedo boat. Electric storage batteries will be used for storing oxygen, giving light and furnishing the motive power. The improvement on the torpedo boat it is claimed is in the buoyancy of the craft, which will come to the surface as soon as the electric motor is stopped whereas the machinery of the torpedo boat must be working to bring it to the surface of the water.
Besides a screw wheel at the stern there will be two wheels on either side of the new craft and the turning of an electric switch will cause the boat to rise or plunge deeper in the water.
It is being built as a pleasure craft, but if it proves successful the government will be requested to consider its adoption as a torpedo boat.

A SHORT, SHARP FIGHT.

Larry Sullivan Knocked Out by the Mighty Campbell.
ONLY THREE ROUNDS FOUGHT.
The Astoria Man Knocked Off the Stage But Was Gained to the Last—Claim of Foul.
Special to THE ASTORIAN.]
PORTLAND, Dec. 27.—A glove contest between Dave Campbell, the Portland boy, and Larry Sullivan, of Astoria, occurred this evening in the pavilion. The attendance was about 1,500. Campbell was an easy winner, it requiring only three rounds to defeat his man.
Sullivan and Campbell entered the ring at 10:20 o'clock.
In the first round Larry got in a good jab but Dave retaliated with a knock-down blow that possibly was a slip. The round ended in a clinch, saving of London rules instead of Queensbury, and Sullivan secured first blood. Larry did the leading, and raised the hopes of the Astorians. The round, although tame, was in Larry's favor.
Second round—Sullivan fought and showed his cleverness to great advantage by neatly ducking several savage swings. Near the end of the round both clinched and fell, with Sullivan on top, when time was called. When replaced on the stage he was in a helpless condition. He attempted to again face the heavy sledge hammer blows of Campbell, when a blow in the region of right ear sent him to grass, he being knocked senseless.
Before White of the San Francisco Examiner gave the fight to Campbell.
Campbell was seconded by Charlie Gleason and Charlie Tramm, while Joe Baker and Billy Scott acted in like capacity for the Astoria favorite. The people were surprised to see Sullivan go out so quick, and Mark Schuller and others of Astoria claim that Sullivan was knifed in the leg in the last round. Physician's advice will be asked.
New Freight Steamer.
Special to THE ASTORIAN.]
SAN FRANCISCO, Dec. 27.—The San Francisco & North Pacific Company's new steamer *Ulich* had her trial trip this afternoon. She left the ferry wharf at 1 o'clock and went around the bay. The Union Iron Works, Hunter's point dry-docks and other points of interest were visited. The steamer was crowded with invited guests, and a most enjoyable time was spent. She will be used as freight boat between Tiburon and San Francisco.

THE ICE BROKE.

Terrible Accident to Skaters at Warrenton on Avon.
Special to THE ASTORIAN.]
LONDON, Dec. 27.—A terrible accident is reported from Warrenton on Avon. While several thousand skaters were sporting themselves on the river at that place the ice suddenly cracked in the middle of the river. An immense fissure opened through which some 500 skaters plunged into the icy waters.
A cry of horror arose from its spectators while the more fortunate skaters lost no time in reaching the river banks.
When the first shock was over a number of people hurried to the rescue of the drowning skaters. A number of them were pulled out, but it is feared that many were drowned. A large number are missing.
The latest report states that seventeen bodies had been recovered, among them several women.
Plenty of Coal in 'Frisco.
SAN FRANCISCO, Dec. 27.—The steamer *San Mateo* arrived from Departure Bay this morning with a cargo of coal. This makes five coal vessels within the past twenty-four hours which will probably take a drop.
DOES NOT WANT THE OFFICE.
James G. Blaine Will Not Run for the Presidency.
TALK WITH A PORTLAND MAN.
Special to THE ASTORIAN.]
CHICAGO, Dec. 27.—"I saw James G. Blaine about forty hours ago and he told me positively he was not in the presidential race and would not be, and that he intended to devote himself after the expiration of his present official position to his reciprocity scheme," said J. B. Montgomery, of Portland, Oregon, to-night.
Mr. Montgomery was a prominent figure during the last national republican convention.
"Mr. Blaine is not advocating reciprocity for a presidential boom," continued Mr. Montgomery, "but for the good of the country. He is devoting all his time to Spain and Spanish speaking countries at present, which alone annually consumes four million barrels of flour not produced in their countries, the duty on which is \$5.80 a barrel. The United States could furnish every one of those barrels if it got a chance. You can put it down that Blaine won't run in 1892."

The bank's liabilities are \$262,500; West's private liabilities are \$95,500. If time is given it is hoped that no one will lose anything.
