A curious religious sect has been brought to light in China, through coming into contact with the government. Gold is going in great quantities to Europe, when there are reasons why it should not do so. But there is a mighty disturbing cause.

That cause is plain. It is that Europeans who have been seeking safe and profitable investments, and found them in this country, have noticed the perilous force of our financial foils, and seeing the danger that presently the dollar of the United States will be depreciated to the silver standard by the free coinage of silver, they are selling out their securities while they call for gold dollars.

Of course there is a movement akin to this on our side, and it takes the form of gold contracts—the insertion in bonds of the word gold. This seems very simple now, but if the silver madness waxes, the importance of the word will be found very great.
